CONFIDENTIAL

enroute to his office and before entering heard one of the local aircraft in the traffic pattern. Looking up he observed the aircraft had slightly to the left he saw 2 silver objects of either spherical or disc-like shape moving about 300 MPH at approximately 8000 ft heading about 320° due north. He immediately called S/Sgt Gerald E. Keenan, T/Sgt Joseph Ruvolo and Miss Janette Marie Scott. Witnesses all verified the sighting and the direction of the objects - all three stated that the objects were moving toward Mojave, Calif.

Witness was sure it was not an optical illusion or that the objects were not weather balloons since they traveled against prevailing wind and since the speed at which they traveled and the horizontal direction taken indicated that they were not weather balloons. Furthermore they could not remain at the same altitude so consistently if they were weather balloons. Witness then attempted to get personnel (medical officers) to further verify the sighting but by the time the additional personnel had arrived at the same the original objects had disappeared due to the speed at which they were traveling. However, two of them sighted a third object of a silver spherical or disc-like nature at approximately 8000 ft traveling in circles over the north end of the airfield. Five out of the seven personnel saw this object all looked away from the object several times to make sure there was no eye strain. He stated that this object performed too tight a circle to be any type of known aircraft.

Evaluation: Confirmed by other sources.

Witnesses: S/Sgt Gerald E. Keenan
T/Sgt Joseph Ruvolo
Miss Janette Marie Scott

About 0945 Lt McHenry, Billeting Officer in Charge, upon returning from the Post Exchange contacted the witness, Sgt Buval and asked him to look up in the sky. Witness observed two (2) flying objects which appeared like two flying discs or saucer-shaped silver-colored objects flying in a northwestern direction at approximately 350 to 400 MPH at an altitude of about 7500 or 8000 ft. He could hear no motor roar and was positive that it was not a balloon.

He states: "I am of good health and sound mind and this was no hallucination"

Evaluation: Confirmed by other sources.

RESTRICTED

flying discs traveling in a northwest direction at an estimated altitude of 7,000 or 8,000 ft at about 300 to 400 MPH.

Witness states he was in the Billeting Office when 1st Lt McHenry called him and 2 other witnesses outside. He was then asked what he saw. Sgt Nauman states he saw 2 objects and that he was positive that they could not have been aircraft, weather balloons or birds. Due to the altitude at which they flew they gave off a definite reflection from the rays of the sun. A few minutes later after the original two "discs" had disappeared he saw another object at the same altitude doing certain maneuvers such as flying in a tight circle. Its very tight maneuver precluded its being any known type of aircraft.

Witness states: "I have 20-20 vision"... "I have been flying in and have been around all types of aircraft since 1943 and never in my life have I seen anything such as this."

Evaluation: Confirmed by other sources

Joseph Burvol and S/Sgt. Gerald R. Hamman to the front of the F.O.Q. "A" Bldg. Pointing up in a direction directly above the group he asked them to explain what they saw. Witness states that she saw 2 silver-colored disc-like objects flying toward Mojave, Calif, one directly back of the other, at a speed of about 200 to 400 MPH at an altitude of approximately 8,000 ft. She listened carefully for a few minutes but could hear no drone such as occasioned by any other aircraft. Casting her eyes for a moment in another direction and then looking back to the same spot she was able to distinguish the same objects again. Aware that it was not eye-strain, she was convinced the objects were not weather balloons due to the horizontal position in which they traveled. Nor could they have been birds since they reflected the sun's rays.

Some three or four minutes after the objects had nearly disappeared she saw another flying object similar to the above-mentioned objects. It was silver-colored and disc-like in shape. Unlike the first two, it flew in a tight circle, neither losing nor gaining altitude, at approximately 8,000 ft. She thought it performed too tight a circle to have been any type aircraft with which she was familiar.

Evaluation: Confirmed by other sources

STATE OF CALIFORNIA)

COUNTY OF KERN)

The following is a statement given by 1st Lt. Joseph C. Maloney, Militant Officer, Army Air Field, Army, California, statement given on 11 July 1947, to Mr. Thomas A. McMillan, CIC S/A, this Station.

The following statement concerning the actual observation of what has been termed as a "flying disc" or a "flying saucer" is true and correct and it will be noted that the above mentioned observation was made by me personally while enjoying complete health in mind and body.

On Tuesday 8 July 1947, at approximately nine-thirty A.M. (09:30) I was in conversation with personnel in the Post Exchange Office. A part of this conversation was as follows:

"Someone will have to show me one of these discs before I will believe it."

Upon leaving the Post Exchange, I went directly to my Office and before entering heard one of our local aircraft in the traffic pattern. Looking up, as I always do I observed the aircraft, and looked slightly to the left, whereupon I observed two (2) silver objects of either a spherical or disc-like shape, moving about three hundred (300) miles an hour, or perhaps less, at approximately eight thousand (8000) feet, heading at about three hundred twenty degrees (320°) due north.

When I first observed these objects I called S/Sgt Gerald E. Kauma, T/Sgt Joseph Revolo and Miss Janette Marie Scott who immediately came to where I was standing. I pointed in the direction of the objects and asked them the question "Tell me what you see up there." Whereupon, all the three (3) with sundry comments stated, "They are flying Discs". To further verify my observation I asked them to tell me in what direction the objects were traveling, without indicating their direction myself, and again, all three (3) in a consistent nature stated that the objects were moving toward Mojave, California.

I had time to look away several times and renew my vision of the objects to make sure that there were not any results of eye strain, or in any nature an optical illusion. The objects in question were not repeated, were not aircraft, the objects could not have been weather balloons released from this station, since they were traveling against the prevailing wind, and since the speed at which they were traveling and the horizontal direction in which they were traveling, disqualified the fact that they were weather balloons.

CONFIDENTIAL

CONFIDENTIAL

COPY

After the observance of these phenomena and hoping that I might have time to enlist further witnesses, I immediately ran into the dispensary to get personnel who are medical officers to verify, for my own curiosity, the actual observance of these objects, but by the time I reached the bank porch of the dispensary, Mrs. A. C. Baum, who is a registered nurse, and about seven (7) other personnel were with me, the objects, had by that time, disappeared, due to the speed with which they were traveling. Upon further investigation, two (2) of us at the same time sighted another object of a silver spherical or disc-like nature at approximately eight thousand (8000) feet, traveling in circles over the North-end. I called the objects to the attention of Mrs. Baum and pointed it out to the other personnel standing near by. All of us saw the object, with the exception of two (2) out of seven (7) personnel. All of us looked away from the object several times to make sure there was no eye strain or from permitting the object to become an optical illusion.

From my actual observance the object circled in too tight a circle and too severe a plane to be any aircraft that I know of. It could not have been any type of bird because of the reflection that was created when the object reached certain altitudes. The object could not have been a local weather balloon for it is very impossible that a weather balloon would stay at the same altitude as long and circle in such a consistent nature as did the above mentioned object.

I am familiar with the results of too constant vision of the sun or any bright object and am aware that optical illusions are possible and probable. I wish to make this statement that the above mentioned observance was that of actual subject matter.

This statement has been given freely and voluntarily without any threats or promises under duress. This statement consists of two (2) pages, and is the truth to the best of my knowledge and belief. I have initialed all corrections deemed necessary.

The following is a statement given by T/Sgt. Joseph Ruvolo, 4144th. AAFPM, Muroc Army Air Field, Muroc, California, statement given on 14 July 1947, to 1st Lt J. C. McHenry, Billeting Officer.

This is my own written statement of what I saw on July 8, 1947.

I am NCO in charge of the Billeting Office, this Field, and First Lieutenant Joseph C. McHenry, is Billeting Officer in Charge.

About 09:45 he was returning from the Post Exchange when he called to me to come outside and asked me to look up to where he was pointing and to my surprise I saw two (2) flying objects which appeared to me like two (2) flying disc or saucer shaped silver colored objects, flying in a northwestern direction at speed approximately 350 or 400 miles per hour and at an altitude of about 7500 or 8000 feet. I could not hear a motor roar like one of our planes and it could not have been a balloon.

I am of good health and sound mind and this was no hallucination.

This statement has been given freely and voluntarily without any threats or promises under duress. This statement consists of one (1) page, and is the truth to the best of my knowledge and belief. I have initialed all corrections deemed necessary.

June # 12.

The following is a statement given by S/Sgt Gerald E. Beacham, 4144th AAFSC, Maroo Army Air Field, Maroo, California, statement given on 14 July 1947, to 1st Lt. J. C. McHenry, Billing Officer.

On the eight of July 1947 at ten o'clock (10:00) in the morning I observed personally two (2) flying disc, flying in a north west direction at an estimated altitude of seven or eight thousand feet, traveling at approximately three or four hundred miles per hour.

Just a few minutes before this I was in the Billing Office and first Lieutenant Joseph C. McHenry, called me and two (2) others outside. He then asked us what we saw. I saw two (2) objects with my own eyes, and I am now and was then in perfect physical condition. I have 20-20 vision and I am positive these two (2) objects could not have been aircraft, weather balloons or birds. Due to the altitude in which they were flying, they gave off a definite reflection from the rays of the sun.

In addition to these two (2) disc I saw another object a few minutes later at the same altitude doing certain maneuvers such as flying in a tight circle. The two disc had already disappeared. This object to my knowledge of aircraft could not have been an airplane because of the very tight maneuver it was undergoing. I have been flying in and have been around all types of aircraft since 1945 and never in my life have I seen anything such as this. If necessary I can and will swear to this statement.

This statement has been given freely and voluntarily without any threats or promises under duress. This statement consists of one (1) page, and is the truth to the best of my knowledge and belief. I have initialed all corrections deemed necessary.

The following is a statement given on 14 July 1947, by Jeanette Marie Scott, Secretary to 1st Lt J. C. McHenry, Billing Officer, Maroo Army Air Field, Maroo, California.

I am fully aware of my Civil and Constitutional Rights, and understand prior to making this statement.

On Tuesday morning 8 July 1947, at approximately 10:00, while typing some cards, and taking care of my routine work, Lieutenant McHenry called me, along with 1/Sgt. Joseph Arvold and 1/Sgt. Gerald A. Hanna, to the front of S.O.S. "A" Hdg. Pointing up in a direction directly above me he asked us to explain what we saw. There were two, silver colored disc like objects flying toward Mojave, California, one directly back of the other, at a speed of about 300 to 400 miles per hour, having an altitude of approximately 3000 feet. I listened carefully for a few minutes, and heard no drone, such as should be heard from any aircraft. I also used my eyes to another direction and looking back to the same spot, I was able to distinguish the same objects again. Having assured myself that there was no eye-strain, I was convinced these objects were not weather balloons due to the horizontal position in which they were flying. Nor could they have been birds of any nature, due to the definite reflection from the sun rays.

I have been at this base, considering an absence of six months, approximately eighteen months, and am familiar with all type aircraft.

About three or four minutes, after these flying objects had nearly disappeared, I glanced around and sighted another flying object, similar to the above mentioned objects. This flying object was silver colored and was in the shape of a disc. Unlike the first two said object was flying in a tight circle, neither losing nor gaining altitude, at approximately eight thousand feet, therefore I was convinced it could not have been a weather balloon, and because of the tight circle it could not have been any type aircraft.

This statement was given freely and voluntarily without threats or promises under duress. This statement consists of one (1) page, and is the truth to the best of my knowledge and belief. I have initialed all corrections deemed necessary.

I am of sound mind and body, and swear that this statement is true and correct.

The following is a statement given by Major Richard R. Shoop, Office of Chief of Tech. Engineering Division, March Army Air Field, March, California, statement given on 11 July 1947.

At approximately noon on 8 July 1947, my attention was called to an object in the air by Colonel Wilkey. I observed between five (5) and eight (8) miles to the North what appeared to be a thin metallic object. It appeared to be metallic because the method in which it was flying caused the sun to reflect like an apparently aluminum colored surface. The object moved from an intermediate altitude in an oscillating fashion, almost to the surface of the ground and then started climbing again. It climbed to a fairly high altitude and moved off slowly into the distance. The object appeared to be the size of a pursuit airplane but did not have the shape of a conventional plane. The time that the object was in view was approximately eight (8) minutes. This same object was seen by my wife at the same time.

This statement has been given freely and voluntarily without any threats or promises under duress. This statement consists of one (1) page, and is the truth to the best of my knowledge and belief. I have initialed all corrections deemed necessary.

The following is a statement given by Major J. C. Wise, Test Pilot, Muroc Army Air Field, Muroc, California, statement given to T. Thomas A. McMillan, CIC Agent, this station, on 13 August 1947.

On 7 July 1947, at approximately 10:10, while running up the XP- on the ground I noticed someone was looking up into the air. To the north about 10,000 to 12,000 feet altitude, was an object that I assumed at first to be a weather balloon, but after looking at it for a while I noticed that it was oscillating in a forward whirling movement without losing altitude. It was traveling about 200 to 225 MPH, and heading from west to east.

The object was yellowish white in color and I would estimate that it was a sphere about 5 to 10 feet in diameter.

I did not have time to chase it in a P-50.

This statement was given freely and voluntarily without any threats or promises under duress. This statement consists of one (1) page, and is the truth to the best of my knowledge and belief.

FILE 4

CONFIDENTIAL

CONFIDENTIAL

On the 5 July 1947 at 11:00 the undersigned was sitting in an observation truck located in Area 22, Rogers Dry Lake, and during upward toward a description of two (2) P-51's and an A-24 aircraft flying at 20,000 feet, preparing the crew out of a seat ejection experiment, when I observed a rounded object, white aluminum in color, which at first resembled a parachute canopy. The first impression was that a premature ejection of the seat and dummy had occurred. This body was ejected at a determined height lower than 20,000 feet, and was falling at three (3) times the rate observed for the parachute which ejected thirty minutes later. As it fell it drifted slightly north of the west against the prevailing wind, toward Mount Wilson. The speed, horizontal motion could not be determined, but appeared slower than the maximum velocity P-51 aircraft.

As this object descended through a low enough level to permit observation of its lateral silhouette, it presented a distinct ovaler outline, with two (2) projections on the upper surface which might have been thin fins or ribs. These crossed each other at intervals, suggesting either rotation or oscillation of slow type.

No smoke flames, propeller arcs, engine noise, or other audible or visible signs of propulsion were noted. The color was silvery, resembling aluminum painted fabric, and did not appear as dense as a parachute canopy.

When the object dropped to a level such that came into line of vision of the mountain tops, it was lost to the vision of the observer.

It is estimated that the object was in line of vision about 30 seconds. Of the five (5) people sitting in the observation truck, four (4) observed this object and made remarks about it. These people included

Mr. Lane - Civilian, Wright Field, Dayton, Ohio.
(Other names not given)

The following is my own personal opinion about this object:

1. I think it was a manmade object, as evidenced distinctly by the outline and structural appearance.
2. Its size was not far from 25 feet with a parachute canopy.
3. The path followed by this object appeared as though it might have been dropped from a great height.

Seeing this was not a hallucination or other function of a sense.

STATE OF CALIFORNIA)

COUNTY OF KERN)

The following is a statement given by Captain John Paul Strapp, F11 A Test, Muroc Army Air Field, Muroc, California, statement given to W. Thomas A. McMillan, CIC Agent, this Station, on 12 August 1947.

At 11:50 hours, 8 July 1947, while the undersigned was sitting in an observation truck located in Area 3, Rogers Dry Lake, for the purpose of observing a P-52 ejection seat experiment, the following unfamiliarity was observed.

The undersigned was gazing upward toward a formation of two (2) P-52's and an A-26 aircraft flying at 20,000 feet, preparing to carry out a seat ejection experiment, when I observed a rounded object, white aluminum in color, which at first resembled a parachute canopy. The first impression was that a premature ejection of the seat and dummy had occurred. This body was ejected at a determined height lower than 20,000 feet, and was falling at three (3) times the rate observed for the parachute which was ejected thirty minutes later. As it fell it drifted slightly north of our seat against the prevailing wind, toward Mount Wilson. The speed, horizontal motion could not be determined, but appeared slower than the maximum velocity 50-60 aircraft.

As this object descended through a low enough level to permit observation of its lateral silhouette, it presented a distinct ovalar outline, with two (2) projections on the upper surface which might have been thick fins or knobs. These crossed each other at intervals, suggesting either rotation or oscillation of slow type.

No smoke flames, propeller arcs, engine noise, or other audible (?) or visible means of propulsion were noted. The color was silvery, resembling aluminum painted fabric, and did not appear as dense as a parachute canopy.

When the object dropped to a level such that comes into line of vision of the mountain tops, it was lost to the vision of the observer.

It is estimated that the object was in line of vision about 30 seconds. Of the five (5) people sitting in the observation truck, four (4) observed this object and made remarks about it. These people include:

Mr. Lane - Civilian, Wright Field, Dayton, Ohio
(Other names not given)

The following is my own personal opinions about this object:

1. I think it was ~~an~~ the object, as evidenced distinctly by the outline and functional appearance.

Officer McNeill stated that at approximately 1:30, 1 July 1947 while he was on duty at President St. and feeding the pigeons in the parking lot back of the station he noticed that the pigeons became quite excited over something and fluttered in the air. Officer McNeill in looking around to see what had disturbed them saw 5 large discs in the air east of Portland; two discs flying south and three flying in an easterly direction. He stated he could determine no color to the discs but advised they were dipping in an up and down oscillating motion and were traveling at great speed. He was unable to give an estimate of the speed or altitude of the discs as they were out of sight before any detailed observation could be made. Officer McNeill advised that he notified the Police Radio and immediately broadcast an alert. He saw no indication of any activating force nor heard any sound coming from the discs and could give no description other than round.

MEMORANDUM FOR THE OFFICE OF ORIGIN

1. At 1808, 4 July 1947, a radio alert was issued via the Portland City Police Radio, advising all cars and listeners that some fast flying objects were in the air over Portland and vicinity. Upon contacting the radio dispatcher, this agent was advised that Kenneth A. McDowell, Patrolman, Portland City Police Department, residing at 816 S. E. Nash Street, Portland, Oregon, on duty at Precinct #1, Portland City Police, Southeast Division at 10th Avenue, had called in advising the dispatcher of the flying objects.

see #5

2. This agent interviewed Officer McDowell who stated at approximately 1808, 4 July 1947, he was on duty at Precinct #1, and was in the parking lot back of the Police Station, feeding the pigeons. At this time the pigeons became very excited over something and fluttered in the air all at once. Officer McDowell stated in looking around to see what had disturbed them, he saw five large discs in the air to the East of Portland two discs flying South and three flying in an Easterly direction. Officer McDowell stated he could determine no color to the discs, but advised they were dipping in an up and down oscillating motion and were traveling at a great speed. He was unable to give an estimate of the speed or altitude of these discs as they were out of sight before any detailed observation could be made. Officer McDowell advised he notified the Police Radio who immediately broadcast an alert. Officer McDowell advised he saw no indication of any motivating force or heard any sound coming from these discs and could give no description other than round.

see #6

3. This agent interviewed Sergeant Claude Cross, Oregon State Police Officer on duty at District Number 1 Station, Milwaukie, Oregon. Cross stated upon hearing the radio alert he went outside and upon looking in an Easterly direction he saw three discs following each other at an undetermined altitude and at a terrific speed, traveling in a Northwesterly direction. Cross advised he noticed a whitish brown glint to these objects as the sun reflected from them. Cross was unable to give any other description nor could he judge the objects speed or altitude. No sound was made by the objects.

see #7

4. This agent interviewed Earl E. Patterson, Patrolman, Portland City Police Department, and residing at 124 Southeast 15th Avenue, Portland, Oregon. Patterson advised he was a former Air Corps pilot during the war. He stated that the time the radio alert sounded, he was at Southeast 12th and Foster Road, Portland, and upon getting out of his car he saw one disc flying in a Southwesterly direction over Portland. Patterson advised this disc was aluminum in color, left no vapor trail or smoke trail and was traveling at a terrific speed, faster than he has ever seen any flying object before. Patterson further advised, although not knowing the exact size of the object it is difficult to determine the altitude, he estimates its altitude at 20,000 feet.

Patterson further advised the flying disc was definitely some type of aircraft but he could not give any further description as its speed made observation difficult. He heard no sound whatsoever from the flying objects.

5. This agent interviewed W. A. Lissy and D. W. Ellis, both Patrolmen, Portland City Police Department and both possess private pilots licenses. Both officers advised that upon hearing the radio alert, they saw three flat round discs, having a white color to them. These discs were, according to these officers, flying at a terrific speed in a southerly direction away from Portland. They described them as flying in a straight line formation, the last disc fluttering very rapidly in a side way arc. They further advised the discs were equally spaced and kept in formation. Both officers estimated the discs altitude at 40,000 feet. They saw no evidence of any motivating powers and vapor trails or smoke trails. Both officers stated these discs were traveling so fast, they were out of sight before any detailed observation could be made, or any sound could be heard.

AGENT'S NOTE: All informants mentioned herein are known to this agent as very dependable and trustworthy officers, not being afflicted with hallucinations. The weather in the Portland area at this time was clear with little or no cloud formations being visible from the ground. Ground temperature at this time was 82 degrees Fahrenheit.

FROM THE OREGON JOURNAL - 6 July 1947, Portland, Ore.

"FROM THE SPOT DISKS IN SKY HERE"

Whatever they are, there are some disk-like objects flying around in the sky.

Or else eight Portland area policemen and deputy sheriffs who sighted the objects Friday, numerous private citizens, the crew of a United Air Lines plane over Boise, Idaho, and a coastguardman who claims to have photographed one near Seattle, are all wrong.

In Portland the alert was sounded over police radio at 1:06 p.m. Friday, after the East Side station received a score of calls that the disks were overhead. Within seconds, two patrol cars reported spotting the mystery craft.

FLASHES SEEN, NOISE LACKING.

First to report in were Patrolman Walter Lissy and Robert Ellis in Car No. 52, who stopped near Oaks Park. Both World War II veterans and civilian pilots, they sighted three of the objects within 30 seconds traveling at great height and speed over the park. They reported they heard no engine noises but saw flashes. The objects seemed erratic and changed direction of flight. The patrolmen agreed that without knowledge of the size of the objects it would be impossible to judge their speed or altitude.

Patrolman Earl Patterson in car No. 13 stopped at SE 51st avenue and Foster road to look eastward from there the disks were reported. Telephone calls located them coming out of the sun. He saw nothing, but a few seconds later observed one coming out of the west and heading southwest. The craft seemed to be aluminum or eggshell white and didn't flash or reflect light, he said.

OBJECTS UNIDENTIFIED.

A former air corps veteran, he said the object was unlike any plane he'd ever seen. He thought it appeared radio-controlled because the disk could change direction at a 90-degree angle without difficulty.

Members of the harbor patrol at the foot of NW Irving street stopped out when they heard the all-car alert. Capt. E. A. Frahm, Harbor Pilot, A. T. Aucted and Patrolman K. C. Hoff all saw the objects and said they appeared to be going south high over the Globe mills at terrific speed. Capt. Frahm said the flashes kept them from ascertaining whether there were three or six.

"The disks would oscillate, and sometimes we would see a full disk, then a half-moon shape, with nothing at all," he reported. The objects looked more like a shiny aluminum hub cap off a car which wobbled, disappeared and reappeared."

There was a plane in the sky at the time, but all were emphatic that the disks were not planes.

INC. FILE 3

CONFIDENTIAL

FROM THE OREGON JOURNAL - 5 July 1947, Portland, Ore.

AIRLINES CREW CONFIRMS REPORTS OF FLYING DISKS: FIVE SPOTTED.

Circumstantial reports of flying disks in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guardman near Seattle, as well as from Portland area police and citizens.

T. J. Smith, captain of the airliner, told United Press that he sighted five "somethings" which were "thin and smooth on the bottom and rough appearing on top." The objects appeared against the sunset shortly after the plane took off at 5:04 p.m., he said.

"I saw them clearly," he reported. "We followed them in a north-westerly direction for about 45 miles. Finally the objects disappeared. We were unable to tell whether they outgassed us or disintegrated."

NOT AIRCRAFT.

"We can't say whether they were saucer-like, oval or anything else," the captain said, "but whatever they were, they were not another aircraft, nor were they smoke or clouds."

In Seattle, Coast Guardsman Frank Ryman, 27, reported to United Press that he snapped a picture from the front porch of his home which showed a "white saucer" flying over the north end of Lake Washington.

Anna Hess Pictures, New York City, said a 7x9 inch print of the photograph showed two tiny dots, one of which was a flaw in the print.

Don McCalfe, 19, Oaks Amusement park employe, reported that he saw several objects "like spinning disks" in the sky Friday. He said several picnicers, including a woman pilot noticed them.

In Vancouver, Wash., Sheriff's Deputies John Sullivan, Clarence McKay and Fred Krives heard the Portland police radio broadcast and ran out of the sheriff's office to look at the sky. Over Portland, three to five miles away, Sullivan said, they saw 20 to 30 objects "like a flight of geese." They heard a low humming sound.

OTHERS DOUBTFUL.

Col. G. R. Dodson, commander of the Oregon national guard, made an inspection of this area from the air after the disks were reported here. He said he saw nothing "suspicious."

Only known military airplanes in the air at the time of the reports were 23 B-29 bombers near Astoria.

Despite all the reports, at least two persons remained unconvinced of the existence of the disks. Al P. Sanford, Holgate seecrage, gave his opinion that the objects were cottonwood blossoms.

Burl Kellech, 64, of 8604 S. Barrage avenue, telephoned the Journal to berate the newspapers for "perpetrating a hoax." He said he saw objects in the sky about a minute after an airplane passed over his house. To him the objects looked like bits of aluminum foil, perhaps cigarette wrappers.

INC 1122

From the Oregon Journal - continued.

MORE SEEN LATER.

Several late flights of objects over Portland were reported Friday afternoon. E. A. Evans, 3433 SW Macadam avenue, said he saw three fly east across the Willamette river near the Ross Island bridge about 2 p.m.

The objects did not appear high, he said, and were traveling so fast that, appearing in the west, they were out of sight in the east in two to four seconds. He said they resembled metallic disks glinting in the sunlight.

Later, he said, he and neighbors saw a single disk-like object flying north far away and very high.

At 4:30 p.m., Mrs. Lawrence J. Hayward, 6124 NE 21st Avenue, reported sighting a disk "like a new dime flipping around" in the air over the Sandy district. She said it seemed to be moving slowly.

Thomas W. Dwyer, 1232 NE 59th Avenue, said he sighted two white or silver objects flying southeast high over Portland a few minutes before 5 p.m. He reported another, headed northeast, over his home at 6:30 p.m.

C. J. Bague, Tigard, reported that four disks flew past Mount Jefferson at about 11 a.m. while he was driving near Redmond.

Sherman Cook, 2000 NE 85th avenue, recovered from Ross City golf course a piece of paper he said had fallen from a great height in the sky. Time of its fall coincided with some of the reports of flying disks. The paper, of low quality, measured 23½ x 36 inches.

SILVERED DISKS, DROPPED BY PLANE.

EUGENE, July 5 -(AP)- A Eugene railroad cashier said Friday he saw silvered disks being dropped out of a light airplane flying over this city.

E. P. Smith, Rt 2, Eugene, an assistant cashier for the Southern Pacific Railroad, said he was driving on a Eugene street when --

"PROUL CARS SPOT DISK IN SKY HERE"

Whatever they are, there are some disk-like objects flying around in the sky.

Or else eight Portland area policemen and deputy sheriffs who sighted the objects Friday, numerous private citizens, the crew of a United Air Lines plane over Boise, Idaho, and a constabulary who claim to have photographed one near Seattle, are all wrong.

In Portland the alert was sounded over police radio at 1:00 p.m. Friday, after the East Side station received a score of calls that the disks were overhead. Within seconds, two patrol cars reported spotting the mystery craft.

PLANE'S SEEN, JOHN LACKING.

First to report in were Patrolman Walter Lacey and Robert Fille in Car No. 88, who stopped near Oaks Park. Both World War II veterans and civilian pilots, they sighted three of the objects within 30 seconds traveling at great height and speed over the park. They reported they heard no engine noises but saw flashes. The objects seemed erratic and changed direction of flight. The patrolmen agreed that without knowledge of the size of the objects it would be impossible to judge their speed or altitude. Patrolman Earl Patterson in car No. 18 stopped at SE 24th Avenue and Foster road to look eastward from there the disks were reported. Telephone calls located them coming out of the sun. He saw nothing, but a few seconds later observed one coming out of the west and heading southwest. The craft seemed to be aluminum or eggshell white and didn't flash or reflect light, he said.

OBJECTS UNIDENTIFIED.

A former aircorps veteran, he said the object was unlike any plane he'd ever seen. He thought it appeared radio-controlled because the disk could change direction at a 90-degree angle without difficulty.

Members of the harbor patrol on the foot of SE Irving street stopped out when they heard the all-car alert. Capt. E. A. Frahn, Harbor Pilot, A. T. Aarstad and Patrolman E. G. Hoff all saw the objects and said they appeared to be going south high over the Globe mills at terrific speed. Capt. Frahn said the flashes kept them from ascertaining whether there were three or six.

"The disks would emit a light ^{if} someone in world was a ball disk, then a half-inch deep, then nothing at all," he reported. The objects looked more like a shiny Chrysler big top car which settled, disappeared and reappeared.

There was a plane in the sky at the time, but all were emphatic that the disks were not planes.

AIRLINES COOK CONFIRM REPORTS OF FLYING DISKS; FIVE SPOURED.

Circumstantial reports of flying disks in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guardman near Seattle, as well as from Portland area police and citizens.

L. J. Smith, captain of the airliner, told United Press that he sighted five "somethings" which were "thin and smooth on the bottom and rough appearing on top." The objects appeared against the sunset shortly after the plane took off at 6:04 p.m., he said.

"We saw them clearly," he reported. "We followed them in a westerly direction for about 45 miles. Finally the objects disappeared. We were unable to tell whether they outaged us or disintegrated."

NOT AIRCRAFT.

"We can't say whether they were saucer-like, oval or anything else," the captain said, "but whatever they were, they were not another aircraft, nor were they smoke or clouds."

In Seattle, Coast Guardsman Frank Ryann, 27, reported to United Press that he snapped a picture from the front porch of his home which showed a "white saucer" flying over the north end of Lake Washington.

Lance News Pictures, New York City, said a 7x9 inch print of the photograph showed two tiny dots, one of which was a flash in the print.

Don Wrenn, 19, Oaks Amusement park employee, reported that he saw several objects "like spinning disks" in the sky Friday. He said several pictures, including a woman pilot noticed them.

In Vancouver, Wash., Sheriff's Deputies John Sullivan, Clarence Kelly and Fred Ervine heard the Portland police radio broadcast and ran out of the sheriff's office to look at the sky. Over Portland, three to five miles away, Sullivan said, they saw 20 to 30 objects "like a flight of geese." They heard a low humming sound.

OTHER DOUBTFUL.

Col. G. R. Dodson, commander of the Oregon national guard, made an inspection of this area from the air after the disks were reported here. He said he saw nothing "suspicious."

Only known military airplanes in the air at the time of the reports were 25 B-25 bombers near Astoria.

Despite all the reports, at least two persons remained unconvinced of the existence of the disks. Al P. Sanford, Elgato manager, gave his opinion that the objects were outwashed balloons.

Earl Hallow, 64, of 6804 E. Burroughs avenue, telephoned the Journal to harass the newspaper for "perpetrating a hoax." He said he saw objects in the sky about a minute after an airplane passed over his house. To him the objects looked like bits of aluminum foil, perhaps cigarette wrappers.

CONFIDENTIAL

From the Oregon Journal - continued.

MORE SEEN LATER.

Several late flights of objects over Portland were reported Friday afternoon. E. A. Burns, 8438 SW Macadam avenue, said he saw three fly east across the Willamette river near the Rose Island bridge about 2 p.m.

The objects did not appear high, he said, and were traveling so fast that, appearing in the west, they were out of sight in the east in two to four seconds. He said they resembled metallic disks glinting in the sunlight.

Later, he said, he and neighbors saw a single disk-like object flying north far away and very high.

At 4:30 p.m., Mrs. Lawrence J. Hayward, 6124 NE Flat Avenue, reported seeing a disk "like a new disc flipping around" in the air over the Sandy district. She said it seemed to be moving slowly.

PAPER RECOVERED.

Thomas C. Dwyer, 1232 E. 20th Avenue, said he sighted two white or silver objects flying southeast over Portland a few minutes before 2 p.m. He reported another, headed northeast, over his home at 5:20 p.m.

J. J. Dague, Tigard, reported that four disks flew past Mount Jefferson at about 11 a.m. while he was driving near Redmond.

Sherman Cook, 2000 N. 68th avenue, recovered from Rose City golf course a piece of paper he said had fallen from a great height in the sky. Time of its fall coincided with some of the reports of flying disks. The paper, of low quality, measured 22½ x 34 inches.

SILVERED DISKS, DROPPED BY PLANE.

SPRINGFIELD, July 6 (AP)— Eugene railroad cashier said Friday he saw silvered disks being dropped out of a light airplane flying over this city.

E. P. Smith, 22 E. Eugene, an assistant cashier for the Southern Pacific Railroad, said he was driving on a Eugene street when —

"Flying Disks" Maneuvering Over Oregon

PORTLAND, Ore., July 4.—(AP)—Two police patrol cars reported today they saw a large formation of "flying disks" maneuvering over a Portland residential area today. Their radioed reports to headquarters followed the same general pattern of reports of similar objects reported over the week—that they were high, looked like large saucers, glided in the sun, and flew with an undulating motion. The police bureau asked the national guard aerial squadron to investigate.

WASHINGTON, July 4.—(UP)—A navy spokesman doubted tonight that the "flying saucers" seen in 11 states are a new experimental navy plane, known as the "Flying Saucer."

(A Los Angeles newspaper had suggested that the discs might be a new type navy airplane.)

He said the navy was checking reports that the "saucers" and the "Shoject" are one and the same. But he said, as far as could be learned immediately, none of the navy's new craft is in areas where the flying discs have been reported.

PINC FILE 7

7

From the Oregon Journal - 3 July 1947, Portland, Oregon
(References incidents 5, 6, 7, 8 and 9)

Whatever they are, there are some disc-like objects flying around in the sky.

On one night (10) Portland area policeman and deputy sheriffs who sighted the objects Friday, numerous private citizens, the crew of a United Air Lines plane over Beas, Idaho, and a mountaineer who claims to have photographed one near Seattle, are all wrong.

In Portland, the alert was issued over police radio at 1:06 P. M. Friday, after the East Side Station received a score of calls that the discs were overhead. Within minutes, two patrol cars reported spotting the mystery craft.

RAMON SHER, JOHN LAMON.

First to report in were Patrolman Edgar Lamy and Robert Hill in car No. 62, who stopped near Gabe Park. Both were U. S. Veterans and civilian pilots, they sighted three of the objects within 30 seconds traveling at great height and speed over the park. They reported they heard no engine noise but saw flashes. The objects moved erratically and changed direction of flight. The patrolmen agreed that without knowledge of the size of the objects it would be impossible to judge their speed or altitude.

Patrolman Earl Patterson in car no. 13 stopped at 85 1/2 Avenue and Foster road to look southeast from where the discs were reported. Telephone calls located them coming out of the area. He saw nothing, but a few seconds later observed one coming out of the west and heading southwest. The craft seemed to be aluminum or eggshell white and didn't flash or reflect light, he said.

ALVIN UNRECORDED.

A former airplane veteran, he said the object was within my plane he'd ever seen. He thought it appeared radio-controlled because the disc could change direction at a 90° angle without difficulty.

Members of the lumber patrol at the foot of NE Irving street stopped and when they heard the all-out alert. Sgt. E. A. Fries, Motor Pilot, J. E. Axtel and Patrolman E. S. Hall all saw the objects and said they appeared to be going south high over the Gabe hills at terrific speed. Sgt. Fries said the flashes kept them wondering whether there were three or six.

"The discs would oscillate and sometimes go south on a full disc, then a half-disc shape, then nothing at all," he reported. The objects looked more like a shiny aluminum ball than an oval or disk without, disappeared and reappeared.

There was a plane in the sky at the time, but all were certain that the discs were not planes.

INC FILE 7

AIRLINES GIVE CONFIRMING REPORTS OF BLIND FLIES. FIVE SPOTTED.

Circumstantial reports of flying discs in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guardman near Seattle, as well as from Portland area police and citizens.

E. J. Smith, captain of the airplane, told United Press that he sighted five "something" which were "thin and smooth on the bottom and rough appearing on top." The objects appeared against the sunset shortly after the plane took off at 6:04 p. m., he said.

"We saw them clearly," he reported. "We followed them in a north-westerly direction for about 15 miles. Finally the objects dimmed and we were unable to tell whether they escaped us or disintegrated."

NOT AIRCRAFT.

"We can't say whether they were saucer-like, oval or anything else," the captain said. "But whatever they were, they were not another aircraft, nor were they smoke or clouds."

In Seattle, Coast Guardman Frank Ryan, 27, reported to United Press that he snapped a picture from the front porch of his home which a "white saucer" flying over the north end of Lake Washington.

Anna Rose Fickens, New York City, said a 7x7 print of the photograph showed two tiny dots, one of which was a star in the print.

Sam Hotalife, 19, Coles Amusement park employee, reported that he saw several objects "like spinning discs" in the sky Friday. He said several witnesses, including a woman pilot noticed them.

In Vancouver, Wash., Sheriff's Deputies, John Sullivan, Charles McKay and Fred Erivo heard the Portland police radio broadcast and ran out of the sheriff's office to look at the sky. Over Portland, three to five miles away, Sullivan said, they saw 20 to 30 objects "like a flight of geese". They heard a low humming sound.

OTHER REPORTS

Col. G. L. Nelson, Commander of the Oregon national guard, made an inspection of this area from the air after the discs were reported here. He said he saw nothing "unusual".

Only known military airplanes in the air at the time of the reports were 21 B-29 bombers near Alaska.

INT

7

Despite all the reports, at least two persons remained unconvinced of the existence of the discs. A. F. Sanford, Raleigh manager, gave his opinion that the objects were atmospheric balloons.

Earl Ballant, 64, of 6604 N. Haysville Avenue, telephoned the Journal to berate the newspaper for "perpetrating a hoax". He said he saw objects in the sky about a minute after an airplane passed over his house. To him, the objects looked like bits of aluminum foil, perhaps cigarette tappers.

WENT DOWN LATER.

Several late flights of objects over Portland were reported Friday afternoon. R. A. Evans, 7333 SW Marshall Avenue, said he saw three fly east across the Willamette river near the Ross Island bridge about 2 p. m. that, appearing in the west, they were out of sight in the east in two to four seconds. He said they resembled metallic discs glinting in the sunlight.

Later, he said, he and neighbors saw a single disc-like object flying north far away and very high.

At 4:30 p. m. Mrs. Laurence J. Hayward, 6124 NE 21st Ave., reported sighting a disc "like a new disc flipping around" in the air over the Sandy district. She said it seemed to be moving slowly.

PAPER DISCOVERED.

Thomas V. Egan, 1232 NE 75th Avenue, said he sighted two white or silver objects flying southeast high over Portland a few minutes before 5 p. m. He reported another, headed northeast, over his house at 5:30 p. m.

G. J. Egan, Tigard, reported that four discs flew past Mount Jefferson at about 11 a. m., while he was driving near Redmond.

Garrett Cox, 2102 NE 67th Avenue, recovered from Ross City golf course a piece of paper he said had fallen from a great height in the sky. Time of its fall coincided with some of the reports of flying discs. The paper, of low quality, measured 4 1/2 x 3 inches.

SIGHTED NEAR, SEVERAL IN PLACE.

From the Oregon Journal - 5 July 1947, Portland, Oregon
(Reference incidents 5, 6, 7, 8 and 9)

Whatever they are, there are some disc-like objects flying around in the sky.

Or else eight (8) Portland area policemen and deputy sheriffs also sighted the objects Friday, numerous private citizens, the crew of a United Air Lines plane over Boise, Idaho, and a mailman whose claim to have photographed one near Seattle, are all wrong.

In Portland, the alert was issued over police radio at 1:05 P. M. Friday, after the Post High Station received a score of calls that the discs were overhead. Within moments, two patrol cars reported spotting the mystery craft.

RAMON SMITH, FRONT LAUNCH.

First to report to news Publisher William Lacey and Robert Hill in the No. 22, who stopped near Lake Park. With them were 11 veterans and civilian pilots, they sighted three of the objects within 30 seconds traveling at great height and speed over the park. They reported they heard no engine noises but saw flashes. The objects moved erratic and changed direction of flight. The policemen agreed that without knowledge of the size of the objects it would be impossible to judge their speed or altitude.

Policeman Earl Patterson in car no. 13 stopped at 25 1/2 Avenue and Foster road to look southeast from where the discs were reported. Telephone calls located them coming out of the sun. He saw nothing, but a few moments later observed one coming out of the west and heading southeast. The craft seemed to be aluminum or copper in color and didn't flash or reflect light, he said.

GEORGE WILSON, WILSON.

A former airplane veteran, he said the object was within my plane 1/4 over me. He thought it appeared radio-controlled because the disc could change direction at a 90° angle without difficulty.

None of the latter patrol at the foot of W Irving street stopped and saw the disc the all-over alert. Sgt. I. A. Fahn, Harbor Patrol, A. 2. and Patrolman E. G. Hoff all saw the objects and said they appeared to be going south high over the hills at Seattle's coast. Sgt. Hoff said the discs had been seen elsewhere whether there was disc or not.

The discs would oscillate and sometimes go south on a full disc, that a half-disc shape, then nothing at all, he reported. The discs looked more like a shiny aluminum hub cap off a car than metal, disappeared and reappeared.

There was a plane in the sky at the time, but all were certain that the discs were not planes.

AILING CITY CAPTURES EVIDENCE OF FLYING DISCS. FIVE SPOTTED.

Circumstantial reports of flying discs in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guardman near Seattle, as well as from Portland area police and citizens.

E. J. Smith, captain of the airplane, told United Press that he sighted five "something" which were "flat and smooth on the bottom and rough appearing on top." The objects appeared against the sunset shortly after the plane took off at 8:00 p. m., he said.

"We saw them clearly," he reported. "We followed them in a north-westerly direction for about 4 1/2 miles. Finally the objects disappeared. We were unable to tell whether they captured us or disintegrated."

NOT AIRCRAFT.

"We can't say whether they were saucer-like, oval or anything else," the captain said. "But whatever they were, they were not another aircraft, nor were they comets or clouds."

In Seattle, Coast Guardman Frank Rupp, 27, reported to United Press that he snapped a picture from the front porch of his home which a "white saucer" flying over the north end of Lake Washington.

Ann Ross Peterson, New York City, said a 7x7 print of the photograph showed her tiny boat, one of which was a float in the print.

Les McDevitt, 18, Gate Amusement park employee, reported that he saw several objects "like spinning discs" in the sky Friday. He said several pictures, including a woman pilot noticed them.

In Vancouver, Wash., Sheriff's Reporter, John Sullivan, Clarence Kelly and Fred Brown heard the Portland police radio broadcast and ran out of the sheriff's office to look at the sky. Over Portland, three to five miles away, Sullivan said, they saw 20 to 30 objects "like a flight of geese". They heard a low humming sound.

CHIEF DENIES

Col. G. E. Nelson, Commander of the Oregon national guard, made an inspection of this area from the sky after the discs were reported here. He said he saw nothing "unexplainable".

Only three military airplanes in the air at the time of the reports were 2) 2-47 bombers near Astoria.

Despite all the reports, at least ten persons remained unconvinced of the existence of the discs. Al P. Sanford, Helgate message, gave his opinion that the objects were cottonwood blossoms.

Earl Ballack, 61, of 6124 E. Burrows Avenue, telephoned the Journal to berate the newspaper for "perpetrating a hoax". He said he saw objects in the sky about a minute after an airplane passed over his house. To him, the objects looked like bits of aluminum foil, perhaps cigarette wrappers.

WOMAN SEES LIGHTS.

Several late flights of objects over Portland were reported Friday afternoon. E. A. Evans, 3433 SW Hamman Avenue, said he saw three fly east across the Willamette river near the New Island bridge about 2 p. m. that, appearing in the west, they were out of sight in the east in two to four seconds. He said they resembled metallic discs glinting in the sunlight.

Later, he said, he and neighbors saw a single disc-like object flying north far away and very high.

At 4:30 p. m. Mrs. Lawrence J. Hayward, 6124 SE Elm Ave., reported sighting a disc "like a new disc flipping around" in the air over the Sandy district. She said it seemed to be moving slowly.

FARM KNOWLED.

Thomas E. Dyer, 1232 SE 77th Avenue, said he sighted two white or silver objects flying southeast high over Portland a few minutes before 5 p. m. He reported another, headed northwest, over his head at 5:30 p. m.

G. J. Fagan, Tigard, reported that four discs flew past Mount Jefferson at about 11 a. m., while he was driving near Redmond.

Thomas Lee, 2000 SE 67th Avenue, recovered from Rose City golf course a piece of paper he said had fallen from a great height in the sky. One of its fall coincided with some of the reports of flying discs. The paper, of low quality, measured 2 1/2 x 3 3/8 inches.

SIGHTED DISC, REPORTED BY SAILOR.

WHEAT, July 5 (AP) A Sages railroad engineer said Friday he saw silvered disc being dropped out of a light airplane flying over this city

E. F. Smith, 28 E. Sages, an assistant engineer for the Southern Pacific Railroad, said he was driving on a Sages street when --

Members of the harbor patrol at the foot of 25 Irving Street stopped and
when they heard the all-car alert. Capt. E. A. Frahm, Harbor Pilot, A.T.
Jested and Patrolman K. G. Huff, all saw the objects and said they appeared
to be going south high over the Glove Hills at terrific speed. Capt. Frahm
said the flashes kept them from ascertaining whether there were three or six.

"The discs would oscillate and sometimes we would see a full disc, then a
half-moon shape, then nothing at all," he reported. The objects looked just
like a shiny chromium hub cap off a car which whizzed, disappeared and reappeared.

There was a plane in the sky at the time, but all were emphatic that the discs
were not planes.

RELIABILITY: Corroborated report

RESTRICTED

From the Oregon Journal - 5 July 1947, Portland, Oregon
(Reference incidents 5, 6, 7, 8 and 9)

Whatever they are, there are more disc-like objects flying
in the sky.

On disc eight (8) Portland area policemen and deputy sheriffs a-
sighted the objects Friday, numerous private citizens, the crew of a
United Air Lines plane over Salem, Idaho, and a quartermaster who
claims to have photographed one near Seattle, are all wrong.

In Portland, the alert was sound over police radio at 1:05 P. M.
Friday, after the Post Office Station received a cascade of calls that the
discs were overhead. Within minutes, two patrol cars reported spotting the
sneaky craft.

RAMSIS ONE, MISS LAMON.

First to report in case Paterson being Miss and Robert Miss in car
No. 12, who stopped near Gale Park. With Miss and II witnesses and civilian
pilots, they sighted three of the objects within 30 seconds traveling at
great height and speed over the park. They reported they heard no engine
noise but saw flashes. The objects moved erratic and changed direction
of flight. The witnesses agreed that without knowledge of the size of the
objects it would be impossible to judge their speed or altitude.

Paterson Sgt. Patterson in car no. 13 stopped at 22 1/2 Avenue and
Foster road to look southeast from where the discs were reported. Slight
calls located that coming out of the sun. He saw nothing, but a few seconds
later observed one coming out of the west and heading southeast. The craft
seemed to be aluminum or eggshell white and didn't flash or reflect light,
he said.

MISS LAMON.

A former airplane veteran, he said the object was unlike any plane he'd
ever seen. He thought it appeared radio-controlled because the disc could
change direction at a 90° angle without difficulty.

Members of the higher patrol at the Post of St Irving street observed all
that they heard the all-air alert. Sgt. I. A. Foss, Motor Fleet, I. S.
Armed and Paterson E. S. Hall all saw the objects and said they appeared
to be going south high over the Idaho hills at terrific speed. Sgt. Foss
said the flashes kept them wondering whether there were three or six.

The discs could oscillate and maneuver as well as a ball, that
a ball-thrower says, says nothing at all, he reported. The objects
looked very like a shiny disc but they off a car which would
disappear and disappear.

There was a flash in the sky at the time, but all were certain that the
discs were not planes.

1 INC FILE 9

ALONG THE COAST NORTH OF ALASKA MOUNT. 2178 20749.

Circumstantial reports of flying discs in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guard cutter near Seattle, as well as from Portland area police and citizens.

R. J. Smith, captain of the airplane, told United Press that he sighted five "saucers" which were "thin and smooth on the bottom and rough appearing on top." The objects appeared against the sunset shortly after the plane took off at 6:00 p. m., he said.

"We saw them clearly," he reported. "We followed them in a north-westerly direction for about 45 miles. Finally the objects disappeared. We were unable to tell whether they changed size or disintegrated.

NOT AIRCRAFT.

"We can't say whether they were saucer-like, oval or anything else," the captain said. "We discovered they were not aircraft, nor were they smoke or clouds."

In Seattle, Coast Guard cutter Point Barrow, 27, reported to United Press that he snapped a picture from the front porch of his home which a "white saucer" flying over the north end of Lake Washington.

Ann Ross Peterson, Box 100, said a 7x5" print of the photograph showed two tiny dots, one of which was a star in the print.

Don Hotaling, 15, 6th Avenue, reported that he saw several objects "like spinning discs" in the sky Friday. He said several witnesses, including a woman pilot, noticed them.

In Vancouver, Wash., Sheriff's deputies, John Sullivan, George McKay and Fred Strain heard the Portland police radio broadcast and ran out of the sheriff's office to look at the sky. Over Portland, three to five miles away, Sullivan said, they saw 20 to 30 objects "like a flight of geese". They heard a low humming sound.

OTHER REPORTS.

Col. G. R. Nelson, commander of the Oregon national guard, made an inspection of this area from the air after the discs were sighted here. He said he saw nothing "unexplained".

Only seven military airplanes in the air at the time of the reports were 20 to 25 hours near Alaska.

11110
FILE

Pa

Despite all the reports, at least two persons remained unconvinced of the existence of the discs. Al P. Sanford, Raleigh manager, gave his opinion that the objects were cottonwood blossoms.

Earl Hallack, 64, of 6604 N. Haverly Avenue, telephoned the Journal to berate the newspaper for "perpetrating a hoax". He said he saw objects in the sky about a minute after an airplane passed over his house. To him, the objects looked like bits of aluminum foil, perhaps cigarette wrappers.

NEWS THIS EVENING.

Several late flights of objects over Portland were reported Friday afternoon. E. A. Evans, 3977 W. Madison Avenue, said he saw three fly east across the Willamette river near the Ross Island bridge about 2 p. m. then, appearing in the west, they were out of sight in the east in less than four minutes. He said they resembled metallic discs glinting in the sunlight.

Later, he said, he and neighbors saw a single disc-like object flying north for many and very high.

At 4:30 p. m. Mrs. Lawrence J. Hayward, 6124 SE 21st Ave., reported sighting a disc "like a new disc flipping around" in the air over the Sandy district. She said it seemed to be moving slowly.

FAREW HENNING.

Thomas V. Ryan, 1274 SE 37th Avenue, said he sighted two white or silver objects flying southeast high over Portland a few minutes before 5 p. m. He reported another, headed northwest, over his home at 5:30 p. m.

G. J. Ryan, 1124, reported that four discs flew past Mount Jefferson at about 11 a. m., while he was driving near Redmond.

Thomas Lee, 2025 SE 67th Avenue, recovered from Ross City golf course a piece of paper he said had fallen from a great height in the sky. One of its fall coincided with some of the reports of flying discs. The paper, of low quality, measured 2 1/2 x 3 1/2 inches.

MILWAUKEE NEWS, MILWAUKEE WISCONSIN.

NEWS, July 5 (AP) A Eugene railroad worker said Friday he saw silvered discs being dropped out of a light airplane flying over this city

R. F. Smith, 16 1/2, Eugene, an assistant engineer for the Southern Pacific Railroad, said he was driving on a Eugene street when --

CONFIDENTIAL

Capt E. J. Smith, US Pilot, currently in Seattle reported that he and the entire crew of one westbound US plane saw three flying objects near South, Idaho. At first he saw 3 discs flying what appeared to be a "V" formation. They called Harry Hoover, Steamboiler, to the cockpit to verify that they were actually seeing the discs. He saw them too. Then they saw 4 more of them, three cluster together, and a 4th flying by itself, way off in the distance.

Capt Smith described them as follows:

5 "something" which were "flat and smooth on the bottom and rough appearing on top." Silhouetted against sunset shortly after the plane took off at 8:00 p. m. "He saw them clearly," he reported. "He followed them in a northeasterly direction for about 45 miles. Finally they disappeared. He was unable to tell whether they escaped the plane or disintegrated.

He couldn't determine the shape. "He can't say whether they were saucer-like, oval or anything else." "But whatever they were, they were not other aircraft, nor were they comets or clouds."

RELIABILITY: Corroborated report by a US Pilot

MEMORANDUM FOR THE DIRECTOR IN WASHINGTON

1. On 12 July 1947, Captain Smith, of the United Airlines, was interviewed at the Boise Municipal Airport, Boise, Idaho. Captain Smith was passing through Boise on a schedule flight at the time and had a 20 minute stop-over. Captain Smith reiterated the statements originally made by him to the press as to what he had seen in the late evening of July 4th, when 8 minutes out of Boise on the route to Seattle, Washington. It is the opinion of the interviewer that due to the position Captain Smith occupies, that he, Captain Smith, would have to be very strongly convinced that he actually saw flying disks before he would open himself for the ridicule attached to a report of this type.

BLIND LIGHTS

The crew of a westbound Boise-to-Seattle United Air Lines plane reported they had seen nine flying discs near the airplane's route over Bennett, Ida.

Capt. E. J. Smith, of UAL Flight 108 which left Boise at 9:04 p. m., said that his co-pilot, First Officer Ralph Stevens, believed the transport's landing lights in the belief the discs were other aircraft.

Blinking landing lights during a night flight is a pilot's signal of warning to other aircraft that a plane is flying in the same area.

Smith said it was eight minutes after ~~leaving~~ from Boise that Stevens saw himself saw five discs, flying what appeared to be a "nose formation."

They called Harry Macrow, stewardess, to the cockpit to verify that they were actually seeing the discs, said Smith, and she agreed they were discs.

Then they saw four more of the discs, three clustered together, and a fourth flying "by itself, way off to the distance."

HUNT "FLYING DISCS"

IS THIS THE FLYING SAUCER?

SEATTLE, WASH.—A man sitting on his front porch in Lake City, suburb of Seattle, last Wednesday Frank Elyman saw a "white saucer" flashing across the evening sky. Elyman is shown here in a picture. Arrow indicates white speck which, says Elyman, is the mysterious "flying saucer." (Arise Photo.)

36 States Air Guard Pilot's Report Dash To Locate "Discs" "Saucer" Fails.

Objects The Size Of 5-Room House Seen In Idaho

Marine Ace Orders 1st Pursuit Of Object With Silvery Tail Reported At Sioux Falls, S. D.

From Wire Dispatches
SAN FRANCISCO, July 6.—Mysterious "flying saucers" were reported seen again today in various parts of the country and, at Spokane, Wash., a woman declared that 10 persons saw eight of the disc-shaped objects last near St. Maries, Idaho, July 2.

The phenomenon has been reported by hundreds of persons in at least 36 states this year since June 21. Descriptions vary, but generally the witnesses agree that the objects glimmering through the skies are saucer-like discs.

At St. Maries, Idaho, on July 2, a woman reported that she saw a "disc" of saucer-like shape.

CHICAGO, July 6.—A military plane made an unsuccessful speed dash to catch down one of the mysterious "flying saucers" today as the army and scientists sought to ascertain whether recent reports about the discs meaning through the sky were fact.

A flight of eight P-61 pursuit ships and three A-36 bombers, carrying telescopic cameras, searched the northwest Pacific skies for "flying saucers" today but did not sight any. The ships cruised over the Cascade mountains of Washington, where the mysterious discs first were reported seen, and other areas.

But the National Guard in South Dakota was the first to order a plane to try to find a disc after a resident reported having seen one.

Gregory Hunter of Sioux Falls, S. D., said he saw a "flying disc" with a "tail" and "legs" when the disc landed in his yard.

"Disc" Talk Gets Laugh In Europe

London, June 27.—Flying saucers are the talk of the British today but are regarded as an impossible

Army
The state department,
reporter asked whether anyone
inside or outside that agency is

(Other Stories, Page 11.)

Investigating the possibility the
objects originated with a foreign
power.

Lincoln White, state depart-
ment press officer, said he didn't
know of any such inquiry.

Gen. Carl Spaatz, commander
of the army air force, was in
the Pacific Northwest. He denied
knowing anything about the fly-
ing discs—or of whom in the AAF
please to look for them.

Competent observers such as
airline pilots said they had seen
the totally unexplained discs or
saucers, larger than aircraft and
flying in "loose formation" at
high speed.

Twilight Air Materiel Com-
mand officials at Wright Field
were as mystified last night as
anyone concerning the sight of
so-called "flying saucers" in dozens
of areas throughout the country.

"We can find nothing official
regarding these discs," an AMC
official said last night. "We are
ready for action when something
official is learned. But thus far
we have not been provided with
any reputable information. If
reputable information is provided,
we will take whatever action is
necessary," he added.

dead on arrival at Marine Hospital.

Minor injuries were suffered by Layman, 42, of the 7th when the Gorythoch... he was riding was struck by an auto at Du Highway and North... road, Friday night. There were 25 passengers on the bus.

The bus, en route to Detroit from Indianapolis, was struck by a car driven by Philip Weber, of Ecorse. Police said Weber failed to observe a stop sign. He was given a reckless driving ticket.

BOY'S FACE BURNED

Serious burns of the face and eyes were suffered at Lake Orion by Walter Fajman, Jr., 17, of 1722 Cass avenue, when he stooped over a giant firecracker. "To see why it didn't go off," it exploded in his face. Fajman is in serious condition at Receiving Hospital.

Other deaths and injuries throughout the State:

Mrs. Nettie R. Delmore, 64, of Mason, was killed Friday and her husband, Joseph, was seriously injured when their automobile was struck by a Grand Truck

may throw of Republican plans was learned today.

Rep. Hallock, of Indiana, House Republican leader, said Congress would want to remain in session long enough to make final disposition of the tax bill. And if Democrats who oppose the legislation at this time resort to a stalling campaign, that could extend the session into next month.

The House will get the bill out of the way in a hurry, probably Tuesday. That would appear to allow plenty of time for Senate action.

The catch, however, is that if Senate Democrats decide to employ delaying tactics, they will have time on their side. The Republicans have to get the bill to President Truman 30 days before the end of the session or risk a chance on its being killed by a pocket veto.

In addition to that 30 days, the Republicans will have to allow themselves time to attempt to override a possible veto. Hence, every day saved in getting the bill to the White House will be important to the GOP.

TINY SPOT SHOWS

Ryman said he took the picture from his home after his neighbors told him of sighting the disc high overhead.

The results of his photographic effort showed as a tiny light spot, about the size of a pinhead, against the dark background of the evening sky.

He said he took the picture when the disc was directly overhead.

His wife said they watched it for what seemed like close to 15 minutes as it seemed to speed across the sky. She said her impression was of a shiny ball, at great height.

Many Portlanders—including police, experienced fliers, and three newspapermen—declared they saw silvery discs undulating over Portland.

'Saucers' Fool Crew of Airliner
5 July
Think It Plane and Blink Lights

The "flying saucer" mystery, already at fever pitch in the West, reached Michigan Friday night when several persons flying southwest of Port Huron reported seeing them.

Moriches, Frank Ryman, of Seattle, a Coast Guard yeoman, had what he believed was the first picture taken of the "flying saucers," which he hoped would help clear up the mystery of their identity.

Others who reported seeing the discs were the crew of a United Air Lines plane, enroute of residents of Portland, Ore., 60 miles north near Twin Falls, Minn., a doctor in Philadelphia, and a woman in New Orleans.

CHINESE CREW THIS WAY

Those who saw the discs in the vicinity of Port Huron said they were the Chinese crew of a plane from the Philippines, and also around the city, mostly at night.

"They certainly were not the usual saucers," said one witness.

"Some of them were very dark and others were out of the ordinary," he said, and they were "seen" by Mrs. John R. Wilbur on Tuesday. "Light" which they saw was "coming from the sky."

Ex. 100-5-17 enclosure

From the Oregon Journal - 5 July 1947, Portland, Oregon
(Reference incidents 5, 6, 7, 8 and 9)

Whatever they are, there are some remarkable objects flying around in the sky.

On one night (8) Portland area policemen and deputy sheriffs also sighted the objects flying, numerous private citizens, the crew of a United Air Lines plane over Boise, Idaho, and a newspaperman who claims to have photographed one near Seattle, are all wrong.

In Portland, the alert was passed over police radio at 1:05 P. M. Friday, after the West Side Station received a number of calls that the skies were overhead. Within minutes, the patrol cars reported spotting the mystery craft.

FLAMES OVER, MISS LARKIN.

First to report in were Patrolman Robert Lacey and Robert Hill in car No. 22, who stopped near Lake Park. Hill took up 11 vehicles and station pilots, they sighted three of the objects within 30 seconds landing at great height and speed over the park. They reported they heard no engine noises but saw flashes. The objects moved quickly and changed direction of flight. The policemen agreed that without knowledge of the size of the objects it would be impossible to judge their speed or altitude.

Patrolman Paul Robinson in car no. 15 stopped at 22 1/2 Ave and Foster road to look southeast from where the planes were reported. Telephone calls located them coming out of the sun. He saw nothing, but a few moments later observed one coming out of the west and heading southeast. The craft seemed to be glowing or emitting white and blue's flash or reflect light, he said.

MISSISSIPPI.

A former airplane mechanic, he said the object was white and plane he'd ever seen. He thought it appeared radio-controlled because the craft could change direction at a 90 degree without difficulty.

Witnesses at the latter point at the feet of 22 1/2 Ave. street closed on when they heard the all-out alert. Sgt. L. A. Frost, Radio Flight, A. S. Jackson and Patrolman J. E. Hill all saw the objects and said they appeared to be going south high over the Lake side at terrific speed. Sgt. Frost said the flashes kept them from maintaining contact with them or the

The three were completely out of control as well as a ball that was a ball-quad plane. The making of all, he pointed. The objects looked very like a shiny aluminum ball up off a car which would, disappeared all together.

There was a plane in the sky at the time, but all were completely out of their normal plane.

ENC FILE-16

AIRLINE NEWS SERVICE REPORTS OF MOUND BEING SEEN. NOT CROOKED.

Circumstantial reports of flying discs in the sky Friday came from the crew of a United Airlines plane over Boise, Idaho, and a coast guardman near Seattle, as well as from Portland area police and citizens.

E. J. Smith, Captain of the airplane, told United Press that he sighted five "weird things" which were "thin and smooth on the bottom and rough appearing on top." The objects appeared against the sunset shortly after the plane took off at 8:06 p. m., he said.

"We saw them clearly," he reported. "We followed them in a north-westerly direction for about 45 miles. Finally the objects disappeared. We were unable to tell whether they entered us or disintegrated.

NOT AIRCRAFT.

"We can't say whether they were meteor-like, oval or anything else," the captain said. "But whatever they were, they were not another aircraft, nor were they meteors or discs."

In Seattle, Orge Swartzman, Frank Evans, 27, reported to United Press that he snapped a picture from the front porch of his home which a "white object" flying over the north end of Lake Washington.

Ann Ross, Pictures, New York City, said a 7x5" print of the photograph showed two tiny dots, one of which was a star in the print.

Sam Metcalfe, 19, Gabe Atkinson park employee, reported that he saw several objects "like spinning discs" in the sky Friday. He said several sightings, including a woman pilot noticed them.

In Vancouver, Wash., Sheriff's deputies, John Sullivan, Glennace McKay and Fred Eriksen heard the Portland police radio broadcast and ran out of the sheriff's office to look at the sky. Over Portland, three to five miles away, Sullivan said, they saw 20 to 30 objects "like a flight of geese". They heard a low humming sound.

OTHER SIGHTS.

Col G. H. Adams, Commander of the Boeing National Guard, made an inspection of this area from his air base in Boise and reported here. He said he saw nothing "unexplainable".

Only seven military airplanes in the air at the time of the reports were 25 to 30 hours away from Astoria.

Despite all the reports, at least two persons remained unconvinced of the existence of the discs. Al P. Sanford, Helgato message, gave his opinion that the objects were cottonwood blossoms.

Earl Hollock, Ot., of 6604 N. Barragan Avenue, telephoned the Journal to berate the newspaper for "perpetrating a hoax". He said he saw objects in the sky about a minute after an airplane passed over his house. To him, the objects looked like bits of aluminum foil, perhaps cigarette wipers.

MORE NEWS LATER.

Several late flights of objects over Portland were reported Friday afternoon. E. A. Evans, 3433 St. Mandan Avenue, said he saw three fly east across the Willamette river near the Ross Island bridge about 2 p. m. that, appearing in the west, they were out of sight in the east in less than four seconds. He said they resembled metallic discs glinting in the sunlight.

Later, he said, he and neighbors saw a single disc-like object flying north far away and very high.

At 4:30 p. m. Mrs. Lawrence J. Hayward, 6124 NE 21st Ave., reported sighting a disc "like a new disc flipping around" in the air over the Study district. She said it seemed to be moving slowly.

PAPER RECOVERED.

Thomas H. Dyer, 1232 NE 59th Avenue, said he sighted two white or silver objects flying southeast high over Portland a few minutes before 5 p. m. He reported another, headed northwest, over his house at 5:30 p. m. 716

G. J. Hayes, Tigard, reported that four discs flew past Mount Jefferson at about 11 a. m. while he was driving near Redmond.

Sherman Cox, 2005 NE 69th Avenue, recovered from Ross City golf course a piece of paper he said had fallen from a great height in the sky. One of its fall coincided with some of the reports of flying discs. The paper, of low quality, measured 4 1/2 x 3 1/2 inches.

SILVERED DISCS, REPORTED BY PLANE.

NEWS, July 5 (AP) A Eugene railroad conductor said Friday he saw silvered discs being dropped out of a light airplane flying over this city.

E. F. Smith, 24 S. Eugene, an ex-conductor on the Southern Pacific Railroad, said he was driving on a Eugene road when

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date **20th June 1947** Incident # 17
2. Time **1900**
3. Location **Mt. Rainier, Washington**
4. Name of observer **Kenneth Arnold**
5. Occupation of observer **Rainier in fire control supplies holds private pilot's license**
6. Address of observer **Rm 307, Boise, Idaho**
7. Place of observation **Near Mounth, Washington**
8. Number of objects **9**
9. Distance of object from observer **3/4 to 25 miles**
10. Time in sight **2-1/2 to 3 minutes**
11. Altitude **9,500 ft**
12. Speed **300 Approx 150 MPH**
13. Direction of flight **North to South at 170°**
14. Tactics **Horizontal flight**
15. Sound **N/S**
16. Size **Approximately that of B-4 - 45 to 50 ft**
17. Color **silver like**
18. Shape **Approximately circular**
19. Color detected **N/S**
20. Apparent construction **N/S**
21. Exhaust trails **N/S**
22. Weather conditions **clear**
23. Effect on clouds **N/S**
24. Sketches or photographs **See page**
25. Manner of disappearance **N/S**
26. Remarks: **(over)**

CONFIDENTIAL

CONFIDENTIAL

Pilot Kenneth Arnold was flying his plane at an altitude of approximately 9,200 feet. He turned east plane in direction of Lubin, Washington which was almost directly east of his position and sat in his plane observing the sky and the terrain. To the left was a DC-4 and to his rear approximately 19 miles distant there was a 14,000 ft elevation. The sky was clear as crystal. A bright flash suddenly reflected on the plane. Upon looking to the left and to the north of Mt. Rainier he observed a chain of 9 peculiar looking craft flying from north to south at approximately 9,500 ft elevation and going seemingly in a definite direction of about 170°. Thought at first they were jet aircraft but noticed that every few seconds 2 or 3 of them would dip or change their course slightly just enough to cause the sun to strike them at an angle which reflected brightly on his plane. As they approached Mt. Rainier he could observe their outlines against the snow quite plainly, but couldn't find any tails. Checked speed and found it to be approximately 150 MPH. Never before had he observed planes flying so close to mountain tops. They flew directly south to southeast from the top of a mountain range. Pilot thought they were at approximately the same elevation as he was. They flew in rather diagonal chain-like line as if linked together and seemed to hold a definite direction but curved in and out of the high mountain peaks. Distance which was almost at right angles seemed to be between 20 to 25 miles. Thought they were quite large to be observed at that distance even on a clear day. They seemed smaller than the DC-4 but he judged their span to be as wide as the farthest engines on each side of the fuselage of the DC-4 (45 to 50 ft). The chain seemed to be approximately five miles long.

NOTE: It was the opinion of the agent interviewing Mr. Arnold that he saw the "flying discs" in this report agent further stated that if Mr. Arnold could write a report of such a character and did not see the objects he was in the wrong business and should be engaged in writing Hank Rogers fiction.

The attached is what Kenneth Arnold later professed. See "Time" magazine article by Kenneth Arnold.

Seemed to travel in circular position and did not appear to whirl or spin

They seemed larger than other
discs being about 1/2
of width.

SOME LIFE DATA ON KENNETH ARNOLD

I was born March 29, 1915 in Sebeka, Minnesota. My father's name was Edward Erb Arnold; my mother's maiden name was Bertha E. Barden. I was a resident of Minnesota until I was six years old when my family moved to Scobey, Montana, where they homesteaded. My grandfather, Roland C. Arnold also homesteaded in Scobey, Montana, and became quite prominent in political circles along with Burton K. Wheeler, the famous Montana senator.

I went to grade school and high school at Minot, North Dakota. I entered scouting at twelve years of age and achieved the rank of Eagle scout before I was fourteen. My former scout executive was H. H. Prescott, now a regional commissioner for the Boy Scouts in Kansas City, Kansas.

As a boy, I was interested in athletics and was selected as an all-state end in 1932 and 1933 in the state of North Dakota. I entered the U. S. Olympic trials in fancy diving in 1932; I was a Red Cross Life Saving Examiner during the years of 1932, '33 and '34. I taught swimming and diving at scout camps and the municipal pool in Minot, North Dakota. I went to the University of Minnesota, where I swam and did fancy diving under Nells Thorpe, and also played football under ~~Bjorn~~ Bierman, but upon entering college I was unable to continue my football career because of an injured knee. My high school football coach was Glenn L. Jarrett, who is now the head football coach of the University of North Dakota. I had little or no finances, and my ambition in furthering my education in college

Page 2 - Some Life data on Kenneth Arnold

was through my athletics. As a boy in Minot, North Dakota, I did a good deal of dog sled racing, placing first with my dog in 1930 in the Lions Club Dog Derby.

In 1938 I went to work for Red Comet, Inc. of Littleton, Colorado, a manufacturer of automatic fire fighting apparatus. In 1939 I was made district manager for them over a part of the western states, and in 1940 I established my own fire control supply known as the Great Western Fire Control Supply. I have been working as an independent fire control engineer since, and I handle, distribute, sell and install all types of automatic and manual fire fighting equipment in the rural areas over five western states.

My flying experience started as a boy in Minot, North Dakota, where I took my first flying lesson from Earl T. Unce, who was originally from Great Falls, Montana. Due to the high cost at that time, I was unable to continue my flying and did not find of any great consequence until 1943. I was given my pilot certificate by Ed Leach, a senior CAA inspector of Portland, Oregon, and for the last three years have owned my own airplane covering my entire territory with some and flying from forty to one hundred hours per month since. Due to the fact that I use an airplane entirely in my work, in January of this year I purchased a new Cessair airplane, which is an airplane designed for high altitude take-offs and short rough field usage.

In the type of flying I do, it takes a great deal of

Page 5 - Some Life Data on Kenneth Arnold

practice and judgment to be able to land in most any cow pasture and get out without injuring your airplane; the runways are very limited and the altitude is very high in some of the fields and places I have to go in my work. To date, I have landed in 883 cow pastures in mountain meadows, and in over a thousand hours a flat tire has been my greatest mishap.

Incident
RAF 1208 T
16 July 1947

MEMORANDUM FOR THE DIRECTOR OF INVESTIGATION

1. On 12 July 1947, a call was made at the newspaper office of the "Idaho Daily Statesman", Boise, Idaho. The aviation editor of the paper, Mr. David M. Johnson, was interviewed in regard to how well he knew Mr. Kenneth Arnold of Boise, Idaho, and as to the credibility of any statement made by Mr. Arnold. The purpose of this interview was an attempt to verify statements made by Mr. Kenneth Arnold on 26 June 1947, to various national news services to the effect that he, Mr. Arnold, had seen 9 objects flying in the air above the Cascade Mountain Range of Washington. These objects were subsequently referred to as flying saucers or flying discs and will here-in-after be referred to as such in this report. Mr. Johnson stated that he had known Mr. Arnold for quite a period of time, having had relations with Mr. Arnold on various occasions, due to the fact that both he, Mr. Johnson, and Mr. Arnold were private fliers and frequently got together to talk shop. Mr. Johnson stated that as far as he was concerned anything Mr. Arnold said could be taken very seriously and that he, Mr. Johnson, actually believed that Mr. Arnold had seen the aforementioned flying discs. Mr. Johnson stated that after Mr. Arnold reported having seen the flying discs, that the editor of the paper had assigned him, Mr. Johnson, the assignment of taking the airplane belonging to the newspaper and exhausting all efforts to prove or disprove the probability of flying discs having been seen in the northwest area. The results of this assignment to Mr. Johnson and what he subsequently saw is put forth in a sworn statement signed by Mr. Johnson attached to this report as Exhibit B.

AGENT'S NOTES: Mr. Johnson is a man of approximately 33 to 35 years of age. From all appearances he is a very reserved type of person. Mr. Johnson has logged 2800 hours of flying time in various types of airplanes up to and including multi-engine aircraft. During part of the war years, Mr. Johnson was the first pilot of a B-29 type aircraft being assigned to the Twentieth USAF and stationed on Tisler Island, in the Pacific. It is the personal opinion of the interviewer that Mr. Johnson actually saw what he states that he saw in the attached report. It is also the opinion of the interviewer that Mr. Johnson would have gone to great pains to prove and would have to be very strongly convinced that he actually saw something before he would report such an incident and open himself for the ridicule that would accompany such a report.

1 Incl. Exhibit "B" - *Statement of David M. Johnson*

FRANK H. BROWN, S/A, C/O 9th AF

1276
July 1947

MEMORANDUM FOR THE DIRECTOR

1. On 12 July 1947, W. Kenneth Arnold, Box 387, Boise, Idaho, was interviewed in regard to the report by W. Arnold that he saw 9 strange objects flying over the Cascade Mountain Range of Idaho, U.S. State on July 25th. Mr. Arnold voluntarily agreed to give the interviewer a written report of exactly what he had seen on the above mentioned date. The written report of Mr. Arnold is attached to this report as Exhibit A.

Mr. Arnold is a man of 32 years of age, being married and the father of two children. He is well thought of in the community in which he lives, being very much the family man and from all appearances a very good provider for his family. W. Arnold has recently purchased a home on the outskirts of Boise, recently purchased a \$5,000 airplane in which to conduct his business to the extent of which is explained in the attached exhibit. It is the personal opinion of the interviewer that Mr. Arnold actually saw what he stated that he saw. It is difficult to believe that a man of Mr. Arnold's character and apparent integrity would state that he saw objects and write up a report to the extent that he did if he did not see them. To go further, if Mr. Arnold can write a report of the character that he did while not having seen the objects that he claimed he saw, it is the opinion of the interviewer that Mr. Arnold is in the wrong business, that he should be writing Jack Rogers fiction. Mr. Arnold is very outspoken and somewhat bitter in his opinions of the leaders of the U.S. Army Air Force and the Federal Bureau of Investigation for not having made an investigation of this matter sooner. To put all of the statements made by Mr. Arnold in this report would make it a voluminous volume. However, after having checked an aeronautical map of the area over which Mr. Arnold claims that he saw the objects it was determined that all statements made by Mr. Arnold in regard to the distances involved, speed of the objects, course of the objects and size of the objects, could very possibly be facts. The distances mentioned by Mr. Arnold in his report are within a short distance of the actual distances on aeronautical charts of this area, although W. Arnold has never consulted aeronautical charts of the type the Army uses. Mr. Arnold stated that his business had suffered greatly since his report on July 25 due to the fact that at every stop on his business routes, large crowds of people were waiting to question him as to just what he had seen. Mr. Arnold stated further that if he, at any time in the future, saw anything in the sky, he quotes Mr. Arnold directly, "if I see a ten story building

CONFIDENTIAL

By Kenneth Arnold

The following story of what I observed over the Cascade mountains, as impossible as it may seem, is positively true. I never asked nor wanted any notoriety for just accidentally being in the right spot at the right time to observe what I did. I reported something that I know any pilot would have reported. I don't think that in any way my observation was due to any sensitivity of eye sight or judgment than what is considered normal for any pilot.

On June 24th, Tuesday, 1947, I had finished my work for the Central Air Service at Chehalis, Washington, and at about two o'clock I took off from Chehalis, Washington, airport with the intention of going to Yakima, Washington. My trip was delayed for an hour to search for a large marine transport that supposedly went down near or around the southwest side of Mt. Rainier in the state of Washington and to date has never been found.

I flew directly toward Mt. Rainier after reaching an altitude of about 9,500 feet, which is the approximate elevation of the high plateau from which Mt. Rainier rises. I had made one sweep of this high plateau to the westward, searching all of the various ridges for this marine ship and flew to the west down and near the ridge side of the canyon where Ashford, Washington, is located.

CONFIDENTIAL

Page 2

Unable to see anything that looked like the lost ship, I made a 360 degree turn to the right and above the little city of Mineral, starting again toward Mt. Rainier. I climbed back up to an altitude of approximately 9,800 feet.

The air was so smooth that day that it was a real pleasure flying and, as most pilots do when the air is smooth and they are flying at a higher altitude, I trimmed out my airplane in the direction of Yakima, Washington, which was almost directly ~~fact~~ of my position and simply sat in my plane observing the sky and the terrain.

There was a DC-4 to the left and to the rear of me approximately fifteen miles distance, and I should judge, a 14,000 foot elevation. *Washing north along the border bank.*

17
The sky and air was as clear as crystal. I hadn't flown more than two or three minutes on my course when a bright flash reflected on my airplane. It startled me as I thought I was too close to some other aircraft. I looked every place in the sky and couldn't find where the reflection had come from until I looked to the left and the north of Mt. Rainier where I observed a chain of nine peculiar looking aircraft flying from north to south at approximately 9,500 foot elevation and going, seemingly, in a definite direction of about 170 degrees.

They were approaching Mt. Rainier very rapidly, and I merely assumed they were jet planes. Anyhow, I discovered that this was where the reflection had come from, as two or three of them every few seconds would dip or change their course

Page 3

slightly, just enough for the sun to strike them at an angle that reflected brightly on my plane.

These objects being quite far away, I was unable for a few seconds to make out their shape or their formation. Very shortly they approached Mt. Rainier, and I observed their outline against the snow quite plainly.

I thought it was very peculiar that I couldn't find their tails but assumed they were some type of jet plane. I was determined to clock their speed, as I had two definite points ^(mountains) I could clock them by; the air was so clear that it was very easy to see objects and determine their approximate shape and size at almost fifty miles that day.

17 I remember distinctly that my sweep second hand on my eight day clock, which is located on my instrument panel, read one minute to 3 P.M. as the first object of this formation passed the southern edge of Mt. Rainier. I watched these objects with great interest as I had never before observed airplanes flying so close to the mountain tops, flying directly south to southeast down the hog's back of a mountain range. I would estimate their elevation could have varied a thousand feet one way or another up or down, but they were pretty much on the horizon to me which would indicate they were near the same elevation as I was.

They flew like many times I have observed geese to fly in a rather diagonal chain-like line as if they were linked together. They seemed to hold a definite direction but rather curved in and out of the high mountain peaks. Their speed at the time

Page 4

did not impress me particularly, because I knew that our army and air forces had planes that went very fast.

What kept bothering me as I watched them flip and flash in the sun right along their path was the fact that I couldn't make out any tail on them, and I am sure that any pilot would justify more than a second look at such a plane.

I observed them quite plainly, and I estimate my distance from them, which was almost at right angles, to be between twenty to twenty-five miles. I knew they must be very large to observe their shape at that distance, even on as clear a day as it was that Tuesday. In fact I uncovered a screw fastener or crowling tool I had in my pocket with them - holding it up on them and holding it up on the DC-4 - that I could observe at quite a distance to my left, and they seemed smaller than the DC-4; but, I should judge their span would have been as wide as the furthest engines on each side of the fuselage of the DC-4.

The more I observed these objects, the more upset I became, as I am accustomed and familiar with most all objects flying whether I am close to the ground or at higher altitudes. I observed the chain of these objects passing another high snow-covered ridge in between Mt. Rainier and Mt. Adams, and as the first one was passing the south crest of this ridge the last object was entering the northern crest of the ridge.

As I was flying in the direction of this particular ridge,

Page 5

(later)
I measured it and found it to be approximately five miles long so I could safely assume that the chain of these saucer like objects were at least five miles long. I could quite accurately determine their pathway due to the fact that there were several high peaks that were a little this side of them as well as higher peaks on the other side of their pathway.

As the last unit of this formation passed the northernmost high snow-covered crest of Mt. Adams, I looked at my sweep second hand and it showed that they had travelled the distance in one minute and forty-two seconds. Even at the time this timing did not upset me as I felt confident after I would land there would be some explanation of what I saw.

A number of news men and experts suggested that I might have been seeing reflections or even a mirage. This I know to be absolutely false, as I observed these objects not only through the glass of my airplane but turned my airplane sideways where I could open my window and observe them with a completely unobstructed view.

Even though two minutes seems like a very short time to one on the ground, in the air in two minutes time a pilot can observe a great many things and anything within his sight of vision probably as many as fifty or sixty times.

I continued my search for the marine plane for another fifteen or twenty minutes and while searching for this marine plane, what I had just observed kept going through my mind. I became more disturbed, so after taking a last look at Tiston Reservoir I headed for Yakima.

Page 6

I might add that my complete observation of these objects, which I could even follow by their flashes as they passed Mt. Adams, was around two and one-half or three minutes -- although, by the time they reached Mt. Adams they were out of my range of vision as far as determining shape or form. Of course, when the ~~sun~~^{sun} reflected from one or two or three of these units, they appeared to be completely round; but, I am making a drawing to the best of my ability, which I am including, as to the shape I observed these objects to be as ^{they} passed the snow covered ridges as well as Mt. Rainier.

When these objects were flying approximately straight and level, they were just a black thin line and when they flipped was the only time I could get a judgment as to their size.

These objects were hiding an almost constant elevation; they did not seem to be going up or to be coming down, such as would be the case of rockets or artillery shells. I am convinced in my own mind that they were some type of airplane, even though they didn't conform with the many aspects of the conventional type of planes that I know.

Although these objects have been reported by many other observers throughout the United States, there have been six or seven other accounts written by some of these observers that I can truthfully say must have observed the same thing that I did; particularly, the descriptions of the three Western

Air Lines employees, (the gentleman) from Oklahoma City and the

(Oklahoma City Wash.)

of pilot.

INC. FILE 17

Page 7

locomotive engineer in Illinois.

*also Capt Smith and Co pilot stevens
and many marines of united air line
had work*

~~These~~ descriptions could not be very accurate taken from the ground unless these saucer-like disks were at quite a great height and there is a possibility that all of the people who observed peculiar objects could have seen the same thing I did; but, it would have been very difficult from the ground to observe these for more than four or five seconds, and there is always the possibility of atmospheric moisture and dust near the ground which could distort one's vision.

I have in my possession letters from all over the United States and people who profess that these objects have been observed over other portions of the world, principally Sweden, Bermuda, and California.

I would have given almost anything that day to have had a movie camera with a telephoto lens and from now on I will never be without one -- but, to continue further with my story. When I landed at the Yakima, Washington, airport I described what I had seen to my very good friend, Al Baxter, who listened patiently and was very courteous but in a joking way didn't believe me.

I did not accurately measure the distance between these two mountains until I landed at Pendleton, Oregon, that same day where I told a number of pilot friends of mine what I had observed and they did not scoff or laugh but suggested they might be guided missiles or something new. In fact several former Army pilots informed me that they had been briefed before going into combat overseas that they might see objects of similar shape and design as I described and assured me that I wasn't

21

Page 8

dreaming or going crazy.

I quote Sonny Robinson, a former Army Air Force pilot who is now operating dusting operations at Pendleton, Oregon, "What you observed, I am convinced, is some type of jet or rocket propelled ship that is in the process of being tested by our government or even it could possibly be by some foreign government".

Anyhow, the news that I had observed these spread very rapidly and before the night was over I was receiving telephone calls from all parts of the world; and, to date I have not received one telephone call or one letter of scoffing or disbelief. The only disbelief that I know of was what was printed in the papers.

I look at this whole ordeal as not something funny as some people have made it out to be. To me it is mighty serious and since I evidently did observe something that at least Mr. John Doe on the street corner or Fats Andrews on the ranch has never heard about, is no reason that it does not exist. Even though I openly invited an investigation by the Army and the FBI as to the authenticity of my story or a mental or a physical examination as to my capabilities, I have received no interest from these two important protective forces of our country; I will go so far as to assume that any report I gave to the United and Associated Press and over the radio on two different occasions which apparently set the nation buzzing, if our Military Intelligence was not aware of what I observed, they would be the very first people that I could expect as visitors.

Page 9

I have received lots of requests from people who told me to make a lot of wild guesses. I have based what I have written here in this article on positive facts and as far as guessing what it was I observed, it is just as much a mystery to me as it is to the rest of the world.

My pilot's license is 333487. I fly a Callair airplane; it is a three-place single engine land ship that is designed and manufactured at Afton, Wyoming as an extremely high performance, high altitude airplane that was made for mountain work. The national certificate of my plane is 333565.

Who Has the Saucer? 40 States Join Game

(By Associated Press)
The game of spotting flying saucers broadened yesterday to include Massachusetts and Vermont, as stories about two discs continued to swirl fully as rapidly as the objects themselves.

WASHINGTON.

Explorations of the phenomena ranged from the theory that they were radio-controlled flying machines sent aloft by U. S. military scientists, to the suggestion that they might be merely sunlight scattered on wing tanks of jet-propelled planes.

One That Didn't Move

A Spokane, Wash., woman insisted the objects she saw were "about the size of a two-room house" but a Clearwater, Fla., woman said the disk she observed resembled jello pans.

At Rutland, Vt., a woman reported she and her husband witnessed a brilliant object in the night sky which she assumed to be a flying saucer, although it was stationary.

But at Cambridge, Mass., a housewife said she saw "a group of white, flying saucers whirling around and going at a tremendous speed."

The Massachusetts and Vermont reports brought to 23 the number of states in which the objects have been observed.

Think He Saw 'Em First

With New England getting into the game, the Harvard astronomer announced observations of the objects in photographs taken at the observatory.

The mysterious saucers first were reported June 25 in the state of Washington, but Charles F. Hooper, superintendent of the Kingsport, Tenn., Times News carrying news, said yesterday he had seen the objects two years ago.

that fact which is miles in fact to be the V-1 that Arnold, a resident made in said his A Civil Air Corps, etc anything

TIMES, THURSDAY, JUNE 26, 1947

'Flying Pies' Stir Skepticism

Army, CAA Officials Unable to Explain Whizzing, Mysterious Objects

Pendleton, Ore.—(AP) Army and CAA spokesmen expressed skepticism today over a report of nine mysterious objects—big as airplanes—whizzing over Western Washington at 1,200 miles an hour.

Kenneth Arnold, a flying Bobo Idaho businessman who boasted seeing them, clung to his story of the objects, each as big as a DC-4 passenger plane, racing over Washington's Cascade Mountains with a peculiar winking motion "like the tail of a kite."

An Army spokesman in Wash-

ington, D. C., commented, "as far as we know, nothing flies that fast except a V-2 rocket, which travels at about 3,500 miles an hour—and that's too fast to be seen."

The spokesman added that the V-2 rockets would not resemble the objects reported by Arnold, and that no high-speed experimental tests were being made in the area where Arnold said the objects were.

A Civil Aeronautics Administration inspector in Portland, Ore., added, "I rather doubt that anything would be traveling that fast."

Arnold described the objects as "flat like a pie-pan," and so shiny that they reflected the sun like a mirror.

He said he was flying east at 2:50 p. m. two days ago toward Mt. Rainier when they appeared directly in front of him 25.20 miles away at 10,000 feet altitude.

By his plane's clock he timed them at 1.42 minutes for the 47 miles from Mt. Rainier to Mt. Adams, Arnold said, adding that he later figured by triangulation that their speed was 1,200 miles an hour.

"I could be wrong by 200 or

300 miles an hour," he admitted, "but I know I never saw anything so fast."

He said at first he thought they were comets but quickly saw they were too big—as big as a DC-4 that was about 20 miles away he said. The DC-4 pilot reported nothing unusual sighted. Then Arnold said he thought of jet planes and started to check them, "but their motion was wrong for jet jets."

"I swear I don't know what they were—unless they were guided missiles," said Arnold, who continued here on a business trip.

Reaction to His Story of Fly? Cancers Cancer Makes Backbones to Doubler

PITTSBURGH, Pa., June 21.—(AP)—Elizabeth Arnold said Friday she would like to get on one of the 1,000-mile-a-hour "Flying Saucers" and escape from the fears caused by his story of mysterious objects flashing over southern Washington.

"I haven't had a moment of peace since I first told the story," the 22-year-old Bates, Missa, International pilot stated.

She said a preacher called the Great Times and informed her that the strange objects Arnold claimed to have seen falling through the ozone actually were barbed-wire of Germany.

Arnold said she didn't get the preacher's name during their phone conversation, but the publisher said he was giving his article "ready for the end of this world."

That was interesting, according to Arnold, but it wasn't half as disconcerting as the episode in a Pittsburgh cafe.

Arnold said a woman rushed in, took one look at him and then rushed out shrieking "there's the man who saw the most frightful things that the world have to do anything for the children," Arnold added with a doublet.

Arnold, a representative of a fly control equipment firm, started the country Thursday by reporting he had seen nine shiny round objects streaking through the sky in conversation between Mr. Hamner, Wash., and Mr. Adams Arnold said he was able to check them with the step watch on his own plane's instrument panel. He said they were spinning off a speed 1,000 m. p. h.

"The whole thing has gotten me out of head," Arnold told me. "I want to talk to the FBI or someone."

"Half the people I see look at me as a combination Einstein, Flash Gordon and Superman. I wonder what my wife look like looks like."

But all the laughs and headlines haven't caused Arnold to change his mind or back down. He doesn't care if the reports laugh him

up. He said most of the critics already tell him that what he saw were probably either one of two things: New planes or guided missiles used by the U. S. Army Air Force secret weapons. Some thought they were experimental equipment of another nation, probably Russia.

"Most people," he said, "tell me I'm right."

But apparently unimpressed reports in Washington and elsewhere were being cut on Arnold's story only facts and figures straight out of the books.

Their principal point seemed to be that if Arnold's account proved as true as he claimed, they couldn't have been treated with anything short of radar.

The fastest man has yet been is 607 miles per hour—a record set recently by Col. Albert Boyd in a P-51.

WANTED
A man who has been seen in the city of Pittsburgh, Pa. He is a white man, about 35 years old, with dark hair and eyes. He is wearing a dark suit and a light-colored shirt. He is wanted for information regarding the case of the missing child of Mrs. J. H. Smith.

**Fast "Flying Pie-Pans"
Stump Army CAA Men**

PENDLETON, Ore., June 23.—(AP)—Army and CAA spokesmen expressed skepticism today over a report of nine mysterious objects—big as airplanes—whirling over western Washington at 1,000 miles an hour.

Kenneth Arnold, a flying Boiss, Idaho, businessman who reported seeing them, clung, however, to his story of the shiny, flat objects, each as big as a DC-4 passenger plane, racing over Washington's Cascade mountains with a peculiar weaving motion "like the tail of a kite."

An Army spokesman in

Washington, D. C., commented, "As far as we know, nothing flies that fast except a V-2 rocket, which travels at about 3,000 miles an hour—and that's too fast to be seen."

The spokesman added that the V-2 rockets would not resemble the objects reported by Arnold, and that no high-speed experimental tests were being made in the area where Arnold said the objects were.

A Civil Aeronautics Administration inspector in Portland, Ore., added, "I rather doubt that anything would be traveling that fast."

Arnold described the objects as "flat like a pie pan," and as shiny that they reflected the sun like a mirror.

He said he was flying east at 2:30 p. m. two days ago toward Mt. Rainier when they appeared directly in front of him 25-30 miles away at 10,000 feet altitude.

By his plane's clock he timed them at 1:42 minutes for the 47 miles from Mt. Rainier to Mt. Adams, Arnold said, adding that he later figured by triangulation that their speed was 1,000 miles an hour.

"I could be wrong by 200 or 300 miles an hour," he admitted, "but I know I never saw anything so fast."

He said at first he thought they were geese, but quickly saw they were too big—so big as a DC-4 which was about 20 miles away, he said.

The DC-4 pilot reported nothing unusual sighted.

Then Arnold said he thought of jet planes and started to check them, "But their motion was wrong for jet jets."

"I guess I don't know what they were—unless they were guided missiles," said Arnold, who continued him on a business trip.

Lt Col George Garrett

1. Inclosed statement by Mr. S. C. Britton, regarding his sighting strange aircraft in the vicinity of Dayton, Ohio, is submitted for information and review.
2. A check of military aircraft operating in this area at the time the incident took place indicates that the objects seen are still unidentified.
3. An investigation indicates that Mr. Britton's testimony should be considered reliable. Objects seen could very likely be connected with the "Flying Disc" incident.
4. No further action will be taken unless requested by Headquarters, AC/AS-8.

Intelligence Department

CONFIDENTIAL

Statement by Dr. I. C. Britton, Sr., of Dayton, Ohio, regarding sighting of an unidentified aircraft, Monday, 20 October 1947.

Dr. Britton's sighting was broadcast over the local Dayton station, "WIND", at 6780 Tuesday morning and was also reported in both Dayton newspapers, the Herald and the News, Tuesday, 21 October 1947.

Dr. A. C. Leeding of Analysis Division, Intelligence Department, Headquarters, Air Materiel Command, Wright Field, Dayton, Ohio, who is project engineer for unidentified flying objects attempted to contact Dr. Britton by telephone on Tuesday evening but was unsuccessful. However, an appointment was made by telephone early Wednesday morning to meet Dr. Britton at his home around noon the same day. The statements made by Dr. Britton during this interview are as follows:

"At approximately 1230 Eastern Standard time Monday, 20 October 1947, I was strolling in my orchard in a westerly direction with my grandson, Dr. I. C. Britton, III. Suddenly the little fellow exclaimed, 'Look Grandpa the funny flying fishes in the sky.' Looking up I observed two strange-looking aircraft. They were flying very fast in a very straight course from west to east, but slightly to the north. The sun was to my right and the sky was cloudless which caused the objects reflect the sunlight rather brilliantly. As a result, the shape was not clearly evident but they distinctly did not have wings and they looked like cigars, that is; they were much longer than they were wide. They were flying together. One object was to the rear and about one city block apart and to the right of the leading plane. They did not dip nor veer from a straight flight in any manner. They seemed to be very high but I could not judge the altitude exactly except that they were at least one mile high and could have been five miles high. There was no noise nor sound of any kind. The trail or exhaust was very unusual and seemed like a slight trace of steam that seemed attached to the airplanes and which disappeared immediately. It did not persist in the air like vapor trails nor like exhaust from ordinary airplanes and jet aircraft of which I am very familiar having lived in the same house for the past twenty-two years and viewing airplanes almost daily that fly over my property. I am in very good health, active, and my eyes are also considered good even though I am fifty-eight years old.

I know that what I saw was real. They were not ordinary, birds, nor ordinary aircraft. I was so surprised and certain that the objects were strange that I felt duty-bound to make some sort of official report. However, I immediately called the Herald newspaper and told them what I had seen. I was not seeking publicity, and only thought that was the best and quickest way of getting an official report.

CONFIDENTIAL

~~CONFIDENTIAL~~

Witness standing in his orchard in an easterly direction when his attention was attracted to some funny flying fishes in the sky. Looking up he saw 2 strange looking craft flying very fast in a very straight course from West to East but heading to the North. The sun was to observer's right and the sky cloudless which means that the objects reflect the sun brilliantly. As a result the shade was not clearly evident. He distinctly observed that they did not have wings and they looked like saucers or plates that were wide. They were flying together, one object leading about one city block just to the right of the leading plane. He could not judge this exact distance in any manner. They were very high and possibly 3 miles high. There was no noise nor sound of any kind. The trail or exhaust was very unusual and seemed like a slight trace of steam. The plane which disappeared looked like it did not burn in the air like vapor trails. It was exhaust from ordinary planes and jet aircraft. He is certain it is aircraft since they always is properly flying. He is positive that they were not meteors, birds nor ordinary aircraft.

NOTE: Subsequent investigation by this Cgd indicates that Mr. Britton's testimony should be considered reliable. The objects seen are not yet identified.

~~CONFIDENTIAL~~

2 Bright Streaks Against Sun Replace Flying Saucers Here

Hold your hats, folks... here we go again!

It's those strange things hitting through the heavens again. However, this time they aren't on westward flights, casting such glows against night skies.

They are right out in open daylight and, according to R. C. Britton, who lives out on David road, here in Dayton. "The darn things don't look like anything I've ever seen before."

It seems that Britton and his visiting five-year-old grandson, Steve Britton, of Bartholomew, Ohio, were outting across the Britton orchard at 1:00 p. m. yesterday when the lad's eyes popped wide open as he gazed heavenward.

"Look, grandpa!" the youngster screamed, pointing a tiny finger to the skies.

Grandpa Britton looked, then called The Journal.

"I guess people should keep their mouths shut when they see these things," he said. "The people'll think they're crazy. But these things were so see reasonable anything I've seen before, and I've seen nearly everything that flies winging around here."

"There were two bright streaks striking off a big glow against the sun. They didn't seem to have wings, and they weren't round. I don't know what they were."

Steve agreed with his grandpa. And he should know planes, he says, because his dad is Maj. R. C. Britton Jr., a combustion engineer, now doing a two-week active duty tour at Wright Field.

A check at Wright Field could throw no light on the mystery. So, all we can do is wonder.

26. Remarks: (over)

On Saturday June 21st, shortly before noon, I was in our yard at home when I happened to glance up at a passing plane. I would say this was a two motored one from one of the army bases, flying south at about 10,000 or 12,000 feet. On the same glance at the plane a bright white flash attracted my attention, coming from approximately two or three thousand feet lower than the plane, but slightly ahead of my line of vision of the plane. My first thought was that the plane had thrown out hand bills, but this could not be as they (the flashes or disks) were ahead of the plane. One thing different tho, it seems to me they were not traveling as fast as the plane. We realize to, now, that whatever they were, they must have been quite large, being as plain as the nearest one was, yet so high. And again, they were traveling south against prevailing winds. At least some of the smaller flashes, if not all were as high or higher than the plane, but the nearest one seemed lower, both when it flashed and otherwise, as it did intermittently.

Dear Sir:

Re: Matter of reported 'Flying Disks'.

By local paper, information unrecanted,
June 21st, shortly before noon, I was in our yard at home
and I decided to glance up at a passing plane. I was not too familiar
with the class of planes, but I would say this was a two motor
plane of the Army bases here, flying south at about 10,000 or
12,000 feet.

Once at the plane, a bright shiny flash attracted my
attention, coming from a point only two or three thousand feet lower
than the plane, but slightly ahead of my line of vision of the plane.
After the flash, I could see a more or less distinct line,
which may have been the flash had been, only farther south, and as I look-
ed I saw a series of other more indistinct flashes, above, ahead,
and to the right. First, but so far away that I could see nothing more than
a faint light. The first tho, would flash repeatedly as it

passed. I thought was that the plane had thrown out seed bills, but it is
not likely they (the flashes or disks) were ahead of the plane,
because my wife from in the house, and she saw them as distinctly as
I. We wondered what they could be, she realized they could not be
billions, as they must have been of good size to show so plain from
that distance, and again they were all silvery.

At last seen, they were still traveling south, possibly a little to
the left of center, but by this time the plane was ahead of them. In other
words, they were to the back of the plane in our line of vision.

It was not until I saw them mentioned in the papers,
then realized we perhaps had seen what others had.

That is different, tho, it seems to me they were not traveling as
fast as the plane, as will be noticed from the above.

As regards to, now, that whatever they were, they must have been quite
large, being as plain as the nearest one was, yet so high. And again, they
were traveling south, against prevailing winds.

At least one of the smaller 'flashes', if not all were so high or
fast as the plane, but the nearest one seemed lower, both when it
flashed and otherwise, as it did intermittently.

This is to you as it may of some use.

Respectfully

Guy R. Sherman

P.S. Haven't heard of anyone else in, or near Spokane reporting
on tale. S.R.O.

RESTRICTED

An object was seen in this locality on 30 June 1947. The hour was approximately 5:45 PM and we (my wife and I) were traveling west to the Plantation Golf Course, which is approximately five miles from Boise. On the way, I happened to spot something in the sky which seemed to be clinging to a large cloud. It was half circled in shape and just as bright and silvery looking as a mirror caught in the rays of the sun. After a few minutes of traveling and looking the object disappeared. I would say it was about 10 miles distant, and from our location, approximately 3,000 feet in the air.

Note: Witness states he has had "Airman's Recognition" in the USAF about 4 times and is positive that the object sighted was not an airplane

Commanding General
Wright Field,
Dayton, Ohio

Dear Sir:

After reading the reports of "Mysterious Air Objects" in the local newspaper today, I, the undersigned, desire to report an object which I had seen in this locality on June 30, 1947.

The hour was approximately 5:45 PM and we (my wife and I) were traveling west to the Plantation Golf Course, which is approximately five (5) miles from Boise. On the way, I happened to spot something in the sky which seemed to be clinging to a huge cloud. Consequently, I brought the matter to my wife's attention and we both looked very hard to make it out, but to no avail. It was half circled in shape and just as bright and silvery looking as a ~~mirror~~ caught in the rays of the sun. After a few minutes of traveling and looking the object disappeared. I would say it was about ten (10) miles distant, and from our location, approximately three (3) thousand feet in the air.

I would like to state further, that I have had "Aircraft Recognition" in the USAAF about four (4) different times and I'm positive that the object was not an airplane.

Very truly yours,

Angelo Demofrio

On the evening of June 12 about 6:15, a neighbor and I returning home from another neighbors, glanced into the sky toward the west, and saw what we thought was smoke from an airplane. She mentioned that she had never seen that before, so we stopped to look and listen, thinking we would see the plane. But there was no sound, so we kept looking until we saw a tiny object from which the vapor was emitting. It was so far away we could not determine the size or even the shape. Its only identity was a glister in the sun. We had watched this one for a few seconds, when from the general direction of the sun, another object shot into the sky. It followed the general direction of the first, shooting up and then before settling to a south-easterly course across the sky, where we followed them until they were only a glister and the vapor could no longer be seen. After the objects were gone, we continued to look and to watch the vapor that had been left which now looked like clouds but kept a shape, and this shape seemed to glide across the sky to the east where there was a black streak leading to the horizon. The vapor stayed in the sky for over an hour.

Dear Sir.*

On the evening of June 12 about 6:15, a neighbor and I returning home from another neighbors, glanced into the sky toward the West, and saw what we thought was smoke from an airplane. She mentioned that she had never seen that before, so we stopped to look and listen, thinking we would see the plane. But there was no sound, so we kept looking until we saw a tiny object from which the vapor was emitting. However, it was so far away that we could not determine the size or even the shape. Its only identity was a glint in the sun. We had watched this one for a few seconds, when from the general direction of the sun, another object shot into the sky. It followed the general direction of the first, shooting up and down before settling to a south-easterly course across the sky, where we followed them until they were only a glint and the vapor could no longer be seen. After the objects were gone, we continued to look and to watch the vapor that had been left which now looked like clouds but kept a shape, and this shape seemed to glide across the sky to the East where there was a black streak leading to the horizon. The vapor stayed in the sky for over an hour. So far as notes have been given in the papers, this is the first time the objects were seen.

It seems probable that what we saw is what others are seeing and that we weren't seeing things, as some around here thought. There were four of us who watched this spectacle at this time: Mrs. Harold Boles, Mr. and Mrs. G. C. Beecher and myself.

Very truly yours,

Mrs. Robert Erickson

NFI D File

1. In compliance with letter Order No. 12320 dated 20 July 1946, Headquarters Air Materiel Command, Dayton Field, Dayton, Ohio, copy of which is attached, there is herewith submitted for your information a copy of the report which was made as a result of the investigation directed by the attached order. Due to the exigencies of the situation and the short period of time involved, it was not possible to write the report while at Newark Field.

2. Colonel William F. Stone, the Commanding Officer of Newark Field, was most cooperative and assisted the investigating officers with every means at his disposal, which contributed in no small degree to the successful conclusion of the investigation.

CONFIDENTIAL

CONFIDENTIAL

INTELLIGENCE INFORMATION REPORT

2 August 1947

1. In accordance with AHS Letter Order 17180, dated 20 July 1947, copy attached, Colonel V. R. Clineburn and Lt. Colonel R. G. Howell, Jr. proceeded to Hanes Field, Stephenville, Newfoundland, arriving at Hanes Field, 21 July 1947. Upon arrival they reported to Colonel William F. Slane, the Base Commander, who was also present at the interview conducted at Hanes Field and who also gives a verbal briefing of such information as was obtained.

2. Colonel Slane called to Captain V. R. Smith, Base Intelligence Officer for discussion. Captain Smith stated that personnel of the American Airways and Trans World Airways voluntarily came to his office and reported sighting an object on the 18th of July 1947. The personnel were Mr. John H. Johnson, TWA, Mr. Robert S. Ledy, TWA and Mr. John F. Woodruff of TWA, who agreed to furnish sworn statements of the phenomena that they had viewed, copies attached hereto, as exhibit "A". Furthermore, Mr. Ledy had taken two photographs of the phenomenon on Kodachrome film, which he had an objection to the Army developing and viewing for the purpose of accepted identification. This film was sent to New York by courier and eventually was forwarded to AG/AS-2. These two pictures showing the phenomenon, which had been forwarded to the AHS, were in the possession of the investigating officers at the time of the trip to Hanes Field. Captain Smith arranged to have Mr. Ledy and Mr. Johnson brought to the office of the Base Commander to be interviewed, at which time their statements substantially coincided with the attached sworn statements. These gentlemen did qualify the statements to the extent that normally Mr. Woodruff was prone to kid quite a bit and they did not believe him when he first made the statement about seeing the phenomenon, however, he convinced them quickly and they further insisted that the phenomenon that they viewed was, exactly as described in the sworn statements. They had one correction to make in the type of engine used, it being a star engine instead of an Argus, and had a (P-40) lens.

3. Inasmuch as Mr. Woodruff had been transferred to Gander, a special trip was made to that point where arrangements had been made to have Mr. Woodruff meet the plane at the airport for the purpose of having an interview. Mr. Woodruff in substance reiterated the statements that were contained in the sworn statement with a few slight qualifications for instance he insisted that they saw the object at 1700 altitude Standard time and he was positive that the trail and the spot in the cloud persisted for at least one hour and fifteen minutes and was still visible in the sky after their arrival at Hanes Field. Mr. Johnson and Mr. Ledy stated that the trail as it appeared against the sky was only visible because it was slightly darker in color than the sky. Mr. Woodruff stated as he observed the phenomenon that it was happening so fast that the trail appeared and the cloud was separated from the plane almost instantaneously and he was positive that he could see through the cloud where the phenomenon had occurred. Mr. Woodruff stated that the trail appeared to be a flat silver-like trail, which was in fact like the exhaust of a jet engine. It was in a horizontal plane pointing in a north-southwardly direction. In one other particular he stated that the object was of a cylindrical shape and appeared to be approximately 100 feet in diameter. It did not appear to have any

INC FILE

Intelligence Investigation Report
4/2/57

depth or have any outside view. It was noticeable in the statements of Mr. Leidy and Mr. Robinson that each insisted that the track in the cloud was clean in shape and it appeared to be as wide as the object that Mr. Eastwell allegedly saw, and that each stated that they could see the trail leaving the cloud indicating that the object disappeared over the horizon. All agreed that there was no explosion at the time of the visible contact.

4. After interviewing the observers of the phenomenon, further discussion was held with the Intelligence Officer and the Base Commander in which it was revealed that the observer's reports had been checked and there was no reported aircraft in the vicinity at the time the phenomenon was reported. The statement was also made that if a Canadian or British aircraft had been flying in the vicinity of Sussex Field, there would have been a report of it available. The weather conditions were also noted and reports verified that it was a clear sunny day having scattered cumulus clouds from 2,000 to 10,000 feet with excellent visibility conditions. Visibility and brightness conditions at 1700 on a sunny day at Sussex Field are usually very excellent. It was difficult for Mr. Leidy, who made the Reductum photographs, to obtain the film with respect to the angle in which the pictures were taken and it is unfortunate that they were over-exposed so that better conditions could be obtained. From the photo prints it is evident that some such phenomenon did occur. The existing part was that a cloud was seen opening and left in two definite parts and did not appear to join together again. This would lead to the conclusion that a body having a terrific heat or other power to split a cloud had passed through. It is a matter of common knowledge that when an airplane passes through a cloud the cloud is not usually disturbed. It was very noticeable that the course of the phenomenon was approximately 30° East of true North, which could be an indication that it was not originated from a foreign country. From an engineering standpoint it is difficult to ascertain how a body having the magnitude or heat content could be projected as up to tear a cloud apart in this particular location. One possible interpretation was that it was a day time appearance of a shooting star which was difficult to substantiate because of the apparent relatively low altitude and the apparent horizontal course that it pursued.

5. Also attached herewith are copies of statements obtained by the Base Intelligence Officer of other objects sighted in the vicinity of Sussex Field. These reports are included as a matter of interest. It was not feasible to interview the observers in the time involved and it was considered that the statements were complete and apparently no further information could be obtained. During the evening of 21 July a final discussion was held with the Commanding Officer of Sussex Field at which time a Mr. Leidy of the Sussex Air Force Base was present and reported that Captain William Hunter of Squadron "C" Sussex from Sidney, Nova Scotia to Port aux Basques, New Brunswick, had, on the night of 14 July 1954 and that he had not seen from Sidney but seen over Sussex, Canada in the northeast city. Mr. Leidy stated that in his opinion it was more likely that the sighting was on this evening on the night of 20 July, 1954 at the time of the College during the night and was taking the form of a bright object passing to the northeast city and could not have been a shooting star. Mr. Leidy stated that when the sighting of 14 July 1954 was made that the ground was apparently going to a dark - overcast sky. Mr. Leidy also mentioned that the sighting was made from the base of the

Intelligence Investigation Report

4/2/43

tip light of an airplane and aircraft carrier than the ones as viewed on the horizon. Mr. Larkin stated that he had spent considerable time in Alaska where he had formerly viewed the Northern lights and was positive that the flashes he saw were not the Northern lights and was not a common natural phenomenon. The flashes were visible at a 90° angle to the horizon, but it was not possible to estimate the distance from the ship.

6. The interviewing officers departed Egan Field on the morning of 1 August and proceeded to Westover Field where they were detained practically all day due to airplane trouble. After departing Westover Field, they proceeded toolling Field, where Colonel Robert Taylor, III of AG/AG-2 was contacted by telephone and a verbal report was given to him of the visit to Egan Field. Colonel Taylor then requested that a written report be forwarded to AG/AG-2 for record. A copy of this report is being forwarded to the Newfoundland Base Command in accordance with paragraph 5 of L.O. 471890, Hqs. Air Materiel Command.

7. The two Kodachrome slides which are the property of Mr. E. H. Laidy are also attached to this report.

Prepared by Colonel W. E. Clingman and Major Colonel E. G. Howell of Hqs.,
Air Materiel Command, Wright Field, Dayton, Ohio.

8. Number of objects 1
9. Distance of object from observer Not Stated
10. Time in sight Not stated
11. altitude Not stated
12. Speed terrific rate of speed in a circle because of the arcs in the path.
13. Direction of flight Not stated
14. Tactics definite trail and caused clouds to break open as it went through.
It looked to be traveling in a circle and left sharp edges to cloud
15. Sound Not stated
16. Size Not stated
17. Color No difference in color looked as if object broke the cloud and left
this opening.
18. Shape Trail horizontal
19. Color detected Not stated
20. apparent construction object or flying discs
21. Exhaust trails bluish streak
22. Weather conditions Clear with clouds
23. Effect on clouds Cut a path through the cloud & you could see the trail
right through the clouds, and it left sharp edges on the clouds.
24. Sketches or photographs Kodachrome film
25. Manner of disappearance Not stated
26. Remarks: (over)

CONFIDENTIAL

R. Woodruff saw the object or flying disc first and said he saw the thing travelling through the sky. We did not believe him at first but when he was so concerned about it we stopped the car and got out. I had my camera so took a picture of it. There was a bluish streak left in the sky which could not have been a cloud formation. It was a definite trail and caused the clouds to break open as it went through. It cut a clear path through the cloud and you could see the trail right through the cloud, it looked to be travelling in a big circle and it left sharp edges to the clouds. The trail looked as if an object passed through similar to that of a pebble leaving a ring in the pond. There was no difference in color. It looked as if the object broke and cloud and left this opening.

CONFIDENTIAL

"FLYING DISCS"

- 1. Organization : 13804th AAF Sq, HHC, ATD, ATC, Harnum Field, Newfoundland.
- 2. Sighting : Flying Disc or other airborne object.
- 3. Place : Approx six (6) miles SW of Harnum Field.
- 4. Time : 2000/L, 10 July 1947
- 5. Altitude : 8- 10,000 ft.
- 6. Weather : Clear, Scattered Cumulus 8 - 10,000 ft.
- 7. Heading : NNE on horizontal course.
- 8. Speed : Very high velocity.
- 9. Shape & Size : Circular like a wheel, estimated to be same size as a G-64 as seen from 10,000 ft.
- 10. Color : Translucent or Silvery, left a Bluish Black trail approx. 15 miles long.
- 11. Photographs : Mr. Robert S. Leidy reported that he took two (2) Kodachrome snap shots of the trail.
- 12. Reported by : Mr. John W. Mortman, WMA mechanic; Mr. John W. Woodruff, PMA mechanic; and Mr. Robert S. Leidy, PMA mechanic reported the above facts to the Intelligence Officer on 16 July 1947. A Flash Report was TMR ed to: Action copy Commanding General, Hq. ATC, Attn. Asst. Chief of Staff, Intelligence. Info copies: Commanding General Hq. ATD and Hq. HHC
- 13. General : Master's Mortman, Woodruff, and Leidy were enroute from Stephenville Crossing to Harnum Field at the time of the sighting. Mr. Woodruff was the first to see the Disc, it appeared to rent or split the clouds through which it passed and left a Bluish Black trail approx. fifteen (15) miles long behind it. The trail was similar to the afterglow of a powerful landing light or search light beam after it is suddenly switched off. The object maintained a straight and horizontal course according to Mr. Mortman and Mr. Woodruff. Mr. Leidy stated it appeared to be on a great curved course on a horizontal plane. The object disappeared into the North Northeast. Mr. Leidy says he took two (2) Kodachrome Photographs of the trail. The film has been transmitted to the Asst. Chief of Staff, Intelligence, Newfoundland Base Command for processing.

Information furnished above is considered significant and bears a striking resemblance to other reports in connection with the "Flying Saucer." The bluish black trail tends to indicate ordinary combustion from a turbo-jet engine, ignited rocket, or some combination of these or other power plants. The absence of noise and apparent dissipation of the clouds to form a clear path indicates a substantially large mass flow of rectangular white smoke vapors and a considerable amount of heat.

26 July 1947

Interrogation of **ERNEST W. HENY**, Station Mechanic, Pan American Airways, Hannon Field, Newfoundland, taken at 1478 HWY, 16 July 1947, by Captain William S. Smith, AF, Intelligence Officer.

- Q. Were you with Mr. Woodruff and Mr. Johnson on the evening when they saw an object or flying disk passing over the sky on 16 July 1947?
- A. Yes, I was.
- Q. Were you or any members of the party drinking?
- A. No, I had one cup of beer, that was about half hour before that.
- Q. Can you tell us the circumstances under which you saw the object or its trail?
- A. Well, Mr. Woodruff saw it first and said he saw the thing travelling through the sky. We did not believe him at first but when he was so convinced about it we stopped the car and got out. I had my camera so took a picture of it. There was a distinct streak left in the sky which could not have been a cloud formation. It was a definite trail and caused the clouds to break open as it went through.
- Q. Did it cut a path through the clouds?
- A. Yes, it was very clear, and you could see the trail right through the cloud, it looked to be travelling in a big circle and it left sharp edges to the clouds.
- Q. What was the trail like?
- A. I would not say it was white, it looked as if an object passed through similar to that of a pebble leaving a ring in the pond.
- Q. Was there any disturbance in the air?
- A. No, it looked as if the object broke the cloud and left this opening.
- Q. Was the trail horizontal, going up, or coming down?
- A. It looked horizontal.
- Q. What was the altitude of the clouds?
- A. I don't know, etc, they were pretty high though.
- Q. What time was that?
- A. I don't know exactly etc, but it was between three and five o'clock in the afternoon, so about eight hours from setting.

R W L

~~RESTRICTED~~
~~CONFIDENTIAL~~

Interrogation of Robert V. Luddy (Cont'd)

- Q. Did you see the object?
A. No.
- Q. How long do you think the trail was?
A. I don't know, sir, but the trail was very long, that is why I think something went through the sky because of the trail and black smoke it left, you could easily see it.
- Q. Was the trail on a straight course?
A. Well, as I said before, it looked to me from the ground, that it was travelling at a terrific rate of speed in a circle because of the area in the path.
- Q. Have you ever seen a meteor?
A. No.
- Q. Can you estimate the size of the cut in the clouds?
A. No.
- Q. How long have you been working around planes, etc?
A. Six (6) years.
- Q. Were you in the Army during the war?
A. No.
- Q. How many pictures did you take?
A. Ten.
- Q. What type camera did you have?
A. An Argus, F-2.
- Q. Was the film black and white or color?
A. It was black and white.
- Q. Where are the film now?
A. Well, I took three or four rolls and I am not sure which one the pictures are on.
- Q. I understood from Mr. Woodgett that they are being developed.
A. I think it is out of the camera sir, but I have not seen them yet.
- Q. Will you give us the name of the name of the person who gave you the camera?
A. Yes, sir.

SUBJECT: Kodachrome Film of Flying Disc's or Other Airborne Object's Trail.

TO: Commanding General,
Atlantic Division, ATC
Fort Totten, Long Island, N. Y.
ATTENTION: Lt. Col. James H. Brewster, Jr.
Assistant Chief of Staff, Intell.

File # 76

1. Transmitted herewith three (3) rolls of Kodachrome film belonging to Robert W. Liedy, mechanic for Pan American Airways.

2. Mr. Liedy states that on one of the three (3) rolls there are two (?) pictures of a Flying Disc's or other Airborne Object's trail, taken on 10 July 1947.

3. The Assistant Chief of Staff, Intelligence, Newfoundland Base Command directed that the film be transmitted to your Headquarters for processing and further disposition, and that "X's" have been dispatched giving further information from Headquarters, Newfoundland Base Command.

4. According to the statements of the observers, the object itself may not be on the film, but its trail, which is said to have been bluish black, or the object's effect on the cloud formations, will appear on the photographs.

5. Request that the rolls of film be returned to Mr. Robert W. Liedy, APO 864, c/o Postmaster, New York, New York, after they have served their official purposes.

RESTRICTED

On the evening of 10 July 1947 we were coming up over the mountains between here and Stephenville Crossing. The car was going up hill and we could see the sky through the windshield. Mr. Woodruff said "look at the cut in the sky". I looked and saw a bluish black vapor trail. The clouds were very scattered and were about 8000 to 10,000 feet, the object passed through and cut the cloud leaving a gap where you could see the blue sky, like a knife had cut it. The edges were feathered similar to a weld, as if you cut a weld in half. The estimate course of the object was approximately North North East. The trail was bluish black in color, very easily distinguished from the blue sky. The trail was more or less a band across the sky in a straight path. There was no noise.

SECRET

John E. Woodruff saw one of the so called "flying disks" or other object on 10 July, at approximately 1700. We were coming back from a fishing trip, and coming over the hill between here and Stephenville Crossing, you can see the cloud formation ahead, I saw the object break out where the clouds opened and it left its trail behind it. It was very clear and the clouds were very scattered.

I say the approximately altitude of the clouds was from 5000 to 10,000 feet. The object appeared to be a translucent disk like a wheel travelling at a terrific rate of speed and opened the clouds as it went through the air. The disk was travelling horizontal. It appeared to be about the size of a plate or some elevation. It spread the clouds out about half mile. It cut a clear path right through the cloud. It left a trail dark bluish in color similar to a power light. The trail was approximately 15 to 20 miles long.

Extract from Weekly Intelligence Summary, 22nd, 23rd and 24th

"FLYING OBJECTS THROUGH CANADA": The following is a digest of the only current reports that have been received through the intelligence system of this Command concerning unidentified flying objects. On 16 June 1957, rumors were drifting into Sudbuck from rural areas in Hungary to the effect that "silver balls were flashing across the sky in daytime." No accurate description or confirmation of this report was obtained. A Newfoundland constable named Iris Harvey, has reported to personnel of the 1500th Air Base Unit, AFU, Newfoundland Base Command, Fort Spofford that on 9 July at 2130 hours local time (2000Z), he observed for a few seconds four "egg-shaped phosphorus colored discs" followed ten minutes later by a fifth similar object moving through the air in the vicinity of Grand Falls, Newfoundland. According to the constable, all objects were flying west, moving very fast, and parallel to the ground, at an altitude of "50,000 feet". The first four were in trail formation. The constable described the shape of these objects as being like a "barrel head or egg" with "black spots on the tail end" but "leaving no smoke trail". The Newfoundland Base Command reports also mention a second unidentified observer of these objects, who described them as being "three-leafed" in shape. A check of weather records reveals that CFB weather provided in the Grand Falls region at the time these objects were reported as being seen. Mr. John H. Mahrous, Supervisor of Mechanics for Trans World Airline and Mr. J. E. Woodruff, Senior Maintenance Supervisor, for Pan American Airways, both stationed at Harnam Field, Newfoundland, report that on 10 July at 1730 hours local time (2000Z), they observed over that installation a circular saucer-shaped disc of silver color which, at its estimated altitude of "12,000 feet", appeared to be of equal size to the wing span of a C-54. Weather conditions were that the weather at Harnam during the time this incident occurred was clear with scattered cumulus clouds at an altitude of from eight to ten thousand feet. These two men report that the disc was first sighted when it appeared about six miles SW of Harnam; the two observers report that the disc seemed to "cut the clouds as it passed" over on a SW course leaving a "bluish black trail approximately fifteen miles long" which is described as similar in appearance to the boom seen for an instant after a high powered landing light or search light has been switched off. Personnel of the 1500th Air Base Unit, AFU, Harnam Field, St. John's, who relayed Mahrous's and Woodruff's report to this office state that Mahrous pictures were taken of the disc which are now being developed, probably by Harnam at Rochester, New York, and that Woodruff will forward the prints "as soon as received". On 11 July 1957, Col Bruce E. Perry and Major William E. Guyard of the 50th Airbase and Air Communications Service Group, Ellsworth Field, Anchorage, observed an object resembling an aluminum colored balloon "about 5 feet in diameter" travelling at an estimated altitude "at a great speed" in a NE direction in the vicinity of the field. On 12 July at 0230 hours local time (2000Z), Major Edward Stubbs of this unit and two unidentified officers of the Alaska Department observed a "white balloon" approximately 20 feet in diameter in the vicinity of Ellsworth Field flying in a NE direction following the perimeter of the command's 10th airbase. The object was reported as flying at an altitude of "1000 feet" at an estimated rate of "100 miles per hour", paralleling the course of a C-54 heading into a SE side per hour track. This office has been so constituted as to be of the above flying disc based on reports originating from other areas in Hungary and

SECRET

22-2075-4-2

SECRET

them to point out that these Hungarian reports were recorded fifteen days prior to the first time flying objects, commonly called "saucers", were reported over various areas of the Zone of Interior. Nor is anything known at this office that would add to or detract from the until recently, unfamiliar descriptions briefly presented in the Newfoundland reports. The brief text gives rise to obvious doubts and questions that can be clarified only by an evaluation and further interrogation of the sources from whence these reports were derived. However, an analysis of the two radios that reported the Elmdorf sightings have led the Intelligence Officers of this Headquarters to point out the following considerations. It is very difficult to judge the size, speed and altitude of an unknown object at the reported distance of five miles. The account of the object sighted would tend to describe a weather pilot. In this regard it is noted that it is standard operating procedure for weather stations to release pibals every six hours daily - at 0400Z, 1000Z, 1600Z and 2200Z. It is pointed out that the 12 July sighting approximates the time at which one of these daily pibals is released. It is also pointed out that in the Anchorage area, it is believed to be not uncommon for surface winds and winds at an altitude of 1000 feet or more to move in opposite directions.

HEADQUARTERS 1307th AAF Base Unit
NEWFOUNDLAND BASE COMMAND, AFB (NSC)
APO NS, c/o Postmaster, New York, N. Y. [Rank] (Date)

16 July 1947

Interrogation of JOHN W. WHELAN, JR., Supervisor and Mechanic,
Newfoundland Airbase, Newfoundland, taken at 1230 HRT,
16 July 1947, by Captain William E. Smith, AD, Intelligence Officer.

- Q. How long have you been associated with aircraft and aviation?
A. Since approximately 1938.
- Q. Were you in the Army during the War?
A. Yes.
- Q. What did you do in the Army?
A. Aerial Gunner.
- Q. Did your job during the war entail you to be able to judge distances
and sizes of objects and ranges?
A. Yes.
- Q. On the evening of 10 July 1947, did you see one of the so called
"Flying Saucers" or an object in the sky?
A. Yes, we were coming up over the mountain between here and Stephen-
ville Crossing. The car was going up hill and we could see the sky
through the windshield. Mr. Woodruff said "look at the car in the
sky". I looked up and saw a bluish black vapor trail.
- Q. Did you see the object?
A. No, I just saw the trail as it was left behind.
- Q. Can you describe the effect the object had on the cloud formation?
A. The clouds were very scattered and were about from 2500 feet to
10,000 feet, the object passed through and cut the cloud leaving a
gap where you could see the blue sky, like a knife had cut it. The
edges were feathered similar to a void, as if you cut a void in half.
- Q. Did the object appear to be descending, ascending, or horizontal?
A. It was horizontal and seemed to remain on a true course.
- Q. What was your estimate of the course?
A. Approximately North North East.
- Q. Can you give any estimate as to the size of the object?
A. I did not see the object.

~~CONFIDENTIAL~~

~~CONFIDENTIAL~~
~~CONFIDENTIAL~~
RESTRICTED

Interrogation of John S. Williams, Jr.

- Q. Can you describe the trail?
A. It was bluish black in color, very easily distinguished from the blue sky. A diesel exhaust would be similar to it.
- Q. Was the trail thin shaped?
A. No it was more or less a band across the sky in a straight path.
- Q. Did it make a noise?
A. No noise.
- Q. What went on in the car when you sighted the object?
A. We stopped the car and got out and looked at it. One of the boys had a camera and took a photograph of the trail that the object left.
- Q. What was the name of the man who took the photograph?
A. Robert Leidy.
- Q. Do you know what type of film Mr. Leidy was using?
A. Kodachrome, I believe.
- Q. Do you know whether Mr. Leidy saw the disk or object?
A. I don't believe so.

26 July 1947

Interrogation of JOHN E. WOODRUFF, Chief Mechanic, Pan American Airways, Newark Field, New Brunswick, taken at 1405 HQ, 16 July 1947, by Captain William E. Smith, AB, Intelligence Officer.

- Q. Did you see one of the so called "Flying Saucer" or other object on the 10th July?
- A. Yes, I did.
- Q. Can you give the approximate time?
- A. Approximately 1700.
- Q. Tell me the circumstances under which you saw this object.
- A. We were coming back from a fishing trip, and coming over the hill between here and Stephenville crossing you can see the cloud formation ahead, I saw the object break out above the clouds ahead and it left its trail behind it.
- Q. Had you been drinking?
- A. No.
- Q. You were riding in a car at the time you saw it?
- A. Yes, in the front seat of the Pan American car.
- Q. What was the weather like that day?
- A. It was very clear and the clouds were very scattered.
- Q. What was the approximate altitude of the cloud?
- A. It's say from 2000 feet to 10,000 feet.
- Q. Did you see the disk itself?
- A. Yes, that it appeared to be was a translucent disk like a disk travelling at a terrific rate of speed and spread the clouds as it went through the air.
- Q. How was this disk travelling, horizontal, ascending or descending?
- A. It was horizontal.
- Q. About how big did it appear to you?
- A. About the height of 20, I'd say it was about the size of a 5' or 6' Constellation.
- Q. About how far apart did it break the clouds?
- A. It spread the clouds out about 1000 feet.

RESTRICTED
~~CONFIDENTIAL~~

Jed

~~CONFIDENTIAL~~

Interrogation of John H. Woodruff (Cont'd)

- Q. What kind of a break did it make in the clouds?
A. It cut a straight path right through the cloud.
- Q. Did it leave a trail?
A. Yes, it left a trail dark bluish in color similar to a high power light. The trail was from approximately fifteen (15) to twenty (20) miles long.
- Q. Have you ever seen a meteor?
A. Yes.
- Q. Do you think this was a meteor?
A. No, I don't think so, it was out too clean. This was as straight as an arrow.
- Q. What was the course of the object?
A. Well, looking at the map I'd say North North East.
- Q. Have you been working around airplanes long enough to know the size of an aircraft and the height from a distance?
A. Yes.
- Q. How long have you been working around aircraft?
A. Seven (7) years.
- Q. Were you in the Army during the time of the War?
A. No.
- Q. Did you take any pictures?
A. No, I did not, but one of the boys took some.
- Q. Do you think the pictures will show up?
A. Yes, it was an ideal day for pictures.

- 2. Sighting : Flying Disc or other airborne object.
- 3. Place : Approx six (6) miles SSW of Harmon Field.
- 4. Time : 2000/Z, 10 July 1947
- 5. Altitude : 8- 10,000 ft.
- 6. Weather : Clear, Scattered Cumulus 8 - 10, 000 ft.
- 7. Heading : NNE on horizontal course.
- 8. Speed : Very high velocity.
- 9. Shape & Size : Circular like a wheel, estimated to be same size as a C-54 as seen from 10, 000 ft.
- 10. Color : Translucent or Silvery, left a bluish black trail approx 15 miles long.
- 11. Photographs: Mr. Robert W. Leidy reported that he took two (2) Kodachrome snap shots of the trail.
- 12. Reported By: Mr. John V. Bertman, TMA mechanic; Mr. John F. Woodruff, PAA mechanic; and Mr. Robert E. Leidy, PAA mechanic reported the above facts to the Intelligence Officer on 15 July 1947. A Flash Report was Tail ed to : Action copy Commanding General, Hq. ATC, Attn. Asst. Chief of Staff, Intelligence. Info copies: Commanding Generals Hq. ATLD and Hq. ATC
- 13. General : Mister's Bertman, Woodruff, and Leidy were enroute from Stephenville Crossing to Harmon Field at the time of the sighting. Mr. Woodruff was the first to see the Disc, it appeared to rent or split the clouds thru which it passed and left a bluish black trail approx. fifteen (15) miles long behind it. The trail was similar to the afterglow of a powerful landing light or search light beam after it is suddenly switched off. The object maintained a straight and horizontal course according to Mr. Bertman and Mr. Woodruff, Mr. Leidy stated it appeared to be on a great curved course on a horizontal plane. The object disappeared into the North Northeast. Mr. Leidy says he took two (2) Kodachrome Photographs of the trail. The film has been transmitted to the Asst. Chief of Staff, Intelligence, Newfoundland Base Command for processing.

UP - Persons in 7 states including the Lieutenant Governor of Idaho today reported they had seen the mysterious "flying saucers".

The projectiles variously described as "too fast for an airplane and not fast enough for a falling star", "not moving at all" and "traveling at great speed", were reported seen last night streaking over Denver.

It was the first report of the saucers in almost a week. Persons in Oregon, California, New Mexico, and Idaho reported seeing various versions of the unexplained projectiles.

Idaho
Lt. Governor Donald S. Whitcomb of Idaho said today that he saw a strange "comet-like object hanging in the western sky June 24." That was the day Kenneth Arnold of Boise, Idaho first reported seeing the projectiles over southeast Washington. Whitcomb said the object he and 3 other witnesses saw "didn't move but just seemed to go below the horizon with the rotation of the earth."

At Denver, Henry Martin and Walter Herrod said they caught a brief glimpse of a group of "bright objects" flying at about 5,000 ft. last night.

WASHINGTON - Army research experts can't explain the flying saucers but they are investigating, they said.

At first, Army officers laughed off the reports, now they are beginning to take them seriously. At any rate, the air research center at Wright Field, Ohio is looking into the reports and all service intelligence agencies are at work on them.

At approximately 1200 noon on the 14 of June I was lying in the front yard of my home. There was a lad mowing the lawn at the time. I looked into the sky and saw ten articles flying from the South to the North at what I would judge to be 1,000 ft. The objects were flying at approximately what I would judge to be 550 miles per hour. I distinctly remember that at the time I saw the articles I mentioned it to the lad who was mowing the lawn at the time. I told the lad that the objects were in all probability some sort of Army or Navy test planes from the nearby test centers on the deserts of Southern California. The objects resembled the pictures that I have seen of the XF5U-1, the so called "Flying Lapjack" that the Navy is testing. At approximately 1415 I went back into the yard to sit and lie in the shade. At this time the objects reappeared going from North to South, although this time there were only seven of the articles. When I first saw the original ten objects they were flying in a "v" formation with one object seemingly straggling in the rear of the formation. When the objects appeared the second time they were still in the "v" formation although there was only seven of the objects at this time. I remember at this time that I told the lad, who was still working on the lawn, that probably three of the objects had proceeded back to their base on a different course. I actually thought that this was the case, that the other three objects had probably come back to their base on the other side of the mountains fromakersfield. I am firmly convinced that the articles I saw are actually some sort of flying articles although I cannot say from where they came or to where they were going.

On 30 July 1947 Mr Edward Martin, 814 E. N. Hudson Street, Portland, Oregon was interviewed by this agent and stated in substance as follows:

My name is Edward Martin, I am 47 years old and have 2 eyes since I was fifteen years old. I first sailed in an air craft in 1919. I have flown over all the western parts of the United States many times and have capped a lot of the western part of the United States during the years before the late war for the U. S. Forest Service. I am familiar with almost every part of the western United States. During a great part of my life I have done stunt flying for air shows and various other types of aeronautical exhibitions. My brother was "Tex" Martin who was quite well known in both civilian and military flying circles for many years before his death and during the late war ran a series of flying cadets through primary training schools and not operated by him. To date I have accumulated 7000 hours in the air as pilot of both civilian and military aircraft. I am well acquainted with most articles that one could see in the air and I feel that I am well qualified to say when I see articles flying through the air, although I would not attempt to say that I am infallible and state that I could definitely identify every object that might be flying through the air. The following is an account of what I saw on 14 June 1947 from the yard of my home at 141 South 9th St., Inverfield, California.

At approximately 1200 noon on the 14 of June I was lying in the front yard of my home. There was a lead moving the lawn at the time. I looked up into the sky and saw two articles flying from the south to the north at what I would judge to be 5500 ft. The objects were flying at approximately what I would judge to be 350 miles per hour. As I have stated before, I have done quite a lot of map work for the U. S. Forest Service. I distinctly remember that at the time I saw the articles I mentioned it to the lead who was mowing the lawn at the time. I told the lead that the objects were in all probability some sort of Army or Navy test planes from the nearby test centers or the forests of Southern California. Having quite a knowledge of aircraft in general I attempted to explain to the lead mowing the lawn that the objects were probably on some sort of training mission for either the Army or Navy. At that time I did not give the slightest thought to anything but that the objects were some sort of test ship for the Government services. The objects resembled the pictures that I have seen of the F5U-1, the so called "Flying Saucer" which the Navy is testing. After the objects disappeared I proceeded into the house and had my usual meal. At approximately 1:15 I went back into the yard to sit and lie in the shade. At this time the objects reappeared going from South to North, although this time there were only seven of the articles. When I first saw the original two objects they were flying in a "V" formation with one object seemingly straggling in the rear of the formation. When the objects appeared in a second time they were still in the "V" formation although there was only one of the objects at this time. I remember at this time that I told the lead, who was still working on the lawn, that probably three of the objects had proceeded back to their base on a different course. I actually thought that led was the case, that the other three objects had probably gone back to their base on the other side of the mountains from Inverfield. A week or so later when I read of Mr Kenneth Gould claiming that he had seen articles flying through the air over the Cascade Mountains in

Incl # 1'

CONFIDENTIAL

CONFIDENTIAL

Washington I realized that the articles that I saw were probably the same thing. I was still reluctant to mention this to anyone thinking that they would probably say that I was crazy. After sometime I mentioned the incident to the editor of the "Oregonian", a Portland, Oregon newspaper. At this time I was in Portland for the remainder of the summer. The results of the conversation with the editor of the paper is put forth in the accompanying newspaper article.

I fully realize that this is a broad statement in view of the fact that there has been so much publicity ~~mentioned~~ put forth in various newspapers of the country. I am of sound mind in every respect and I am finally convinced that the articles I saw are actually some sort of flying machines although I cannot say from where they came or to where they were going. I say what I have said with no idea of publicity or personal gain.

Pilot Recalls Seeing Discs

Dick Rankin Tells Of Odd Aircraft

More reports of "flying saucers" turned up Wednesday one from no less than Dick Rankin, brother of the late Tex Rankin, and himself an experienced pilot of more than 7000 hours flying time.

Rankin, who is recovering from an old back injury received in an automobile accident, came to Portland over the week end to spend the summer. He saw the "saucer" over Bakersfield, Cal., on June 23, while flying on his way home. He told The Oregonian:

"I was stated to see such and them Rankin said, 'until I sawed all the hush-hush in the papers, I puzzled over their strange shape for a while and finally concluded that they were the navy's new XF5U-1 flying saucers which are thin and round, with twin propellers and stubby tail.'

Only One XF5U-1 Built

The navy and the manufacturer have announced officially that only one such machine was built and that it never left Connecticut.

The one plane was flying high maybe 3000 feet and fast, about 300 or 400 m.p.h.

Rankin said he saw them flying north, he told a reporter, but when they returned on the reverse course headed south, there were only seven.

Rankin said he saw them June 23, but hesitated to describe what he saw until he noted others were reporting the same thing. New reports meanwhile came in from three Oregon cities, Astoria, Madras and Portland. Mr. and Mrs. J. H. Hest of Portland said they saw at least ten of the "saucers" winging noiselessly high over the Columbia River yesterday.

"I saw them flying north, he told a reporter, but when they returned on the reverse course headed south, there were only seven."

Veteran Pilot Spots Ten Flying Discs

Seen at Bakersfield, Calif., Also Over Portland

PORTLAND, Ore., July 2 (AP)—The report of a long time West Coast pilot was added today to the growing accounts of "flying saucers" over the West.

Richard Rankin, veteran of more than 7,000 hours in the air, said he saw the much-debated mysterious discs over Bakersfield, Calif. and going "maybe 300 or 400 miles an hour."

There were ten in formation flying north, he told a reporter, but when they returned on the reverse course headed south, there were only seven.

"I couldn't make out the number or location of their propellers, and couldn't distinguish any wings or tail," he said. "They appeared almost round."

Mr. Rankin said he saw them June 23, but hesitated to describe what he saw until he noted others were reporting the same thing.

New reports meanwhile came in from three Oregon cities, Astoria, Madras and Portland. Mr. and Mrs. J. H. Hest of Portland said they saw at least ten of the "saucers" winging noiselessly high over the Columbia River yesterday.

Plane Ve 'Flying S'

PORTLAND, Ore., July 2 (AP)—The report of a long-time West Coast pilot was added today to the growing accounts of "flying saucers" over the West.

Richard Rankin, veteran of more than 7,000 hours in the air, said he saw the much-debated mysterious discs over Bakersfield, Calif. and going "maybe 300 or 400 miles an hour."

There were ten in formation flying north, he told a reporter, but when they returned on the reverse course headed south, there were only seven.

"I couldn't make out the number or location of their propellers, and couldn't distinguish any wings or tail," he said. "They appeared almost round."

Veteran Airman of 'Flying Saucers'

Portland, Ore., July 2 (AP)—The report of a long-time West Coast pilot was added today to the growing accounts of "flying saucers" over the West.

Richard Rankin, veteran of more than 7,000 hours in the air, said he saw the much-debated mysterious discs over Bakersfield, Calif. and going "maybe 300 or 400 miles an hour."

There were ten in formation flying north, he told a reporter, but when they returned on the reverse course headed south, there were only seven.

The Navy since has announced it has only one XF5U-1, and it has not left Connecticut.

New reports meanwhile came in from three Oregon cities, Astoria, Madras and Portland. The Portlanders making the report, Mr. and Mrs. Herbert Hest, said they disbelieved stories about the "saucers" until they saw at least ten of them winging noiselessly high over the Columbia River yesterday.

Manager Seized at Dude Ranch

rising pilot of more than 7,000 hours' flying time.

Rankin, who is recovering from an old back injury received in an automobile accident came to Portland over the week end to spend the summer. He saw the "silver saucers" over Bakerfield, Calif. June 23, while lying on the lawn sun bathing, he told The Oregonian.

"I hesitated to say much about them, Rankin said. "until I noticed all the headlines in the papers I puzzled over the strange shape for a while and finally concluded that they were the navy's new XF5U-1 flying flappers, which are thin and round, with twin propellers and stubby tail.

Only One XF5U-1 Built

The navy and the manufacturer have announced officially that only one such machine was built and that it never left Connecticut.

The machine was flying high, maybe 8,000 feet and fast, about 300 or 400 miles an hour. I first counted ten of them in formation going north. About 2:15 P. M. they returned on the reverse course headed south. But there were only seven in the formation.

They were not weaving or bobbing in formation. I couldn't make out the number or location of their propellers and couldn't distinguish any wings or tail. They appeared a most round. They looked like pictures of the navy's flying flapper. Rankin said.

Rankin who plans to spend the summer here at 324 N. E. Simon street is now able to resume a little flying for fun but not commercially he said. He now operates a string of 4 in courts, spending his winters at Palm Springs.

Two Descriptions Check

Rankin's description of the mysterious aerial objects agrees with that of Kenneth Arnold, a 40-year-old Idaho business man, who first reported them over the state of Washington, except that Arnold clocked them at an estimated 1,200 miles an hour.

Other reports came Wednesday from Antonio. Jack Hayes, patient in St. Mary's hospital there, said he saw ten of the discs Monday flying southward at a rapid speed and that they vanished behind the hills.

Mrs. Earl Seade, Fort Stevens said she saw a disc flying north over Fort Stevens Tuesday noon, and that other observers saw the same object.

The army at Fort Stevens and the coast guard at nearby Point Adams did not see the discs.

The report of a Conzalia, Wash. man Wednesday coincided in number of them with the original report made by Arnold. Sidney B. Gallagher of Conzalia said he saw nine unidentified objects flying north at 3 P. M. June 24. He was carrying 11 fishing equipment at Mineral, Wash., at the time.

PORTLAND, Ore., July 2 (AP)—The report of a long-time West Coast pilot was added today to the growing accounts of "flying saucers" over the West. Richard Rankin, veteran of more than 7,000 hours in the air, said he saw the much-debated mysterious discs over Bakerfield, Calif., and going "maybe 300 or 400 miles an hour."

There were ten in formation flying north, he told a reporter but when "they returned on the reverse course, headed south, there were only seven."

"I couldn't make out the number or location of their propellers, and couldn't distinguish any wings or tail," he said. "They appeared about round."

Veteran Airmail of 'Flying Sauc'

Portland, Ore., July 2—(AP) The report of a long-time West Coast pilot was added today to the growing accounts of "flying saucers" over the West.

Richard Rankin, veteran of more than 7,000 hours in the air, said he saw the much-debated flying discs high over Bakerfield, Calif., and going "maybe 300 or 400 miles an hour."

There were ten in formation flying north, he told a reporter but when "they returned on the reverse course, headed south, there were only seven."

Leaders making no sense, Mrs. Herbert Salton, said.

REPORTS OF OTHER TOWN

Rankin, and himself an experienced pilot of more than 7000 hours' flying time.

Rankin, who is recovering from an old back injury received in an automobile accident, came to Portland over the week end to spend the summer. He saw the "flying saucers" over Bakerfield, Calif. June 23, while lying on the lawn sun bathing, he told The Oregonian.

"I hesitated to say much about them," Rankin said. "until I noticed all the bulletins in the papers. I puzzled over their strange shape for a while and finally concluded that they were the navy's new XF3U-1 flying flapjacks, which are thin and round, with twin propellers and stubby tail."

Only One XF3U-1 Built

The navy and the manufacturer have announced officially that only one such machine was built and that it never left Connecticut.

These planes were flying high, maybe 9000 feet and fast - at about 300 or 400 miles an hour - first rounded ten of them in formation going north. About 2:35 P. M. they returned on the reverse course headed south. But there were only seven in the formation.

They were not wearing or bobbing in formation. I couldn't make out the number or location of their propellers and couldn't distinguish any wings or tail. They appeared almost round. They looked like pictures of the navy's flying flapjack, Rankin said.

Rankin, who plans to spend the summer here at 324 N. E. Simpson street, is now able to resume a life flying for fun, but not commercially, he said. He now operates a string of air courts, spending his winters at Palm Springs.

Two Descriptions Check

Rankin's description of the mysterious aerial objects agrees with that of Kenneth Arnold, Boise Idaho, business man, who first reported them over the state of Washington, except that Arnold checked them at an estimated 1200 miles an hour.

Other reports came Wednesday from Astoria.

Jack Hayes, patient in St. Mary's hospital there, said he saw two of the discs Monday flying southward at a rapid speed and then they vanished behind the hills.

Mrs. Earl Seade, Fort Stevens, said she saw a disc traveling north over Fort Stevens Tuesday noon, and that other observers saw the same object.

The army at Fort Stevens and the coast guard at nearby Point Adams did not see the discs.

The report of a Centralia, Wash., man Wednesday coincided in many particulars with the original report made by Arnold. Sidney B. Callaghan of Centralia said he saw nine unidentified objects flying north at 3 P. M. June 24. He was working 12 miles southeast of Astoria, Wash., at the time.

PORTLAND, Ore., July 2. (AP)—The report of a long-time west coast pilot was added Wednesday to the growing accounts of "flying saucers" over the west.

Richard Rankin, veteran of more than 7,000 hours in the air, said he saw the much-debated mystery discs high over Bakerfield, Calif., and going "maybe 300 or 400 miles an hour."

There were ten in formation flying north, he told a reporter, but when they returned on the reverse course, headed south, there were only seven.

"ALMOST ROUND"

"I couldn't make out the number or location of their propellers and couldn't distinguish any wings or tail. They appeared almost round," he said.

Veteran Airman Joins Ranks of 'Flying Saucer' Witnesses

Portland, Ore., July 2. (AP)—The report of a long-time West Coast pilot was added today to the growing account of "flying saucers" over the West.

Richard Rankin, veteran of more than 7,000 hours in the air, said he saw the much-debated mystery discs high over Bakerfield, Calif., and going "maybe 300 or 400 miles an hour."

There were ten in formation flying north, he told a reporter, but when they returned on the reverse course, headed south, there were only seven.

Rankin said he saw them from the ground on June 23, but he noted other were reporting the same thing.

A first, he continued, he claimed he had seen the XF-3U-1, the experimental Navy "flying flapjack." The Navy since has announced it has only one XF-3U-1, and it has not left Connecticut.

New reports, however, came in from three Oregon cities, Astoria, Madras and Portland. The Portlanders backing he report Mr. and Mrs. Herbert Seade, said they disbelieved stories about the "saucers" until they saw at least ten of them winging hither-thither high over the Columbia River yesterday.

believed stories about the "saucers" until they saw at least ten of them winging hither-thither high over the Columbia river Tuesday.

Still another such account came from four states away. At Albuquerque, N. M., Max Hood, Chamber of Commerce executive, told of seeing "a disc-like bluish object following a zig-zag path in the northwestern sky" only Tuesday night. It disappeared in about half a minute, he said.

There have been similar reports in the past several days from other points in New Mexico, west Texas and Oklahoma.

Incident
MAY 1208 I
14 July 1947

MEMORANDUM FOR THE OFFICER IN CHARGE:

1. On 10 July 1947, a check was made at the following locations in Palm Springs, California for the purpose of trying to locate Mr. Richard Rankin: Palm Springs Police Department, Palm Springs Newspaper, "The Desert Sun", Palm Springs Star Company, Southern California Gas Company, Palm Springs Telephone Company, Palm Springs Employment Office, Palm Springs Chamber of Commerce, Royal Palm Hotel, 5 Palm Springs real estate offices, and the City Offices of Palm Springs including waste disposal, water rights, tax records and etc. No record of Mr. Rankin existed in any of the above mentioned offices.

2. On 11 July 1947, Mr. Hyland A. Gorham, Postmaster of Palm Springs, California for the past 14 years was interviewed. Mr. Gorham stated that he had lived in Palm Springs for the past 24 years and that he was unsure if a person named Richard Rankin had ever lived in Palm Springs. Mr. Gorham stated that due to the fact that Palm Springs is a resort area and due to the fact that in the summer months only 3 to 5 thousand people resided in Palm Springs, whereas in the winter months 10 to 12 thousand resided in Palm Springs, it was very possible that Mr. Rankin could have lived in Palm Springs more or less on a non-permanent status and he, Mr. Gorham, not being aware of it.

A check of General Delivery records revealed a letter addressed to Mr. Richard Rankin, Palm Springs, mailed from Cicero, Indiana, postmarked at Cicero, Indiana July 1947, at 5 P.M. The return address on the envelope was listed as the Gospel Tract Society, Route 1, Cicero, Indiana. Mr. Gorham permitted the contents of the envelope to be examined inasmuch as the contents was 3rd class material and the envelope not sealed. The records were of a religious nature concerning the sad plight of American non-church goers, the second coming of Christ and etc. Superintendent of Mails was contacted by Mr. Gorham and stated that there was a Mr. Richard Rankin who had received mail through the general delivery office of the Palm Springs Post Office, but that the last mail, other than the letter mentioned above, came through the Post Office approximately two years ago. The Superintendent of Mails seem to have a very wobbly memory and recalled where the mail coming in for Rankin had been addressed to. This mail was addressed to Mr. Richard Rankin in care of a trailer camp located in Palm Springs. On calling the trailer camp office, it was found that Mr. Richard Rankin had lived in the camp but departed approximately two years ago and left no forwarding address. Investigation is continuing in an effort to locate Mr. Rankin and obtain a statement from him.

Pilot Says He Saw "Flying Saucers"

185
K
PINE BLUFF, Ark., July 20. — The report of a long time West Coast pilot was added today to the growing accounts of "flying saucers" over the West.

Richard Rankin, veteran of more than 400 hours in the air, said he saw "he much-debated saucer disks high over Rankin field, Cal., and going maybe 300 or 400 miles an hour."

They were "in formation flying north," he told a reporter, but when "they returned on the reverse course, headed south, there were only seven."

"I couldn't make out the number or location of their propellers and couldn't distinguish any wings or tail. They appeared almost round," he said.

Rankin said he saw them June 20, but hesitated to describe what he saw until he noted others were reporting the same thing.

'Saucers' Flying in Formation Seen Over California by Veteran Pilot

2 July
The navy however has reported that the flying saucer—the NACA—has never left Connecticut. Rankin brother of the late stunt pilot Tex Rankin and pilot with more than 2000 hours in the air himself said he hesitated to report what he saw until he read where others had reported the saucers. He said he observed them from the ground.

While new reports came in from Pacific Northwest residents—Tom Portlanders, Mr. and Mrs. Herbert Balliet, who said they didn't believe the story when they read it in the newspaper, reported they saw at least 10 of them flying noiselessly over the Columbia river about noon today.

Shortly after Max R. A. Hunt, wife of the Jefferson county agent at Madras, Ore., 100 miles south-east of Portland, said she saw six of them high overhead.

TRANSMIT OF LONG DISTANCE TELEPHONE CONVERSATION

20
15 January 1948

WFO

Mr. Leeding, Keenbrook Hill - 21804, Air Intelligence, Wright Field, Dayton, Ohio

Col. B. G. Davis, Jr., Commanding Officer, 3354 Fighter Wing, 1448, Coln. 17, G.

Subject: Request for information re: objects in the sky

Mr. L.: Colonel Davis, this is Mr. Leeding, Air Intelligence, Wright Field. I understand that a conversation took place January 7, Wednesday, between Goshen Field, Kentucky and your base at Leckbourne regarding an unidentified flying object.

Col. D.: If it did I am not aware of it Mr. Leeding. I read about it in the Air Force Times yesterday. A statement about Col. Riets saying something looked like a flying saucer. That is all I know about it.

Mr. L.: Capt. Duale said there was a call from Leckbourne Air Base and they were assisting in this thing.

Col. D.: I personally know nothing of that Mr. Leeding.

Mr. L.: I wonder if you could make an investigation - and think if somebody in the tower did see it, maybe you could call the base and I could come there and talk to somebody. Like to interrogate them.

Col. D.: Whether anybody on this station saw a foreign object in the air -

Mr. L.: and whether they discussed it with anyone - particularly Goshen Field. If you call me and I will drive over and talk to them.

Col. D.: Shall I call you in case I don't find anybody?

Mr. L.: It would be a good idea to tell me what you find out. My number is 21804, Keenbrook Hill, Wright Field.

Col. D.: I will be glad to do that Mr. Leeding.

Mr. L.: I will appreciate it, Colonel. What is your extension?

Col. D.: No 7-072 extension 20.

Mr. L.: Thank you very much, sir.

TRANSCRIPT OF LONG DISTANCE TELEPHONE CONVERSATION

15 January 1946

Mr. Leedling, Leebrook Hill - 21804, Air Intelligence, Wright Field, Dayton, Ohio

Col. B. O. Davis, Jr., Commanding Officer, 322d Fighter Wing, LAAW, Cole. 17, O.

Subject: Request for information re: objects in the sky

Mr. L.: Colonel Davis, this is Mr. Leedling, Air Intelligence, Wright Field. I understand that a conversation took place January 7, Wednesday, between Colonel Field, Kentucky and your base at Leebrook regarding an unidentified flying object.

Col. D.: If it did I am not aware of it Mr. Leedling. I read about it in the Air Force Times yesterday. A statement about Col. Hicks saying something looked like a flying saucer. That is all I know about it.

Mr. L.: Capt. Dular said there was a call from Leebrook Air Base and they were assisting in this thing.

Col. D.: I personally know nothing of that Mr. Leedling.

Mr. L.: I wonder if you could make an investigation - and think if somebody in the tower did see it, maybe you could call me back and I could come there and talk to somebody. Like to interrogate them.

Col. D.: Whether anybody on this station saw a foreign object in the air -

Mr. L.: and whether they discussed it with anyone - particularly Colonel Field. If you call me and I will drive over and talk to them.

Col. D.: Shall I call you in case I don't find anybody?

Mr. L.: It would be a good idea to tell me what you find out. My number is 21804, Leebrook Hill, Wright Field.

Col. D.: I will be glad to do that Mr. Leedling.

Mr. L.: I will appreciate it, Colonel. That is your contact?

Col. D.: Mr. F-211 Extension 211.

Mr. L.: Thank you very much, sir.

RESTRICTED

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date **7 January 1948** Incident # 30
2. Time **1945 EST**
3. Location **Lockbourne Army Air Base, Columbus, Ohio**
4. Name of observer **Charles E. McFee, Capt. USAF**
5. Occupation of observer **Asst. Operations Officer (Pilot)**
6. Address of observer **Airframe Operations, Lockbourne AAB, Columbus, Ohio**
7. Place of observation **Runway 25 Overhead approach**
8. Number of objects **1**
9. Distance of object from observer **first 4-5 miles Southwest of Base
second time 6-7 miles West and moved westerly in a hovering manner**
10. Time in sight **Not stated**
11. Altitude **3000 ft approximately**
12. Speed **slow**
13. Direction of flight **West**
14. Tactics **Flashed on and off, on constant flight appeared to be fading**
15. Sound **No noise**
16. Size **Large size of a flood light**
17. Color **white later yellowish to orange**
18. Shape **Oval as if looking at spot light**
19. Odor detected **Not stated**
20. Apparent construction **like a spot light**
21. Exhaust trails **no exhaust visible streaks like a jet effect out
from right (according to Lt. Swanson on "square" box)**
22. Weather conditions **sky still overcast**
23. Effect on clouds **Not stated**
24. Sketches or photographs **None**
25. Manner of disappearance **Descending and turning out**
26. Remarks: **(Over)**

RESTRICTED

RESTRICTED

Very bright white light southeast of the field. The light did not cast a beam and seemed the size of a flood light. From the ground the light appeared to move westward. It was farther west and lower than I saw it in the air, also the light was similar to that of a lantern light in that it was glimmering. The light varied yellowish to orange and appeared to be descending and burning off. The latter observation may be that in its westward movement it appeared to be falling out and descending however the light was not nearly as bright on the second observation. At first it was very white and did not appear to be moving though when it flashed on and off it appeared as in a x fast descent. With the naked eye I could at no time make out any shape other than the light being oval shaped as though looking at a large spot light. It was not a heavenly body of any type in that the sky was solid overcast in the Lockbourne area and the object's movement outweighs such a thought. I heard no noise in connection with the object. I estimated at the first observation that it was 4-5 miles southeast of the base. At the second appearance it was 6-7 miles West and moved Westwardly in a hovering manner but spring away.

RESTRICTED

RESTRICTED

Object first seen 15° above horizon in the West-Southwest of Lockbourne emitting a ruddy red light which changed to an amber-yellow at intervals not exceeding 1 to 2 seconds. Its size and magnitude were greater than that of any star - a good comparison of the size and magnitude would be a runway light at full intensity viewed from a distance of 500 ft. Shape - circular with the exception of a thin wispy tail extending towards the horizon, the tail being 5 times the diameter of the object in length. For approximately 10 minutes it remained motionless, thereupon it descended to the horizon in about 4°, hovered on the horizon in 3°, then ascended to its original position in about 3°, the course being elliptical, counter clockwise. It then faded and lowered toward the horizon disappearing at 1955. No sound was heard from the object at any time.

Note: Object appeared about 5 miles from Lockbourne, however info received f/Godman Fld and Clinton County Tower plus a relayed report from a pilot over Columbus, O., indicated that they all had observed a similar phenomenon in the same general direction and position at the same time.

RELIABILITY: Witness spent 37 mos in AF in communications work including C. W. as a Control Tower Operator. Holds valid CAA Certificate for Control Tower Operator and Aircraft Communications and has worked at Lockbourne in this type of work for over 1-1/2 yrs. Enthusiast of astronomy.

CORROBORATED ACCOUNT: See also incidents 30, 30a and 30b.

RESTRICTED

Report of Foreign Object in Sky

Major Campbell's 28th Fighter Group.

No information came out of criticism while the Fighter Group was at Godman Field to indicate the appearance of any foreign objects in the sky. Pilots were questioned as to whether they had seen anything unusual while flying in this vicinity, or had contacted anyone at Godman Field, and replied in the negative. Maj. Campbell, personally, has not noticed anything unusual.

Capt. Watson investigated and received the following information:

Mr. Boudreau, Tower Operator. He says he saw what he thought was a star but then he noticed the sky was overcast so it couldn't have been a star. It was a glowing object with a cone-shaped streak to the right. It glowed from white to amber. He says he first noticed it over the Lookbourne Tower Plant, just southwest of here. The object was moving southwest and it changed from amber to red and then disappeared. This happened between 1918 and 1920 EST on 7 January. The only thing he did was to talk to Capt. McOon about it and Mr. Kisele, the DF Operator.

Mr. Kisele, DF Operator. He says he saw it too before he and Mr. Boudreau got together. Both observed it at the same time but didn't talk it over until after the thing had appeared and said each was looking at it without knowing it. He saw a strange light that faded out and came back again. This light was west southwest of the field about 15° above the horizon. The light was much brighter than a star and appeared to be hanging motionless in the sky. It changed from ruddy red to amber and then to yellow and then back to red. It dipped to the horizon and back again several times. It also made several circles and it appeared to have a streak to the right of it.

Capt. McOon, Assistant Operations Officer. He saw the same thing about 1920 EST. He was flying at the time. He noticed a bright and unusual light southwest of Lookbourne and at first it looked like a spotlight but then realizing it there was nothing from the light at its source. As he turned at final approach to land he noticed that the light disappeared as if it had been turned off. After he landed he gave it no further concern until he walked into Operations and the tower operator asked him if he had seen the light. Immediately after this conversation the Tower Operator called him outside the building to look again because the light had re-appeared. The light appeared further west and much lower in the sky. The color had changed from a white color to an orange color. It continued to flicker and move westward and appeared to go out.

h
1

Around 1980 7 January, the P-51s in Kentucky were facing the object, whatever it was supposed to be. About 1935 one of them crashed up and conclusions were drawn by the men in the Lockbourne tower. This P-51 was stationed at Mitchell Field and Flight Service at Patterson Field was giving Flight Service at Middletown a summary of what had taken place during the afternoon. It seems that the conversation picked up again between Patterson Flight Service and Clinton Flight Service around 1945 and at this time Mr. Haele and Mr. Schramm told Flight Service at Patterson Field what they had seen a few minutes earlier, i.e., around 1915 - 1930, with regard to this light and also at the same time Clinton County broke in on the conversation and told them they had seen the same thing, and by some manner of means Godman Field got in on the conversation and told Flight Service they were observing the same phenomena - this happened at 1948.

The crash-up referred to was just something that was heard about over the inter-phone, but definite information regarding the light was given to Patterson Field Flight Service at 1948, 7 January.

DETACHMENT 73RD AF BOMB UNIT
103RD AACB SQUADRON
LOCKBOURNE ARMY AIR BASE
Columbus 17, Ohio

16 January 1948

SUBJECT: Report of Unusual Circumstance.

1. Commanding officer, 332d Fighter Wing, Lockbourne Army Air Base, Columbus 17, Ohio.

At approximately 1940 hours January 7, the Central Tower operator advised me that he had been observing a strange light in the Southwest for sometime. However by the time I reached the entrance steps in front of the operations building the light had disappeared. I had not returned to my position for more than 2 minutes when the tower operator advised the light had again appeared. I returned to the operations steps and this time I saw the object.

It was 15 degrees above the horizon to the West Southwest of Lockbourne, emitting a ruddy red light changing to an amber-yellow at intervals not exceeding 1 to 2 seconds. Its size and magnitude was greater than that of any star. A good comparison of size and magnitude would be with one of the runway lights turned on at full intensity as viewed from a distance of 500 feet.

Its shape appeared to be circular with the exception of a thin strip of tail extending towards the horizon the tails length being 3 diameters of the object long. From the time I first saw the object to approximately 1950 hours, it appeared to remain motionless in the sky. At this time the object descended to the horizon in an interval of about 4 seconds, hovered on the horizon for about 3 seconds, and then ascended to its original position in an interval of 3 seconds. Its course was elliptical, counter clock wise. It then faded and lowered towards the horizon and disappeared at 1955 hours. There was no sound audible from the object at any time.

Its distance appeared to be about 5 miles from Lockbourne. However, information received from Clinton County Tower that they too observed a similar or the same object in the same general direction and position at the same time as our observations at Lockbourne. If the object were the same the distance would be much greater than 5 miles, and velocity well to the excess of 500 miles per hour. The object actually looked to be traveling at a speed around 500 miles per hour.

Ltr, Subj: Report of Unusual Circumstance (16 Jan 48) cont'd

Flight Service also advised that Godman Field observed a similar phenomenon at the same time, and that the object disappeared at 2000 hours at Godman.

Clinton advised the object they observed disappeared about 2000 hours. It is not known to me what time either Clinton or Godman first observed the object or objects. The information from Clinton and Flight Service was received by direct line telephone communication from Clinton and Flight Service at Patterson. Our Weather Department was reporting a high overcast and not one heavenly body was visible. The object apparently being under the overcast, and its erratic movement proves that it was not an astronomical phenomenon. Air Force 9944, a C-45, relayed a position report to the Lockbourne Airways, over Columbus at 1955 hours at 5000 feet, on a round robin flight from Wright Field to Washington and return. I asked him if he had seen any strange light to the west Southwest of his position and he reported that he observed a bright light off his right wing, appearing like an oversized beacon.

I have been a member of the American Museum of Natural History which is closely associated with the Hayden Planetarium of New York City for 5 years, and have always been somewhat of an enthusiast of Astronomy.

I spent 39 months in the Air Force in communications work including Radio and Control Tower operation. I now hold a valid C.A.A. Certificate for Control Tower Operator and Aircraft Communications and have worked at Lockbourne in this type of work for better than 1 1/2 years.

I am of sound mind and health, and am of 25 years of age. I have described the incident exactly the way I saw it, also as to what I heard on the interphones.

DETACHMENT 733RD AF BASE UNIT
10TH AACS SQUADRON
LOCKPORT ARMY AIR BASE
COLUMBUS 17, OHIO

14 January 1947

Subject: Report of unusual circumstance.

Commander, Detachment, 733rd Fighter Wing, Lockport Army Air
Base, Columbus 17, Ohio.

On the night of January 7th between the hours of 1915 and 1930, there
was observed the same white glowing object which I could not identify.
At first I assumed it to be a star but the sky being overcast, I knew
definitely that it was not a star nor an aircraft because the only air-
craft flying in the local area was landing at the time. It was not a
paraffin flare nor a balloon because it appeared to be enormous in size.
I then observed it through my binoculars. It appeared to be cone-
shaped, blunt on top and tapering off toward the bottom. I could not
discern the attitude in which the object appeared to be. It was
observed from a bright white to an amber color with a small streak trail-
ing. It was at a distance between 5 and 7 miles from the control tower
at an altitude of approximately 2000 to 3000 feet bobbing up and down and
moving in a south-westerly direction at a speed exceeding 500 miles
per hour. Also the wind at the time was blowing from east to west and if
it had been a balloon or lighter-than-aircraft it would have drifted in
the direction the wind was blowing. There was no sound or unusual noise.
Its performance was very unusual and the light emitting from it seemed to
fade out at times. Just before it disappeared beyond the horizon the
light changed to a sort of red color. The same object was later sighted
in the vicinity of Clinton County Air Field by the operators on duty in
the control tower.

I have been actually engaged in aviation as an Air Traffic Control
Tower Operator and a Private Pilot for a period of 5 years and thus for
in all of my experience, I have never encountered an optical illusion or
any physical defect that would disqualify my possessions of such ratings.

AIRDROME OPERATIONS
LOCKBURN ARMY AIR BASE
Columbus 17, Ohio

CR /vew

ADGE/ 319.1

14 January 1948

SUBJECT Report of unusual circumstance.

TO: Commanding Officer, 332d Fighter Wing, Lockbourne Army Air Base, Columbus 17, Ohio.

1. At approximately 1925 EST on the 7 January 1948 I turned to runway 15 for an overhead approach at traffic altitude (1000 ft). Just prior to break-away I saw a very bright white light southwest of the field. I began my 300° approach. It struck me that the light was very unusual and it was not on the ground so I looked in its direction again from my base leg position. It appeared the same and as though it were about 3000 feet in the air. While on my base leg the light suddenly disappeared. The light did not cast a beam and seemed the size of a flood light. While on my approach it flashed on and off again immediately. I landed and taxied to the ramp, thinking that it may have been a reflection from the ground or the like.

2. Before flying I had heard part of an interphone conversation from Jefferson Center to Winston Center relative to a circular object seen over Tennessee. I returned to the operations building. While there the airways operator, Mr. Kinsle, said the tower operator, Mr. Boudreaux, reported seeing something unusual southwest of the field. I stated that I had seen an unusual light and suggested calling him to check. He called the tower on the "squawk" box, and Mr. Boudreaux, said the light was what he had been watching about 15 minutes or so and that through the field glasses it appeared to have bluish streaks like a jet effect out from the right. He stated that it went out while I was in the pattern. During the conversation he said it could be seen again (1935-1940). We went to the door to observe.

3. From the ground the light appeared to move westward. It was further west and lower than I saw it in the air, also the light was similar to that of a letter "B" that it was glimmering. The light varied yellowish to orange and appeared to be descending and burning out. It moved very slowly and finally disappeared. The latter observation may be that in its westward movement it appeared to be fading out and descending, however the light was not nearly as bright on the second observation.

Ltr. Subj: report of Unusual Circumstance (13 Jan 48) cont'd

At first it was very white and did not appear to be moving though when it flashed on and off it appeared as in a fast dash. With the naked eye I could at no time make out any shape other than the light being observed as though looking directly at a large spot light.

4. This object was too large and too sharp a light to be a reflection from the ground. It was not a heavenly body of any type in that the sky was solid overcast in the Lochburne area and the object's movement defied such a thought. I heard no noise in connection with the object. I estimate at the first observation that it was 4-5 miles west of the base. At the second appearance it was 0-7 miles west and moved in a southerly manner but moving away. The winds at this time were west-southwest averaging 10 miles per hour.

Asst Ops Officer

ATTACHMENT 757ED AF BASE UNIT
103RD AACH SQUADRON
LOCKBOURNE ARMY AIR BASE
COLUMBUS 17, OHIO

14 January 1948

SUBJECT: Report of Unusual Circumstances.

TO : Commanding Officer
3304 Fighter Wing
Lockbourne Army Air Base
Columbus 17, Ohio

On Wednesday January 7, 1948 at about 1925 Eastern time I observed in the sky an object which I could not identify. It appeared to hover in one position for quite some time, moving very little. It disappeared once for about one minute and I assumed it entered the overcast, which was about 10,000 feet. After descending again below the overcast it circled one place for the duration of three 360 degree turns, then moved to another position to circle some more. Turns required approximately 30 to 40 seconds each, diameter estimated about two miles.

In moving from one place to another a tail was visible of approximately five times the length of the object. Not knowing how close or how far the object was from me at the time, I could not estimate the size very accurately, but it appeared as large or larger than one of our C 47 planes, and of a different shape. Either round or oval shaped. Just before leaving it came to very near the ground, staying down for about ten seconds, then climbed at a very fast rate back to its original altitude, 10,000 feet, leveling off and disappearing into the overcast heading 180°. Its speed was greater than 500 mph in level flight. It was visible to me for a period of twenty minutes. No noise or sound could be detected. The color was amber light but not sufficiently bright to cover or obscure the outline of the configuration which was approximately round. During up and down movement no maneuvering took place. Motion was same as an elevator, climbing and descending vertically. Exhaust trail was noticeable only during forward speed. It appeared as a thin mist approximately same color (amber) as the object. Length about 5 times length of object.

During descent it appeared to touch the ground or was very close to touching it. It was approximately 3 to 5 miles away from Lockbourne Air Base in immediate vicinity of COMMERCIAL POINT. It positively was not a star, comet or any astronomical body to the best of my knowledge of such things. I also rule out the possibility of it being a balloon, flare, dirigible, military or private aircraft.

Ltr, Subj: Report of Unusual Circumstances, 14 Jan 48 (Cont'd)

I am 28 years old and in good health and have excellent vision. I have been actively engaged in aviation 6 years. I have a private pilot license and spent 3 years 10 months in the U. S. Army Air Corps as a Sergeant link trainer instructor, instrument flight observer.

The statements made herein are true and accurate to the best of my knowledge and may be used for any official purpose as deemed necessary.

OFFICIAL USE
LOOKBOURNE A. B. COLUMBUS, OHIO

13 JANUARY 1948

SUBJECT: Report On Unusual Circumstances

TO: CO 432nd FIGHTER WING LOOKBOURNE A B

At approximately 1940 hrs Jan. 7th the Control Tower operator advised he observed an extremely strange bright light in the south west. However by the time I reached the operation steps at the entrance the light faded out. About two minutes later the Tower advised that the phenomenon was visible again. This time I saw the object at about 15 degrees above the horizon to the west south west of Lookbourne. The object was extremely bright, more so than any star, I would say about as large as and as bright as one of the runway lights at full intensity as viewed from the Control Tower. It appeared to have a tapering tail about 3 diameters long and predominantly was of a ruddy red color changing to a amber-yellow at different intervals.

The position of the object in the sky and the fact that we were reporting a high overcast at the time added to the mystery.

UP until approximately 1950 hrs the object appeared to be motionless, at this time, however, it descended to the horizon in an interval of about 3 or 4 seconds, hovering there for 3 or 4 seconds and then ascended to its original position in an interval of about 3 seconds. It then rapidly began to fade and lower in the sky and disappeared at 1955 hrs.

AF9944 made a position report to me at 1955 hrs over Columbus at 5,000 ft on round robin flight out of Wright Field to Washington and return, and reported a mysterious bright light to the west south west of his position, appearing like an oversized beacon.

Further information on reports from other stations observing the phenomenon can be obtained from flight service at Patterson.

FORM-23

FORM-23/12/42

8 November 1947

Professor E. D. Wood
Department of Aeronautics
University of California,
Berkeley 4, California

Dear Professor Wood:

It was indicated during your recent visit to the WAF Institute of Technology at Wright Field that you observed a strange aircraft in flight while on a trip in the southwest.

The high performance mentioned is significant and shows a similarity to other similar incidents that have occurred from time to time over a large area. Certain information is necessary for plotting and charting for important intelligence purposes. It is suggested, therefore, that the following items be considered in your reports:

1. Sighting
 - a. Location
 - b. Time
 - c. Weather
2. Altitude
3. Dimensions
4. Nature of configuration
5. Speed/sight
 - a. Altitude
 - b. Time
 - c. Weather

Mr. AHN, 8 November 1947 to Professor E. D. Wood, Dept of Aeronautics,
University of California, Berkeley 4, Calif.

- d. Color
- e. Speed
- f. Heading
- g. Maneuverability
- h. Altitude
- i. Sound
- j. Exhaust trail

6. General remarks

Any information and enlightening comments or suggestions that
you may care to make will be greatly appreciated and held in strict
confidence.

Sincerely yours,

W. B. CLINEBARGER
Colonel, Air Corps
Chief, Analysis Division
Intelligence Department

BOULDER, COLORADO

DEPARTMENT OF
AERONAUTICAL AND MECHANICAL ENGINEERING

January 8, 1946

Headquarters Air Materiel Command
Wright Field
Dayton, Ohio

Gentlemen:

Attn. ISKAD-2B

Replying to your letter of November 5, 1947, signed by Colonel W. R. Clingerman, the following information is submitted regarding a strange aircraft which I observed in flight on a trip through the southwest about a year ago.

The information supplied herewith follows the form suggested in your letter. It is quite possible that this information is of no importance, but I feel that I should send it in to complete your records.

1. Sighting
 - a. Location - Northern Arizona, Route 66
 - b. Time - Early morning, mid-December, 1946
 - c. Weather - Clear
2. Witnesses - Mrs. Wood and two children
3. Photographs - None
4. Sketches of configuration - Saw only vapor trail, like rocket or jet exhaust
5. Object sighted
 - a. Number - One
 - b. Shape - Object not visible
 - c. Size -
 - d. Color - White
 - e. Speed - Estimate 600 mph, ± 200
 - f. Heading - First vertical, then W to E overhead
 - g. Maneuverability - No maneuvers
 - h. Altitude - Estimate 20,000 feet to 50,000 feet
 - i. Sound - None
 - j. Exhaust trail - white, heavy
6. General remarks - Not like usual jet airplane trail

Very truly yours,

K. D. Wood, Prof. and Head
Aeronautical Engineering

At approximately 1320 Sgt Cook from the CG's office notified the observer (T/Sgt Quinton A Blackwell) that according to Ft Knox Military Police & "W" Town State Police, a large circular object about 250 to 300 ft in diameter was over Moreville, Ky. Advised him to check with Army Flight Svc. They advised negative but shortly thereafter reported object over Irvington, Ky, then Cowanboro, Ky. Object first sighted by Blackwell about 1345 to 1350 over south Cowan Fld.

Verification: 1st Lt Orner (Detachment Commander)
Capt Carter (Operations Officer)
Col Rix (CO) sighted it about 1400

At approximately 1430 to 1440, four F-51's approached Cowan Fld/south ~~area~~ Marietta, Ga. to Standiford Fld, Ky. ~~Blackwell~~ Flight Leader HG 869 to attempt to identify object. Accompanied by two other planes he proceeded south f/Cowan. ~~Blackwell~~ plane proceeded to Standiford Fld alone.

About 1445, flight leader (HG 869) reported sighting object "ahead and above - still climbing" At 15,000 ft he reported "Object directly ahead and above and moving about half my speed." Again "it appears metallic of tremendous size." Still later "I'm still climbing - object is above and ahead moving about my speed or faster - I'm trying to alone in for better look". This was about 1515. Five minutes later the other two ships turned back. HG 800 reported "it appeared like the reflection of sunlight on an airplane canopy" Shortly afterward this same pilot (HG 800) resumed search going to 33,000 ft, 100 miles south but did not sight anything.

Unknown object first reported by Military Police at Ft. Rucker, approx 1400 GMT, vicinity of Magnolia, later over Irvington & Oysterburg, Va. Lighted, colored by Macmillan, 1st Central Group. Lt Greer then left office of CG, proceeding to Central Tower where he sighted a small white object in the overcast sky. It appeared stationary. Could not determine if object radiated or reflected light. Two minutes it appeared partially as parachute with bright sun reflecting from top of the silk, however, there seemed to be some red light around the lower part of it. Three F-51s started to pursue object. Took a course of approx 240°. Approx 9:00 later object sighted. Lt SAI (flight leader) reported 20,000 ft high and traveling about 1/2 his speed at "12 o'clock" later he stated he was "slipping in to take a good look" This was his last message. WOOD then reported Lt SAI had disappeared. At the time of his disappearance he was reported high and ahead of wing and at approx 18,000 to 20,000 ft and wing was at approx 15,000 ft. Wing was (MAGDO) returned for fuel and received permit going to altitude of 13,000 ft but did not sight object. At about 16:05 Lt Greer left tower.

Later, Lt Greer, returned to Central Tower (about 17:35 GMT) and perceived bright light at a position of about 240° azimuth and 5° elevation. It was a round object and did not resemble a missile. Although there was a haze when the object remained visible and did not disappear until it went below the level of the earth in a manner similar to the sun or moon setting. This object was viewed and tracked with the Weather Station theodolite from the hangar roof.

RELIABILITY: Verified by Commanding Officer, Operations Officer, S-2 and Executive Officer. However, these officers were apparently present when second sighting took place.

26. Remarks (over)

RESTRICTED

RESTRICTED

At approx 1400 7 Jan 52, Dasekar accompanied by Lt Col R. G. Wood went to Godman ~~Area~~ to observe an unidentified aerial object. Shortly after their arrival Col Eix, the Commanding Officer was summoned. At about this time Dasekar first sighted a bright silver object. Then Col Eix arrived. Shortly thereafter a flight of four P-51's flew over Godman. Dasekar was contacted to pursue object. He ascended and three P-51's climbed on the course, the fourth P-51 returning to base. Flight leader called to observe that "object was twelve o'clock high." Asked to describe it, he stated "it is bright and climbing away from us." He stated at first that it was going about 150 MPH. Then Central Tower lost sight of the flight but could still see the object. (In connection with this, Lt Col R. Harrison Wood who witnessed the sighting stated that while it appeared about 1/10 the size of a full moon, if the thing were a great distance away, as compared to the diminishing size of the P-51's flying toward it, it would seem that it was at least several hundred feet in diameter.) Shortly after 1500 hrs. the flight leader, stated that he was "at 15,000 ft and still climbing." He stated that he judged the speed to be the same as his or approx 360 MPH. One of his planes then asked him to level off but no reply was heard from the flight leader. That was the last message received from any member of the flight.

After dark, another or the same object appeared in approx 20° from Godman at 6° elevation. This body moved to the west (299°) and then down. The shape was fluid but generally round with no tail, the color changing from white, to ~~red~~ to red to yellow and had a black spot in the center at all times.

At 1600 GMT it was obscured by clouds.

NOTE: Later, an astronomer was contacted who attempted to account for this phenomenon as either Venus or a comet. (1)

SEE ALSO: Report of civilians and state police and corroborated version on this incident.

RESTRICTED

RESTRICTED

At approx 1407, 7 Jan 54, Capt Carter was called by Lt Gandy, A&S Detachment Commander, to come to Tower to witness an unidentified aerial object.

Object appeared round and white (whiter than the clouds that passed in front of it) and could be seen thru other clouds.

After observing it thru field glasses for approx 1 - 2 minutes, he called Col Hix's office. Col Hix, Lt Col Wood & Capt Mueller came to the tower shortly thereafter.

Capt Carter then suggested that a group of F-51 aircraft in the vicinity be contacted to pursue the object. T/Lt Mastell, Tower Operator, contacted the flight leader to take a look. Three planes presented on a heading of approx 270°. One of the planes (Mastell's) spotted it at 12000 ft alt position. Another plane relayed "This is 15,000 ft, let's level out". First speed as relayed by Mastell (180 MPH) later, "object going up and forward as fast as I can" - or 300 MPH. Mastell then stated he was going to 20,000 ft and if no clouds would observe object. Last radio contact heard by Capt Carter.

NOTE: Apparently, Mastell bled out at 20,000 ft or descended on since the object apparently appeared clear (if such were the case) and then crashed thru lack of oxygen.

Does not seem to tally with report that the phenomenon was "Venus or a comet".

RESTRICTED

RESTRICTED

At approx 1300 hrs State Police reported flying object near Kingsport. Ten minutes later sighted near Hollandsville. A third call reported it over Huntington. (all south of Indiana) Search then alerted. Search sighted object at 1400 and notified Col Hix who went immediately to tower where he observed the object thru 8-power binocs. Object also lined up with sighting bar. Three F-51 planes were already pursuing the thing on a course of 210°. (One pilot reported the thing to be traveling at 180 MPH) Col Hix reported the object appeared to the south and near the sun. "It was very white and looked like an umbrella," he stated. "I thought it was a celestial body but I can't account for the fact it didn't move." "I just don't know what it was." Appeared about 1/3 size of full moon and white in color. Thru the binocs it appeared to have a red border at the bottom at times and a red border at the top at times. It remained stationary (nearly) for 1-1/2 hours.

REMARKS: Co. of Cobles FIA. Obj chased by National Guard planes and fell out from the ground by State Highway patrolmen. No corroborating accounts.

SUBJECT Request for Transcription

TO TSNLP FROM MCIA DATE 15 Jan 49 COMMENTS NO. 1

1. It is the understanding of this office that conversations between the tower at your facility and aircraft in flight within certain ranges are recorded. During an investigation 9 January 1948 at Godman Field, Kentucky, it was learned that such a recording was made 7 January regarding an unidentified flying object. This event took place sometime between 1400 and 1600 hours E.S.T. To complete the intelligence investigation of this incident, it is important that all pertinent information be obtained, particularly the discussion that took place between the three P-51 National Guard aircraft and the tower operator at Godman Field.

2. It is requested, therefore, that a typewritten report of this transcription be furnished this office as soon as possible. If certain words are not readily understandable as a result of static and interference, an attempt at an interpretation by a qualified operator should be made to obtain at least some bit of information that might prove significant.

Unidentified Aerial Object

Commanding Officer
Cannon Air Force Base
Fort Sams, Kentucky

1. Receipt of the report of an unidentified aerial object on 19 August 1948 by personnel of your installation is acknowledged.
2. It is the desire of this Command to express appreciation for the efficient manner in which this report was accomplished.

FOR THE COMMANDING GENERAL:

H. H. HOOVER
Colonel, USAF
Chief of Intelligence

MEMO FOR Col. McCoy

SUBJECT: Unidentified Flying Objects

The following message was telephoned to Major Mathews, W-P Flight Service Center at 11:30, 19 August, Ext. 5-1107:

"An unidentified flying object was reported to the Wright-Patterson Flight Service Center at 1050 Eastern, 8-19-48, by Lt. Colonel John Naugh, Executive Office, Goddard Air Force Base, Ky. This object was estimated to be 30,000 to 40,000 ft. high, spherical in shape, bright silver color, giving a bright reflection from the sun. An F-51 was dispatched from Staniford AFB Ky to observe subject object and a report will be forwarded to Wright-Patterson Flight Service Center as soon as available."

Major Mathews said he would send us a confirming RSR.

Mr. DeGarnand was given this information.

On receipt of the above information, I immediately got in touch with Major Mathews and learned that another report had been received from Goddard Field to the effect that there was a change in altitude, that the Azimuth reading was 235° and the apparent elevation, 60° . The next report at 12:50 stated that the object was at $246^{\circ} 45'$ Azimuth and apparent altitude of $54^{\circ} 51'$. This information was immediately phoned to Mr. Brubaker with the thought that it might be Venus. Mr. Brubaker made a rough approximation of the whereabouts of Venus at that particular time and although there was a slight variation in figures, subsequent reports confirmed the fact that the object sighted was probably Venus. For example, the reported position of the object at 11:19 was 235° Azimuth, 59° elevation, whereas the computed position of Venus was $239^{\circ} 53'$ Azimuth and $61^{\circ} 35'$ elevation. At 11:30 the object was reported as 241° Azimuth 56.9 elevation whereas Venus at that time is approximately at $25^{\circ} 17'$ and $244^{\circ} 47'$. The only other bright star in this area is Pollux, however, no check was made against its computed position since the Venus readings so closely approximated those of the reported object.

WRIGHT-PATTERSON FLIGHT SERVICE CENTER
WRIGHT-PATTERSON AIR FORCE BASE
DAYTON, OHIO
REPORT OF UNUSUAL INCIDENT

Unidentified Flying Object

At 1050Z, 19 August 1948, the Wright-Patterson Flight Service Center was notified by Lt Colonel John Neagh, Executive Officer, Godman AF Base, Kentucky, via Plan 62 Interphone Network, that an Unidentified flying object was visible from the ground at Godman AFB. This object was ascertained to be at approximately 30,000 to 40,000 feet altitude, spherical in shape, bright silver color, giving a bright reflection from the sun. An F-51 was dispatched from Standiford AFB, Kentucky, to observe subject object and a report was to be forwarded to this Center when available.

At 1100Z, 19 August 1948, the above information was relayed verbatim to the Commanding General AWC (MC1) and this Center informed them that all forthcoming information regarding subject unidentified flying object would be relayed to that office immediately upon receipt.

At 1132Z, 19 August 1948, a message was received from Godman AFB, via Plan 62 Interphone Network, which stated that there was no change in elevation of subject object and it seemed to be moving southwest from Godman AFB at approximately 235°, at an elevation of 60° from Godman AFB. The F-51 was flying over Godman AFB at an altitude of 30,000 to 35,000 feet and at that time unable to locate subject object. The unidentified object was visible from the ground with the naked eye and azimuth and elevation readings were being taken by theodolite every minute and progress of subject object was being charted.

At 1150Z, 19 August 1948, the above information was relayed verbatim to the Commanding General, AWC (MC1).

At 1219Z, 19 August 1948, Major Mitchell, Operations Officer at Godman AFB, notified the Wright-Patterson Flight Service Center that the unidentified object was ascertained to be the planet Venus. This information was given to the Commanding Officer, Godman AFB, by Mr. Moore, Head Astronomer, University of Louisville, Louisville, Kentucky.

At 1228Z, 19 August 1948, this information was relayed to the Commanding General AWC, (MC1), and they requested that the azimuth and elevation readings which were obtained from Godman AFB be relayed to them in order to verify the assumption of Mr. Moore. This information was received from Godman AFB by Major Dr Armand E. Matthews and was delivered to Commanding General, AWC (MC1), who confirmed the assumption that the unidentified object was the planet Venus, due to the location, time, and trend of movement.

At 1340Z, 19 August 1948, Major Dr Armand E. Matthews contacted Godman AFB, to see if any additional information was available and received a negative reply.

RESTRICTED

b. It is doubtful that Venus could be observed by the unaided eye from the ground or 15,000 feet as it would probably be hidden by the high degree of sky brightness due to its proximity to the Sun.

c. Jupiter is the only other planet within 90° of the sun during this period and its magnitude of brightness is only -1.4 as compared with -3.4 of Venus, making it impossible to observe with the unaided eye. However, the following figures on the Moon are submitted for your information:

<u>Time Local</u>	<u>Altitude</u>	<u>Azimuth</u>
10:00	26° 00'	197°
10:30	26° 00'	204°
11:00	25° 00'	211°
11:30	25° 00'	217°
12:00	17° 00'	223°
12:30	15° 00'	228°

ii. The evidence obtained from MOUNTAIN conclusively proves that this object was not the planet Venus.

5. Sighting of 19 Aug 1948: Reference is now made to Incident No. 157 and to an enclosed copy of a report received 2 November 1948 pertaining to another sighting of an unidentified object at Godman Air Force Base on 19 August 1948. Evidence on this newest sighting seems to establish this object as being the planet Venus.

6. Readings taken at eight-minute intervals are as follows:

<u>L. S. T.</u>	<u>Station MOUNTAIN</u>		<u>Station MOUNTAIN</u>	
	<u>Altitude</u>	<u>Azimuth</u>	<u>Altitude</u>	<u>Azimuth</u>
10:26	206.3	210	206.3	210.7

1. Re Sighting of 7 Jan 1948: Reference is made to your conversation with Capt Essler on 19 October 1948 concerning your desire for a check on the position and visibility of Venus on 7 Jan 1948 between the hours of 1330 and 1350 as compared to the position of an unidentified aerial object.

2. A verbal report was rendered you ~~on 19 Oct 1948~~ the date of your request, to the effect that Venus was not visible at the date and time mentioned. Attached versions of pertinent information follow:

a. Statement by 1st Lt Paul L. Orner, O-655766, Airways and Air Communications Service APO, Detachment 733-5, Air Force Base Unit (103rd AAGC Sq) confirms the fact that the weather station theodolite viewed and tracked the object; that the object was first seen at about 230° azimuth 2° elevation at 1400 hours, and that it disappeared from its view at about 230° at 1645 hrs.

b. A statement by Colonel Guy F. Hix, Sounding Officer, Headquarters, 315th Air Force Base Unit (Res Tsg) Cody Field, Fort Hax, Kentucky, dated 9 Jan 1948, states that on or about 1445 hours the object was first sighted at 230° and that it could be plainly seen with the naked eye, was about 1/4 the size of a full moon, white in color and apparently stationary for 1-1/2 hours.

3. Comment No. 2 to B & B from MCIAS-3 to MCIAS-3, dated 27 Oct 1948 states as follows:

Position of Venus Time - Local	Azimuth	Altitude
10:00	11° 00'	12°
10:30	16° 00'	12°
11:00	21° 00'	12°
11:30	26° 00'	12°
12:00	31° 00'	12°
12:30	36° 00'	12°
13:00	41° 00'	12°
13:30	46° 00'	17°
14:00	51° 00'	18°
14:30	56° 00'	18°
15:00	61° 00'	18°

11. Name of Operator
[Faded text]

1. The following information was received from the Pilot of the aircraft involved in the crash on 7 February 1954.

On 7 February 1954 at approximately 10:30-10:40, Captain Mantall was leading a flight of four (4) P-47 aircraft on a flight from Maxwell Air Base, Marietta, Georgia to Goodfield Field at Louisville, Kentucky. During enroute flight, Kentucky, the flight was contacted by the Goodfield Control Tower and requested to identify an object in the sky if the mission would permit. Captain Mantall replied that his mission was surveying aircraft and that he would attempt to identify the object in the sky. Captain Mantall began a climbing climb in left spirals until about 10,000 feet and from there a straight climb at heading, on a compass heading of approximately 230 degrees. No communication between Captain Mantall and any member of his flight revealed a clue as to his intentions. The pilot left the flight as the climb began, the remaining two discontinued the climb at approximately 20,000 feet. When last observed by the wing man Lt. Clements, Captain Mantall was in a maximum climb at 20,000 feet, the aircraft in perfect control. Captain Mantall was heard to say in ship to ship conversation that he would go to 30,000 feet for about ten minutes and then come down. Transmission was garbled and attempts to contact Captain Mantall by his flight were unanswered. Lt. Clements was the only pilot equipped with an oxygen mask. This flight had been planned and scheduled as a ferry and navigational trip at low level.

It is assumed that Captain Mantall lost consciousness at approximately 20,000 feet, the P-47 being trimmed for a maximum climb continued to climb gradually leveling out as increasing altitude caused decrease in power. The aircraft began to fly in reasonably level attitude at about 30,000 feet. It then began a gradual turn to the left because of torque, already increasing degree of bank as nose depressed, finally began a spiraling dive which resulted in excessive speed causing gradual disintegration of aircraft which probably began between 10,000 and 20,000 feet.

Since canopy lock was in place after crash, it is assumed that Captain Mantall made no attempt to abandon the aircraft, and was unconscious at moment of crash or had died from lack of oxygen before aircraft began the spiraling dive from about 30,000 feet.

Parts of the aircraft were found as far as six-hundred (estimated) miles from central wreckage. The parts were scattered from North to South. The aircraft came straight down in a horizontal position and landed on the left side. The left wing came off while in the air and landed 100 feet from the central wreckage. The aircraft did not slide forward after contact with the ground. Throttle was set at one-fourth open, mixture control in "Idle-Cut-Off", and prop control in "Full Increase RPM".

It is recommended that all pilots be briefed again on use of oxygen and the effects of lack of same. That all pilots be issued properly fitted mask. Another order issued that no pilot go above 10,000 feet without oxygen under any circumstances. No aircraft be cleared for Cross-Country unless it be certified with oxygen.

The engine be sent to Wright Field for further study.

Oxygen classes will start immediately for all pilots and crew members. All aircraft will be equipped with oxygen. Pilots carry mask, helmet, goggles, and gloves on all flights.

12 January 1948

Subject: Compiled Report Concerning
Major Accident of Capt.
T.F. Mastell, Jr. on 7 Jan.
1948 at 1815 CST.

When It May Concern:

1. This report will be informal and fragmentary, but it is accurate to the best of my knowledge. The mission of the transport was to fly four ferry pilots, volunteer pilots of the guard, to Marietta Army Air Base where they were to pick up four P-51's that were left there because of weather 20 December 1947.

2. Upon arrival at Marietta the four P-51's were preflighted by mechanics from there on the same transport, for that purpose. Capt. Mastell filed a VFR clearance to Standiford Field at Louisville. The flight took off and I watched them form and proceed north in formation at about 400 feet.

3. Upon arrival of our C-47 at Standiford at 1815 CST on 7 January 1948 we were met by mechanics who told us about flying objects, and that our P-51's were after something and that is all we gathered. In operations about 1700 CST a phone call was received by Major Doyle that the plane had crashed near Franklin and the pilot killed.

4. At 1730 I was taken to the air in the C-47 aircraft by Bowling Green where I was to get transport via to Franklin. I had mechanics, administration specialist, and a co-pilot aboard. We stopped at 1815 CST at Bowling Green and proceeded to Franklin via Highway 2141 547.

5. At the scene of the accident we carried on as much of an investigation that was possible at night. We had affidavits from Mr. Hillis-

1235590

Mr. ... the and watched
the plane ... down. Our formal accident report is
awaiting action by the investigation board that
will meet at Standiford in the next 48 hours.

A Summary of my opinion of the cause of the
accident is compiled through what I have heard
from and affidavits concerning the
accident.

At Mantell passed near Field
he switched to B channel to call Standiford Tower,
the message was intercepted at tower and
he was directed to attempt to find out what the
object was that they were watching. Lt.
was on Mantell's wing as in a hurry to get
to Standiford, so he asked to break off and was
given permission by Mantell. Clements moved up
and could see Mantell was talking so he switched
from C channel to B channel. Mantell pitched
up at high over setting and finally took a heading
of about 375 degrees and was climbing about 100 MPH.
Parts of the conversation between Mantell and Clements was that
Mantell thought the object was travelling about the speed
he was climbing. At 22,000 feet Clements told Mantell they
were getting too high, Clements warned Lt. had
no oxygen as was getting dim. Clements likely had
a plane that had some oxygen in it and he was wearing his
mask because he could see a mask better for transmission
than he could a throat mike. When Clements had reported
to Mantell that he was turning back Mantell told him
they would go to 20,000 feet level off, fly 20 minutes
and then go down. When Clements broke off with his
wings at about 22,000 he called Mantell and informed
him he had left and Mantell's reply was garbled. Clements
last seen Mantell heading into the climbing at high
tower. Clements and Lt. landed at Standiford and
Clements refueled and took off again at 1075 CST, climbing
to and the area. Upon reaching 22,000
feet he reported over B channel that he was at 22,000 feet
and didn't see a thing. This was about 1000 or 1000
CST. Clements left a vapor trail near on the
way south and passed under it on the way back north.

Accident, Major

9. Captain Mastell's home life was normal. He had a wife and two boys...one 18 months and one about 8 years.. I was Mastell's closest friend and am sure that he never had any personal problems, except the normal business worries, which were unknown to me if he had any of that type. His interest in flying would not be recalled. He loved the F-86, felt he was the master of it, and flew...and carelessly but like an aggressive fighter pilot. I firmly believe that if he thought he had any chance of catching this object he would have pursued it knowingly to his death. I think he sees something more than a star or balloon...he was above average intelligent. He did respect the air-lane and the dangers of space. If some outside force did not cause his death, I think he passed out too quickly to change his line of flight. Mastell was six feet, weighted 180 lbs. A husky, well-build man.

MEMORANDUM
SIXTH AF BASE UNIT (RMS TMS)
COLUMBIA FIELD, FOUR ENGINE, KENTUCKY

25 January 1948

MEMORANDUM FOR THE RECORD

On the afternoon of 7 January 1948 I was on duty in the Control Tower, Columbia Field, as Chief Operator. We had been sighting an object in the sky which we were unable to identify from our position in the tower.

At approximately 1430 hours we sighted a 4-engine formation of P-51's approaching Columbia from the northeast heading towards Louisville. As they crossed near Columbia Field, I attempted to contact the flight of ships in the following manner:

"Columbia Tower Calling the flight of 4 ships northbound over Columbia Field. Do you read? Over?"

I gave that call twice and finally after the second call-up the Flight Leader of the formation acknowledged, "Roger, Columbia Tower. This is National Guard 609, Flight leader of the formation. Over".

"National Guard 609 from Columbia Tower. Do have an object out north of Columbia from that of our position in identify, and we would like to know if you have any information as to what you saw - time in or if you will."

The Flight leader acknowledged, "Roger, I have the gas and I will take a look for you if you give me the correct heading and any information you have on locating the object".

One of the four ships continued on towards Louisville. 3 of them swung around to the right and reversed their course, making good a heading of approximately 310° from Columbia Field, and climbing steadily.

At about 1445 or 1450 hours, National Guard 609 notified Columbia Tower in the approximate 15,000 feet.

"I have an object in sight above and ahead of me, and it appears to be moving at about half my speed or approximately 100 miles an hour."

When asked for a description of the object, he replied, "It appears to be a metallic object or possibly reflection of sun from a metallic object, and it is of tremendous size."

Approximately 1455 or 1500 hours, the Flight leader reported the object as, "Directly ahead of me and slightly above, and is now moving at about my speed or better. I am trying to close in for a better look."

That was the last contact we had with the flight leader in the tower.

Very soon after that National Guard 609 who was in the flight with National Guard 609, attempted to contact the Flight leader and then he was unable to do so announced that he was returning to Stanford Field, as he was unable to contact the flight leader.

The foregoing tapes mentioned are approximately only.

The conversation was not recorded. I have stated it in the way I remember it,
to the best of my ability.

AFFIDAVIT

January 1, 1948
Franklin, Kentucky

I, William C. Mays of Route 28, Lake Spring Road, Franklin, Kentucky, Simpson County do state that on 7 January 1948 at approximately three-fifteen P.M. I heard an airplane overhead making a funny noise as if it were diving down, and pulling up, but it wasn't; it was just circling. After about three circles the airplane started into a power dive slowly rotating. The plane was so high I could hardly see it when it started down. It started to make a terrific noise, ever increasing, as it descended. It exploded half way between where it started the dive and the ground. No fire was seen. It hit or crashed at three-twenty P.M. on the trail. It didn't explode when it hit the ground and it did not burn.

The witness thereof, I have foregone out by my own affidavit to be sworn to on Route 28, Lake Spring Road, Franklin, Kentucky, this 1st day of January 1948.

William C. Mays
Route 28, Lake Spring Road,
Franklin, Kentucky

Sworn to and subscribed before me
this 1st day of January, 1948.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific requirements for record-keeping, including the need to maintain original documents and to keep copies of all transactions. It also discusses the importance of regular audits and the role of internal controls in ensuring the accuracy of the records.

3. The third part of the document discusses the consequences of failing to maintain accurate records, including the potential for financial loss and the risk of legal action. It also discusses the importance of training staff on proper record-keeping procedures and the need for ongoing monitoring and evaluation of the record-keeping system.

4. The fourth part of the document discusses the importance of transparency and accountability in the financial system. It emphasizes that accurate records are essential for providing a clear and concise picture of the organization's financial performance and for ensuring that all stakeholders have access to the same information.

5. The fifth part of the document discusses the importance of data security and the need to protect sensitive financial information. It emphasizes that accurate records are only as good as they are secure, and that organizations must take appropriate measures to protect their data from unauthorized access and loss.

[The main body of the document contains several columns of text that are extremely faint and illegible due to the quality of the scan. The text appears to be organized in a structured format, possibly a table or a list of entries.]

[This section contains a few lines of text, likely a header or a summary line, which is also mostly illegible.]

(A) **James H. Smith Co.**
 [Additional text in this section is illegible.]

PLATE GLASS AND OPTICALS
 [The bottom section of the document contains more text, including what might be a company name or address, but it is too dark to read accurately.]

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations.

In the second section, the author outlines the various methods used to collect and analyze data. These include direct observation, interviews, and the use of specialized software tools. Each method has its own strengths and limitations, and the choice depends on the specific requirements of the study.

The third section provides a detailed overview of the results obtained from the data analysis. It highlights key trends and patterns, such as the increasing trend in certain categories and the decreasing trend in others. These findings are crucial for understanding the underlying factors and making informed decisions.

Finally, the document concludes with a series of recommendations based on the findings. It suggests that further research should be conducted to explore the long-term implications of the observed trends. Additionally, it advises on practical steps that can be taken to address the identified issues and improve overall performance.

'Saucer' Cause Of Plane Crash

LOUISVILLE, Ky., Jan. 8. (AP)—The Kentucky National Guard headquarters revealed here today that Capt. Thomas F. Mantell Jr. 25 was killed in a plane collision near Franklin, Ky., yesterday while chasing what was believed to be a flying saucer.

Mantell was one of three Kentucky National Guard officers sent to investigate a report of flying saucer in the air near Fort Knox. The object also was reported at Hodginsville, Ky., Nashville, Tenn., and other points in the two states.

Mantell was flying a P-51 National Guard plane when witnesses said apparently exploded in the air and crashed near Franklin.

Capt. R. L. Trow, Louisville operations officer for the Kentucky Air National Guard with headquarters at Standford Field, said his investigation into the crash convinced him that Mantell "blacked out" because he reached a height of about 30,000 feet.

He said the plane went into a dive at this time and began to disintegrate at about 15,000 feet because of its great speed. He added that Mantell was chasing some object in the sky.

'Flying Saucer' Seen In State

FORT KNOX, Ky., Jan. 7. (AP)—A "flying saucer" reportedly was seen here Wednesday and Col. Guy V. His, commander of Godman Field, sent three airplanes after it but the "saucer"—if that's what it was—got away just as did those which

traced a saucer seen on at Churchill Downs.

Praise for the Louisville orchestra has been spread by many of the top-ranking musical figures, instrumental and vocal soloists, who have performed with the organization in its 11 years of playing.

"Don't worry about Louisville," these soloists have been told in New York. "You won't have any trouble with that orchestra."

The Paris concert at 7:30 and 8 p.m. will be given under the auspices of the Bourbon County Women's Club. At the afternoon concert, the children of Bourbon county will be guests of Paris businessmen who have helped guarantee the orchestra's appearance.

performed all sorts of takes last year.

Col. His said the saucer became visible here about 2 p. m. "It was to the south and near the sun, very white and looked like an umbrella," he elaborated.

Three National Guard planes happened to be circling overhead at the time, so the colonel said he ordered the crew to give chase. But a few minutes later the pilot radioed back the saucer was too high and going too fast for them to catch.

The Army officer said he watched the saucer through powerful binoculars, and that from an observation tower it appeared motionless.

"I thought it was a celestial body but I can't account for the fact it didn't move. I just don't know what it was."

Dr. Walter L. Moore of the University of Louisville said the planet Venus was near the sun at the time the saucer was reported seen.

UNITED STATES AIR FORCE
AERIAL AND AIR COMMUNICATIONS SERVICE, AEC
DETACHMENT 734-8 AF HANS UNIT (1300 AACB SQ)
Coburn Field, Fort Knox, Ky

9 January 1948

STATEMENT OF T SGT QUINTON & BLACKWELL

I, T Sgt Quinton & Blackwell, AF15150475, was on duty as chief operator in the Control Tower at Coburn Field, Ky. on the afternoon of 7 January 1948. Up until 1315 or 1320 matters were routine. At approximately that time I received a telephone call from Sgt Cook, Col Six's office, stating that according to Ft Knox Military Police and "K" Team state police, a large circular object from 250 to 300 ft in diameter over Harroville, Ky. and requested I check with Army Flight Service to see if any unusual type aircraft was in that vicinity. Flight Service advised negative on the aircraft and took the other info, requesting our CO verify the story. Shortly afterward Flight Service gave Coburn Tower positions on an object over Irvington, Ky. then Owensboro, Ky. of about the same size and description. About 1345 or 1350 I sighted an object in the sky to the South of Coburn Field. As I wanted verification, I called by Detachment Commander, 1st Lt Ormer, in the Tower. After he had sighted the object, he called for the Operations Officer, Capt Carter, over the teletalk box from the Traffic Desk. He came up stairs immediately, and looked at the object through the field glasses in the Tower. He then called for the CO, Col Six. He came to the tower about 1400 (approx) and sighted the object immediately. About 1420 to 1440 a flight of four P-51's approached Coburn Field from the South, enroute from Marietta, Ga. to Standiford Field, Ky. As they passed over the tower I called them on "C" channel, VHF and asked the flight leader, "C 540, if he had enough gas and if so, would he mind trying to identify an object in the sky to the South of Coburn Field. He replied in the affirmative and made a right turn around with two planes and proceeded South from Coburn Field. The fourth plane proceeded on to Standiford Field alone. The three ship formation proceeded South on a heading of 210°, climbing steadily. About 1445 the flight leader, SE 900, reported seeing the object "ahead and above, I'm still climbing". To which a wing was retorted, "What the hell are we looking for?" The leader reported at 15,000 ft that "The object is directly ahead of and above us now, moving about half up speed". When asked for a description he replied, "It appears metallic object of translucent disc". At 15,000 ft, the flight leader reported, "I'm still climbing, the object is above and ahead of us moving at about my speed or faster, I'm trying to close in for a better look. This last contact was at about 1515. About 5 min. afterward, the other two ships in the flight turned back. As they passed over Coburn SE 900 reported "It appears like the reflection of sunlight on an airplane canopy". Shortly afterward, the same pilot and plane took off from Standiford and resumed the search. He went to 20,000 ft, one hundred miles South and did not sight anything. I left the Control Tower shortly afterward.

~~CONFIDENTIAL~~

At approximately 1400H, 7 January 1948, Kentucky State Police reported to Ft Knox Military Police they had sighted an unusual aircraft or object flying through air, circular in appearance approximately 250 - 300 feet in diameter, moving westward at "a pretty good clip." This in turn was reported to the Commanding Officer, Godman Field, Ft Knox, Kentucky, who called Godman Tower and asked them to have Flight Service check with Flight Test at Wright Field to see if they had any experimental aircraft in that area.

Captain Hooper at Flight Test Operations stated, "We have no experimental aircraft in that area, however we do have a B-29 and an L-26 on photo missions in that area." This information was relayed to Godman Tower by dispatcher on duty and a verification on report was asked for.

Godman Tower later called back and stated first report was by radio to Ft Knox Military Police and followed by telephone call to same from State Police.

Information on P-51's and further reports are reported as follows by Captain Arthur T. Jehli, Supervisor of the 1600H - 2400H shift,

"When the 1600H - 2400H shift reported for duty we were advised that a "disc", or balloon, or some strange object was seen hovering in the vicinity of Godman Field. This object was seen by the Commanding Officer and Operations Officer of Godman Field who advised that they would attempt to send aircraft to ascertain the size and shape of the object.

"At this time there was a flight of 4 P-51's enroute from Marietta, Georgia to Standiford Field, Louisville, Kentucky. The lead ship was NO 3869, pilot Mastell. The Commanding Officer, Godman Field contacted this pilot and requested that he investigate the object overhead.

"One of the ships of the formation, NO 336 pilot Sandrichs, landed at Standiford Field. The 3 other aircraft started to climb toward the object.

"At 22,000 feet pilot Hammond, NO 797, advised Clements, NO 800, that he had no oxygen equipment. Both pilots then returned to Standiford Field; pilot Mastell, NO 3869, continued climbing.

"Pilot Clements, NO 800, refueled and went back up to 30,000 feet but did not see either the strange object or the aircraft NO 3869 again, and so returned to Standiford Field.

"At 1750H, Standiford Field advised that NO 3869, pilot Mastell, crashed 5 miles SW Franklin, Kentucky approximately 1645H.

"We then sent on arrival of 1500H for the 3 aircraft, NO 336, NO 797, and NO 800, also notified Maxwell Flight Service Center that NO 3869 had crashed.

~~CONFIDENTIAL~~

100-33

"Maxwell Flight Service Center made a long distance call to Franklin, Kentucky and spoke to police officer Joe Walker, who took charge at the scene of the accident.

"Officer Walker stated that when he arrived the pilots body had been removed from the aircraft. Upon questioning eye witnesses, Officer Walker learned that the aircraft had exploded in the air before it hit the ground, but, that the aircraft did not burn upon contact with the ground.

"The wreckage was scattered over an area of about one mile, and at that time the tail section, one wing, and the propeller had not been located.

"Lt Tyler, Operations Officer at Standiford Field, departed Standiford Field for Bowling Green, Kentucky in EC 4101 to investigate the accident - Also at our suggestion an investigation party and Military Police were dispatched from Godman Field to the scene.

"So much for the accident - now hold on to your hats!

"Godman Tower again contacted us to report that there was a large light in the sky in the approximate position of the object seen earlier. Then Lockbourne Tower and Clinton County Tower advised a great ball of light was traveling southwest across the sky.

"We then contacted United Flight Service Center and gave them all the information available to deliver to the Air Defense Command at Mitchel Field, Hempstead, New York.

"Later we received a call from St Louis Tower advising that a great ball of light was passing directly over the field - Scott Tower also verified this.

"We then received a call from Air Defense Command through United Flight Service Center advising us to alert Coffeyville, Kansas, Pt Smith, Arkansas, and Kansas City, Missouri, and that they had plotted the object as moving WSW at 250 miles per hour.

"We then received information from Maxwell Flight Service Center that a Dr. Seyfert, an astronomer at Vanderbilt University, had spotted an object SW of Knoxville, Tennessee that he identified as a pear shaped balloon with cables and a basket attached, moving first SSW, then WSW at a speed of 10 miles per hour at 25,000 feet. This was observed between 1630C and 1645C.

"United Flight Service Center then advised us to instruct Godman Field to forward a complete report of the whole incident to Air Defense Command at Mitchel Field, Hempstead, New York as soon as possible.

100-337
"The Military Police at the scene of the accident called back and advised Godman Field that someone at Madisonville, Kentucky had observed, through a binocular telescope an object described as cone shaped, 100 feet from tip to bottom, 43 feet across, and 4 miles high proceeding SW at 10 miles per hour.

RECORDED

2-23

"All this time the weather observer at Godman Field was spotting the object with a Theodolite and keeping a record of times, elevations and azimuths.

✓ "St Louis ATC advised of an article printed in the "Edwardsville Intelligencer", Edwardsville, Illinois, describing an object, over the town at 0720C, of aluminum appearance without apparent ~~control~~ or control surfaces which was moving southwest. This object remained visible for about 30 minutes. This article went on to describe the amazement and wondering of the editor regarding this object - and you can bet that he was no more confused than I am at this moment."

9 January 1948

STATEMENT OF PFC STANLEY OLIVER

I, Pfc Stanley Oliver, was on duty in the Control Tower at Godman Field on the afternoon of 7 January 1948. When first heard of the object in the sky about 1320 CST, we received a phone call from Colonel Hix's office that a large object was sighted at Harrodsburg, Kentucky, the supposed object was supposed to be about 150 feet to 300 feet in diameter at 1330 CST or more.

Sgt Blackwell sighted an object to the southwest of Godman Field and he called me if I saw it. I saw the object but thought I was imagining I saw it and Sgt Blackwell told me to look again. This time I was really sure I saw an object and then we called Lt Orner, who came to the Control Tower and he too saw the object. Lt Orner then called Captain Carter who, after coming to the Control Tower, also saw this object. Captain Carter called Colonel Hix who came to the Control Tower and he too saw the object. We all then attempted to figure out just what it could be and to me it had the resemblance of an ice cream cone topped with red.

At or about 1445 CST we sighted five (5) P-51 aircraft coming on from the southwest and as they came over the Control Tower someone suggested contacting the aircraft. Sgt Blackwell contacted them on "3" channel (VHF) and aircraft acknowledged his call. Someone suggested they try to overtake the object and we requested the pilots to try and the flight leader stated he would. The call sign of this ship was N6879. They turned around and started toward the southwest again. One pilot in the formation told the flight leader that he would like to continue on to Louisville with the flight leader giving his permission to do so. We kept in contact with the flight leader for about twenty-five (25) minutes. The last contact we had with the flight leader was when one of his wingmen called and said "what the hell are we looking for". Flight leader stated he had the object in sight and he was going up to see what it was. He said at present he was at 15000 feet and was still climbing. Those were the last words I believe we heard from him. Other pilots in the formation tried to contact him but to no avail.

In about another ten or fifteen minutes another P-51 took off from Standiford Field to look for the object. He gave us a call and asked if we still had the object in sight. He was told that at present the object was behind a cloud formation but he said he would try and locate it and in the meantime he tried contacting his flight leader but was unable to do so. He then reported he was unable to see the object and was coming back in when he came over the Control Tower.

I received a call from Standiford Operations that the plane had crashed and the pilot was killed at Franklin, Kentucky. He then sighted

SUBJECT: Report of Observation of Unidentified Object
in Skies Above Columbia Field

TO: Commanding General
Eighth Air Force
1412 South Cameron Street
Harrisburg, Pennsylvania
ATTENTION: Lt. Col. Chandler F2D Section

1. The inclosed certifications are of personnel from Columbia Field who witnessed the object in the southeastern sky from Columbia Field on 8 January 1946, with additional information concerning the loss of a P-51, (43069).

2. Staniford Tower, Staniford Field, Louisville, Ky., reported that two aircraft of an unspecified type were taking off from Staniford at approximately 1500 hrs. and would be directed to proceed to Columbia to assist in determining a definite status of the reported object. These aircraft did not appear. Another flight composed of four P-51's flew directly over Columbia Tower at approximately 1500 hrs., at which time they were asked their identification. Upon being informed that they were National Guard aircraft from Staniford Field, and upon their replying in the affirmative that sufficient gas was available, they were asked if they would deviate from their course to assist in determining the nature of the object. Their RFA for the flight to Staniford was changed at that time.

3. The object, as it appeared to the undersigned, was circular in shape and, if it was a great distance away, was 1/10th the size of a full moon. If it was an earthy object, the disc, as compared to the disappearing disc of the P-51's flying toward it, seemed to be at least several hundred feet in diameter.

SIXTH AF BOMB UNIT (SABU) (SABU TWO)
OSWEGO FIELD, FORT RICK, KENTUCKY

1/9/50

9 January 1950

The undersigned was on duty at Osborn Field 7 Jan 48 as Operations Officer.

At approximately 14:00 hours and 7 minutes, 7 Jan 48 I received a call from Lt. Ormer, 1st Bomb Squadron, 6th Bomb Group, that the Tower had spotted an unidentified object and requested that I take a look. Lt. Ormer pointed out the object to the southeast, which was easily discernible with the naked eye. The object appeared round and white (whiter than the clouds that passed in front of it) and could be seen through cirrus clouds. After looking through field glasses for approximately 3 or 4 minutes I called Sr. Six's office, advising that office of the object's presence. Lt. Col. Reed and Capt. Swisher came to the tower immediately. Col Six followed them.

About this time a flight of four P-51 aircraft were noticed approaching from the south. I asked Tsc. Sgt. Kitchell, Tower Operator to contact the planes and see if they would take a look at the object for us. The planes were contacted and stated they had sufficient gas to take a look. One of the planes proceeded on to Staniford, the other planes were given a heading of 235°. One of the planes said he spotted the object at 1200 o'clock and was climbing toward it. One of the planes then said, "This is 19,000 ft., let's level out". One of the planes, at this point (approximately the plane who saw the object) estimated its speed (the object's) at 1800 P.M. A few seconds later he stated the object was going up and forward as fast as he was. He stated that he was going to 20,000 feet, and if no clouds was going to observe the chase. This was the last radio contact I heard. It was impossible to identify which plane was doing the talking in the above report. Later we heard that one plane had landed at Staniford to get Reed and suggest to resume the search.

The undersigned reported to Flight Service a description, position of the object while the planes searched for it.

Jan 31 1948

9 January 1948

REPORT OF LT PAUL J. OKNER

Following is an account of the sighting of unknown objects from the Control Tower on 7 January 1948 at Godman Field:

On the above date at approximately 1400 CST a report came in to the Control Tower through Lt Sgt Cook of a report of an unidentified object flying at terrific speed in the vicinity of Maysville. This call was cancelled minutes later by the military Police at Fort Knox who had instructions from the Kentucky State Police.

Very soon thereafter several reports of the same nature came from Flight Service saying this object was over Irvington and Owensboro, Kentucky. At the same time an object was reported by T Sgt Blackwell, Chief Control Tower operator on duty. I was in the office of the Commanding Officer checking the call from the Fort Knox Military Police at this time. When the call was cancelled I was returning to the Control Tower to see the object sighted by them. I immediately went to the Control Tower and saw a small white object in the southwest sky. This object appeared stationary. I was unable to tell if it was an object radiating its own light or giving off reflected light. Through binoculars it partially appeared as a parachute does with bright sun shining on the top of the silk but there also seemed to be some red light around the lower of it.

The Commanding Officer, Operations Officer, S-1 and Executive Officer were called immediately. Several minutes after the object was sighted a flight of four (4) P-51's came over the field from the south. I instructed T Sgt Blackwell to call flight leader and ask if they had seen any evidence of this object. The flight leader answered negative and I suggested to the Operations Officer that we ask them if they had enough gas to go look for this object. The Tower operator was instructed to call the flight leader and he answered "yes" to this question. One (1) P-51 had permission from the flight leader to break formation and continue where he landed several minutes later on their original flight plan. The flight leader and two (2) other planes flew a course of 210° and in about five (5) minutes sighted the object. At first the flight leader reported it high and about one-half his speed at "12 o'clock". Shortly thereafter the flight leader reported it at about his speed and later said he was closing in to take a good look. This was the last message from 80849, the flight leader. 80849 shortly thereafter reported 80849 disappeared. From pilots reports in the formation 80849 was high and ahead of the wing man at about 1515 CST to 1430 CST when he disappeared. 80849 said he was breaking off with other wing men to return to Standard Field due to lack of gas. This was about 1515 CST to 1530 CST. From messages transmitted by the formation it was estimated the flight leader was at 15 to 20 thousand feet and the wing man at approximately 10 thousand feet wide formation when the flight leader 80849 disappeared. 80849 and other wing men returned to Standard Field.

CONFIDENTIAL

(CONFIDENTIAL)

June 22

STATEMENT OF LT PAUL I ORNER (cont'd)

NG800 gassed up and got more oxygen and flew a second mission on the same heading of 210° to a position of about 100 miles south of Godman Field to an altitude of 33 thousand feet and did not sight the object. At about 1846 CST when NG800 reported not seeing the object I left the Control Tower.

At about 1735 CST I returned to the Control Tower and a bright light different than a star at a position of about 240° azimuth and 8° elevation from the Control Tower. This was a round object. It seemed to have a dark spot in the center and the object moved north and disappeared from the horizon at a point 250° from the tower. The unusual ~~fact~~ about this object was the fact that it remained visible and glowed through the haze near the Earth when no other stars were visible and did not disappear until it went below the level of the Earth in a manner similar to the sun or moon setting. This object was viewed and tracked with the Weather Station theodolite from the hangar roof.

HEADQUARTERS
SIXTH AIR BASE UNIT (MSG TRO)
GODMAN FIELD, FORT MONROE, KENTUCKY

A/MSG

9 January 1946

At approximately 1300 hrs. a call came to this Headquarters from State Police, reporting a flying object near Elizabethtown. Another report came in from Madisonville about ten minutes later. A third call came in from Lexington, Kentucky. (All towns towns are south of Godman Field).

We alerted the Tower to be on the lookout for flying objects. At 1445 hrs. the Tower notified us that an object had been sighted at about 225°. I went to the Tower and observed the object until 1550 hrs., when it disappeared behind the clouds.

The object observed could be plainly seen with the naked eye, and appeared to be about one-quarter the size of a full moon, white in color. Through eight-power binoculars, the object seemed to have a red border at the bottom, at times, and a red border at the top at times. It remained stationary for 1 1/2 hours.

When I arrived in the Tower, Tech. Sgt. Quinton Blackwell had contacted three P-51 airplanes over the field and suggested that they have a look if they had sufficient fuel. When I arrived, they were within sight of the Tower, headed on a course of 215°.

I heard one of the pilots report that he saw the object straight ahead and estimated the speed of 150 M.P.H. The pilot stated that the object was very large and very bright.

CONFIDENTIAL

CONFIDENTIAL

STATE OF MISSOURI (MO 100)
COLEMAN FIELD, F-4E BOMB, 1000000

9 January 1958

At approximately 11:00, 7 Jan 58, I accompanied Lt. Col. E.S. Reed to the Coleman Field Control Tower to observe "an object hanging high in the sky south of Boone".

Shortly after reaching the tower, Col. Guy F. Hix, Grounding Officer, was summoned; it was at that time that I first sighted the bright silver object.

Approximately five minutes after Col. Hix came into the tower, a flight of four F-41's flew over Boone. An officer in the tower requested that the Tower Operator call this flight and ask the Flight Leader to investigate this object if he had sufficient fuel. The Flight Leader (Capt. Thomas F. Metcalf) answered that he would, and requested a bearing to this object. At that time one member of the flight informed the leader that it was time for him to land and broke off from the formation. This A/C was heard requesting landing instructions from his base field, Goodland, in Louisville.

In the meantime the remaining three F-41's were climbing on the course given to them by Boone Tower towards this object that still appeared stationary. The Tower then advised the Flight Leader to correct his course 5 degrees to the left; the Flight Leader acknowledged this correction and also reported his position at 7,500 feet and climbing. Immediately following the Flight Leader's transmission, another member of the flight asked "Where in the hell are we going?" In a few minutes the Flight Leader called out an object "to five o'clock high". Asked to describe this object, he said that it was bright and that it was climbing away from him. When asked about its speed, the Flight Leader stated it was going about half his speed, approximately 100 M.P.H.

None of us in the Tower lost sight of the flight, but could still see this object. Shortly after the last transmission, the Flight Leader said he was at 10,000 ft. and still climbing after "it", but that he judged its speed to be the same as his. At that time a member of the flight called to the leader and requested that he "level off", but we heard no reply from the leader. That was the last message received from any member of the flight by Boone Tower.

Flying Saucers Again Reported Over Kentucky

Fort Knox, Ky. Jan. 1 (AP).—Flying saucers are said to be sailing Kentucky skies again.

The object spotted early this afternoon by Col. Guy F. Nix commander of Goddard Field here was chased by National Guard planes and followed from the ground by State highway patrolmen.

He ordered three National Guard planes to follow the object and the pilots reported later they were 20,000 feet high and the saucer was still above them. They estimated its speed at about 100 miles per hour.

Highway patrol headquarters at Elizabethtown also reported receiving calls from cruisers whose occupants said the disk resembled an egg cream cone with a little disc at the bottom.

On 13 Oct 47, at approx 5:30 a. m., Judge Henny in the company of G. D. Bates were traveling via a closed car north on highway to Winnipegosis about 14 miles north of Duffin. Dues had not yet broken. Sky to the northwest clear with stars visible. Object first observed traveling from west to east. When first noticed it was about the size of a large grapefruit which increased in size to that of a large football. Object in view approx 3 seconds and moved eastward horizontally to the earth at meteoric speed. At first thought to be aircraft light but it kept getting closer to earth. Slightly west of due north at estimated elevation 10° it exploded throwing a brilliant reddish tinged cone of fire forward & downward. No noise heard. At the time of the explosion, Mr Bates commented to Judge Henny that there must have been terrific heat from the object to give it such a bluish tinge. No tail on the object. When it exploded fragments were thrown forward & downward giving off bluish light.

NOTE: A group consisting of Mr. A. E. Wickson, Mr. V.E. Marley (graduate of the CIT jet propulsion course) both of the Guided Missile Section of the Defense Research Board, Lt Col W. B. Wilcott, AFO 2/Wright F14 and Dr. J. K. Rowless examined the object to be a meteor in that the 10° elevation as first seen together with terrific speed observed would place the object in the stratosphere to be seen by the several groups who witnessed the phenomena.

SECRET

SECRET

On 13 Oct 47 at 5:30 - 5:45 A. M., Mr. G. D. Bates in the company of Judge Kamey were proceeding north on the highway to Winnipegosis some 14 miles north of Dauphin. It was not yet dawn. Sky to northwest clear with stars visible. First noticed a blue light to the northwest at an elevation of 25°. It was moving eastward with the speed of a meteor. First thought to be aircraft light but as it moved across sky it grew larger and kept getting closer to the earth - apparently traveling from NW to the SE. When first observed it seemed the color and size of a first-magnitude star. At a point slightly west of due north at about a 10° elevation it exploded, throwing a brilliant & reddish tinged cone of fire forward and downward. No noise was heard. The cone appeared to be composed of fine specks of incandescent material with some larger pieces - such like an explosion of a sky rocket. But at no time was any tail seen - simply a bright ball growing larger and then the explosion. The ball seemed to grow in size - an analogous comparison - the spread in diameter between a golf ball to a football. It appeared as a ball of blue fire until the explosion.

NOTE: Mr. Bates account tallies with that of Judge Kamey with the exception that the Judge apparently did not notice the blue tinge until the time of the explosion.

W. L. Mesbrocht and F. W. Sawatsky going north on the highway between
Trosse Isle and Warren about 0530 hours 13 Oct 52 when they saw a green coloured
object cross the sky. They estimated its distance ahead of them at about two miles a.
and its altitude at about 1,000 feet. Its shape and size was that of a soccer ball.
They watched it about 30 seconds and while they heard no noise the windows of
the car were closed. It appeared to have a tail of green coloured sparks and
they assumed it to be a flare shot at a very gradual angle and from a south-south-
west direction. Toward the end of the 30 seconds it appeared to dip toward the
road and to go out before it would have struck the ground.

Saw the object from a point at Cassiopeia, north of Seattle at about 0530
on 12/1/41. The west was clearish little fog and he watched it for
about 10 seconds. It was more or less round in shape, orange-yellow in color
with a line or tail or flame and appeared to be traveling
at a high speed and did not have a very high altitude of about 4000 feet and it seemed to
disappear rather than explode. It was not a flare or rocket, comet or fall
of meteorite as there were no noise.

While stationed on the British Columbia coast he had observed a number of
Japanese balloons and while the object was fairly large it was not as large
as one of these.

CONCORATED REPORT: Robert Smith of 368 Bowen Ave., Seattle, reported
the incident to the newspapers. He was with
Speers when the sighting occurred.

SECRET

While Mr. [redacted] was waiting for a water hunter to join us, we noticed what appeared to be a very small ball of fire appear in the sky to the north-west of us. The time was 5:15 a.m. This object travelled from west to east, and did not appear to be a meteor. The distance of flight as measured by the eye was approximately 1000 yards. It was out there for approximately 10 seconds. The object, during its flight, appeared to follow a path of what could be described as a parabola. The object, to the best of our knowledge, about the same distance from the observer, travelled in a path that the object did in a straight line. The size of the object was the size of a small ball. Just before reaching the end of its flight, the object seemed to have come to a halt, then exploded into a number of glowing fragments. The surrounding space appeared to be filled with the explosion for approximately 10 to 15 seconds, then fading out. The object to be observed.

NOTE: While the observers came to the conclusion that the object was a meteor there are some peculiar discrepancies. Observers thought it strange that (1) time of flight was so long - 12-15". (2) that it appeared to move across the sky rather than in a downward movement until just before the end of its flight, at which time it seemed to drop somewhat.

WITNESSES: Two brothers of Chapman.

A strange phenomenon was witnessed early Monday morning, Oct 13, blazing its way through the heavens between 5:00 and 5:30 a. m. The ball as described by M. Farion was a flaming luminous mass with an orange-tinted white. The tail left by this object was made up of smoke as well as of flames. This "celestial invader" described as being about the size of a baseball was reported to have passed rather closely from west to east.

Corroborated account: M. Farion, Harry Lipscomb and Jim Park.

FILED 17-11-1947 - 17-11-1947

Ref. 17-H-194
17-B-292

Reference

On the date in question, October 13, 1947 at approximately 5:30 a.m., accompanied by G. D. Bates, Manager, Government Liquor Control Store at Dauphin, Judge Heaney was travelling in a closed car proceeding north on the highway to Winnipegosis at a point about 14 miles north of Dauphin. Dawn had not broken. The sky to the northwest was clear, stars clearly visible. The spectacle they observed was travelling from the west to the east and when first noticed was the size of a large grapefruit and increased in size to about the size of a large football. The object was in view for a period of approximately three seconds and it was moving eastward, horizontally to the earth at the speed of a meteor or falling star. At first, Judge Heaney and his companion thought the light might be an aircraft light and as it moved across the sky it kept getting closer to the earth. At a point slightly west from due North and at an estimated elevation of 10 degrees it exploded, throwing a brilliant and reddish light some of five forward, and downward. There was no noise heard. At the time of the apparent explosion there was a bluish light, so much so that Mr. Bates remarked to Judge Heaney that there must be a terrific heat from the object.

Judge Heaney informed me there was no noise during the time this object was travelling across the sky, nor at the time it disintegrated. There was no tail on the object and when it apparently exploded, what appeared to be fragments, was thrown forward and downward, and it was at that time that the bluish light was observed. I asked if he could estimate how far north of his position the object would be, but Judge Heaney stated that it was impossible to make an estimation as it might have been several hundred miles north of where they were. This, of course, is understandable as these gentlemen not knowing the size of this object could not be expected to estimate the distance between them and the point where the object was observed.

Calling on Mr. Williams now with the Canadian Press at this point, I solicited his assistance and later as a result of enquiries made by him he furnished me with copies of letters he had received from individuals who saw the object in the sky on the date in question.

346 Letter from G. D. BATES, Manager, Government Liquor Office, Dauphin, Manitoba:

On date mentioned and between 5:30 and 5:45 a.m. Judge Heaney and I were travelling in a closed car, proceeding North on the highway to Winnipegosis at a point about 14 miles north of Dauphin. Dawn had not broken. The sky to the Northwest was

SECRET

SECRET

clear, stars clearly visible. Duration of the spectacle was approximately 3 seconds. We first noticed a blue light to the northwest, at an elevation of about 25 degrees. It was moving eastward at about the speed of a meteor or falling star. We thought it might be an aircraft light. It seemed to be the color and size of a first magnitude star. But as it moved across the sky it grew larger and kept getting closer to the earth. So it was apparently travelling from the NW towards the SE. At a point slightly east from our fort, and at an estimated elevation of 10 degrees it exploded, throwing a brilliant and reddish tinged cone of fire forward, and downward. There was no noise heard. The cone appeared to be composed of fine specks of incandescent material, with some larger pieces - much like the explosion of a sky rocket. But at no time was there any tail seen; simply the bright ball growing larger and the explosion. The growth in size might be compared to the spread in diameter between a golf ball and a foot ball. The light would probably be visible on the ground - but we were looking at the object itself. Judge Heaney and I were so impressed that we discussed the occurrence at length, and minutely, and I think agreed on the salient facts. That- ever it was, it was not goose feathers. The description as a ball of blue fire, until the explosion, is not far off, I think.

There has been corroboration. Mr. Art. Lashoff, well known Dauphin sports man, noticed the flash when he was sitting on his porch. Mr. Allen Gills, local traveller for Western Grocers and Cereals, who of Lachine, was on his way some 5 miles East of Oubre River, when they saw the ball but not the explosion. Mr. Wilfred McCallion, proprietor of a dairy farm just north of here, was travelling North near Dauphin, when he saw the light. I have been informed that a farmer's wife near Cameron, Sask. also saw the ball travelling across the northern sky from West to East, at her farm-house, but I did not check this report - could probably get more particulars if you are interested. All agree on the time mentioned.

It will be observed that Mr. Bates corroborates in detail the information given by Judge Heaney.

The following information was supplied to Mr. Williams by Dr. W. R. Giesbrecht:

3413 Dr. W. R. GLASHBURN, veterinary surgeon, 148 Kingston Row, said he and F. W. SAWATSKY, were going north on the highway between Grosse Ile and Warren about 0530 hours 13 Oct when they saw a green coloured object cross the sky. They estimated its distance ahead of them at about two miles and its altitude at about 1,000 feet. Its shape and size was that of a soccer ball.

They watched it for about 30 seconds and while they heard no noise the windows of their car were closed. It appeared to have a tail of green coloured sparks and they assumed it to be a flare shot at a very gradual angle and from a south-south-west direction.

SECRET

SECRET

Towards the end of the 30 seconds it appears to dip toward the ground and to go out before it would have struck the ground.

Interviewing Wilbert SPARKS of 188 Ethelbert Street, Winnipeg, Mr. Williams obtained his story which reads as follows:

Wilbert SPARKS of 188 Ethelbert Street, an apprentice undertaker and an R.C.A.F. veteran, said he saw the object from a point at Inawasis Lake, north of Nettley about 0530 hours 13 Oct.

The weather was clear with little wind and he watched it for about 30-40 seconds. It was more or less round in shape, orange-yellow in colour with a flame or tail or flame and sparks at the rear. It seemed to come from slightly south of west. He estimated the direction as about 240 degrees, assuming north to be zero.

It appeared to travel at a rapid speed and not to be passing very high. He estimated a plane of equivalent size would be at an altitude of about 8,000 feet and it seemed to disappear rather than explode.

It was not a flare or rocket, comet or falling star and at no time was there any noise.

While stationed on the British Columbia coast he had observed a number of Japanese balloons and while the object was fairly large it was not as large as one of those.

He said he was not aware his son-in-law, Robert Smith of 360 50th Avenue, had told the newspapers about it until it appeared in the paper.

Mr. Williams supplied me with the following letter which had been received in this connection by the Winnipeg Free Press from Mr. G. W. Chapman, former member of the R.C.A.F.:

When reading your publication this evening, I noticed an article titled "Spectacular Sight".

My two brothers and I also noticed this seemingly ball of fire. We were on our way back hunting and were approximately one mile south and west of Mivers, Man. While parked waiting for another hunter to join us, we noticed what appeared to be a very small ball of fire appear in the sky to the north-west of us. The time was 5:25 a.m. This object travelled from west to east and did not appear to be of great height. The distance of flight as measured by the eye in the sky, I would judge to be about three quarters of a mile and the time 12 to 15 seconds.

During its flight, this object left a path of what could be best described as sparking fire about two feet in length about

SECRET

v-53073

SECRET

to same depth as the diameter of the object, growing in depth as the object did in size, the maximum being the size of a small football. Just before reaching the end of its flight, the object seemed to lose considerable altitude, then burst into a shower of glowing fragments. The surrounding space appeared dimly lighted by the explosion for approximately 2 to 3 seconds, then fading out. It did not appear as a flash but more as a soft glow. We assumed the object to be a meteor, but all remarked on the length of time of its flight.

We thought it strange that this object appeared to move across the sky rather than in a downward movement until just before the end of its flight at which time it seemed to drop somewhat.

Of general interest in this connection is an extract shown in a retransmission from NEIGHBORLY NEWS Broadcast, November 4, 1947. This broadcast is carried by the CBC and originates in Winnipeg:

Where there is no vision, the people perish. That may be the reason why some of our neighbors on the prairies have been seeing things lately. The Wadena News, Saskatchewan, reports that whilst out duck hunting on October 13, Alfie Frederickson saw a reddish coloured object in the eastern sky. It appeared to be travelling toward him and growing such larger. It turned a greenish colour before breaking up he declared. A trail of light followed it. Others who reported seeing the strange light were Tom Adams and Charlie Irving.

Stories of that fiery ball seen by a number of persons in Manitoba and Saskatchewan find corroboration in the Kansas district, where, according to the Kansas Times, it was seen by E. Farlow, Harry Lissett and J. Park. The strange phenomenon was witnessed early Monday morning, October 13, blazing its way through the heavens between 5:00 and 5:30 a.m. The ball is described by E. Farlow as a flaming luminous mass with an orange-tinted wake. As nearly as he could tell, the trail left by the 'comet' was made up of smoke as well as of flames. The "celestial invader" described as being about the size of a baseball is reported to have passed rather slowly from west to east.

All of the individuals interviewed by E. Williams are considered very reliable citizens whose word may be relied upon. From knowledge of Judge Henney I would say that the story he has told can be considered to be actual facts.

1. A group consisting of Mr. A. E. HIGSON, Mr. W. E. HULLY (a graduate of the CIT jet propulsion course) both of the Guided Missle Section of the Defense Research Board, Lt C-1, W. A. WILLIAMS, AFSC from Wright Field and Dr. J. E. KULEBA, after considering the report concluded that the object seen was probably a meteor.

2. Dr. FET E WILLIAMS, Russian Astronomer at the observatory in OGDEN was contacted and he stated that he had learned of the "meteor" thru the newspaper account but not in any official manner. This observatory is the one to which all officially recorded meteors are reported.

3. Preliminary considerations led to three possibilities:
- a) The object seen was a super-rocket. On the basis of geographical distances and present available knowledge of the stage of development of super-rockets, this possibility was rejected. This possibility was considered on the basis that the "explosion" seen by Judge KILBY was due to the cutting in of the "second stage."
 - b) The object was a jet propelled aircraft. A twin jet propelled aircraft approaching from the Northwest towards the Southeast and changing course between 13 degrees E and 11 degrees E might account for the stated increase in size of the "fireball" as described by the Judge KILBY group and the constant size of the "fireball" as reported by the Dr. E. A. GIBSON group near WASH. Even assuming that the explosion reported by the KILBY group was a rocket to assist to change course, the short radius of turn and the speed that an object would have to have in order to account for such a change in angular travel ruled out this possibility. Assumption was made that the object was in the stratosphere, in order to compute height and speed.
 - c) The object was a meteor. Assuming that the object was a meteor at 7 miles high, the usual meteor streak, the "fireball" at an elevation of 10 degrees (elevation estimated when the "explosion" took place) the object would be about 100 miles North of the KILBY group near OGDEN. At this distance, allowing for the curvature of the earth, the "fireball" would have to be 11 miles above a point projected on the earth to be visible by the KILBY group. A "fireball" located at this same point would have to be about 27 miles above a point projected on the earth to be seen by the GIBSON group near WASH. This would explain the statements that an "explosion" was seen by the KILBY group, while the GIBSON group merely saw the object disappear.

4. A description of meteors in the Encyclopaedia Britannica explains in way of the associated phenomena described by the observers that the "fireball" was exactly probably such an object.

END 1948

SECRET

SECRET

1. Further in above connection; it has been learned that an object similar to that under investigation was seen on Oct 13/47 by three Yorkton citizens whilst on a hunting trip north of Langenburg, Sask. Those seeing this object are M. L. Starzer, Canadian Colonization Board, Dr. W. R. Watchler, dentist and John Norton, retired farmer. All are considered to be men of good judgment and of undoubted loyalty.

Statement secured from M. L. Starzer follows:

Statement of M. L. Starzer, Yorkton, Sask.

REGIES: "On Oct. 13/47, I was with Dr. Watchler and John Norton. At between 6 and 6.30 a. m. we were about ten miles north of Langenburg, Sask. The land description would be approximately T.23 in R.31, W.-1st at about between Sec. 10 and 1. We were travelling in a closed car. I think one window was open.

I think we all noticed the object in the sky at the same time. When we first saw it, it was about the size of a football. I was in the back seat. The car was facing north. The object crossed in front of the wind shield horizontally from west to east. It didn't seem to be travelling very high. It lit up the horizon in front of us as well as the earth underneath it. It left a trail of fire or light behind it. I have seen moving pictures of rocket propelled missiles and this object gave me the same impression. It did not change size but seemed to lose speed before disintegrating.

It was a very bright yellow white-hot colour and the trail of sparks left by it was in length about three times the diameter of the object. It looked like fragments were breaking off it. I saw no smoke. The trail showed some rainbow colouring.

It was in view for only about a second. It seemed to maintain constant height and did not seem very high. I heard no sound during its flight or when it disintegrated.

When it exploded, I think there was more blue colour. As it blew up I could see small fragments but it immediately became dark and I could not tell if they fell to earth.

I think it would be about 5 degrees east of true north when it disintegrated. It only seemed to be about 100 ft. in the air but this is only a guess. END.

Statement of John E. NORTON, Yorkton, Sask.

REGIES: "On Oct 13/47 I was duck hunting with Matt Starzer and Dr. Watchler. We were 11 miles north of Langenburg, Sask. We were travelling in a closed car and I can't recall whether or not the windows were open.

We were driving north and I was in front with the driver. I don't know the hour but it would be about three quarters of an hour before daylight.

SECRET

SECRET

I noticed a brilliant light in the north west. It lit up the whole sky and the country underneath it. I shookland Dr. Watchler stopped the car. It was travelling in a very slight south easterly direction - almost straight east. It appeared to be about 500 ft. high and was travelling at a terrific speed. I have seen a 5 litre plane in flight and compared to this object, the plane would be standing still.

The object was a mass of rainbow coloured flame about 3 ft in diameter. It was like a big blow torch flame about 15 ft. long trailing out behind and white flame at the end.

The object was in our sight for about ten seconds. It then seemed to black out. There did not seem to be any explosion and I heard no sound at any time. I saw no fragments drop. It seemed to be dropping very slowly all the time it was in our view. It seemed to go out or fall just north of straight east of our position. I didn't think it was more than a mile away when it passed in front of us" SMO. Sgt: J. R. Morton

Statement of V. R. WATCHLER R. D. S., Fortson, Ga.

SMO. "On Oct. 13/47 at about a little after 6 a.m. I was about 12 miles north of Langenburg, Ga., in company with Mr. Storer and Mr. Morton. We were duck hunting. We were driving north in my car.

I was driving and I noticed what I took to be an Aircraft on fire. This object was travelling more to the horizontal than the vertical. I mean to say that it was slowly losing elevation. I figure that it was from 500 to 1000 ft high when I first saw it. It was about a mile in front of me. I thought it was travelling to the north east. Its direction would be only very little north of straight east.

I got the impression that it might be a large air liner fully alight or more correctly glowing. It was an orange colour and got dimmer and went out suddenly as it approached the earth. I don't remember it having any tail. I saw no smoke. There may have been a glow at the rear of the object but I saw no tail.

There was no sound to be heard. The car windows were up and the car heater motor was running and unless the noise was very loud we would not have heard it. It didn't seem to change size throughout its course. I got the impression that it burst into flame as it approached the earth. That is to say, I think it was in our range of vision before it became visible due to its ignition. I think that ten seconds would be the maximum time the object was visible. It seemed to me that it suddenly went out. I saw no explosion. It was close to the earth at that time. I don't think it could have dropped behind the horizon. It seemed too close. The ground under the object was not lit up at any time but the light in the sky was very brilliant. Before it went out, the object seemed to fall more sharply towards the earth." SMO

Sgt. V. R. Watchler.

SECRET

Page 1

Michael FARION, Kameck hotel proprietor was interviewed. He is considered as being very reliable.

Statement of M. FARION, Kameck, Sask.

HIGINS. "On Oct 13/47, I was duck hunting. My son Ernest was with me. We were walking west in a field (4 miles east of Kameck, Sask). I saw a brilliant light in the north west. This was between 5 and 5.30 a. m. I think this object or light was about the size of a baseball. It was a reddish-orange colour - very bright. It was round in shape. There seemed to be a white tail behind the object. It was not flame nor sparks and looked more like smoke. The tail was in length from 4 to 6 times the width of the object. It did not give a very brilliant light.

It was travelling practically straight east. It was falling at about a 45 degree angle. It was not travelling very fast. It was in sight for from 20 to 30 seconds. It was falling all the time it was in my sight.

I got the impression that it was from 5 to 10 miles north of us. There was no sound to be heard.

The light was suddenly extinguished. I think it exploded but I am not sure. The colour of the object remained the same right to the end. When it went out, it was about 60 degrees east of us and I was facing north.

There was no special noise, flame or smoke when it disappeared. It just went out and I think it exploded and scattered fragments". **END**

(Sgd) M. Farion

Statement of E. G. (Sgd) FORBANE, Kameck, Sask.

HIGINS: "On Thanksgiving day about 6. a. m. I was with Barry Lissett and Jim Park duck shooting. We were about 5 miles south and 2 miles east of Kameck. (SES-29-31 42). We were sitting on the side of a hill facing north.

We saw a ball of light in the sky to the north west. It seemed to be about 6" in diameter. It was a yellow-white colour but was not particularly brilliant. It seemed to leave a path of light about 5 or 6 ft. behind it. There was no smoke or sparks.

It seemed to be travelling from North West to South East. It was pretty well in front of us when I first saw it and continued its path pretty well at the same level until it went out. It was 40-45 degrees to the east of us when it went out. Its speed was constant throughout. I can't estimate its distance from us or from the earth.

I heard no sound from it. It was under our observation for about 5 seconds.

The light suddenly disappeared without any sound, explosion or changing of colour. I think it started the same way, i. e., suddenly glowed high in the sky.

Except for it being the longer than the average falling star and travelling horizontally I would have taken it to be a falling star or meteor." **END**

SECRET

Sgt. E. S. Stevens

SECRET

Statement of R. A. FREDERICKSON, Wagon, Rank. 19 yrs ago

BOJMS: "On Oct 13/47, about 5 a. m. or slightly earlier I was out hunting with Donald Adams, Bill Middell and Chas. Irving. We were in an open field on Sec. 62-34-13-2. I was facing west. It suddenly became bright and I saw my shadow. I turned and looked west and saw a real bright spot in the sky in the north east. It seemed to be travelling very fast and heading east. It was falling and getting larger as it fell. When I first saw it, it was a bright white-hot colour. It changed in colour but I cannot recall the shades. When last seen it was about the size of a football. There was a trail of fire of the same colour behind the object. I saw no smoke. I figure it was in our sight about ten seconds and it was going much faster than the average aeroplane. There was no sound. It disappeared low in the eastern sky. It just seemed to go out. I figure that it was at least a 30 degree angle from the earth when it went out. There did not seem to be any explosion when the light went out. I figure that the light was almost 90 degrees due east of us when it went out. I could not venture a guess as to the distance this object was from us". EADS

(Sgd) R. A. Frederickson.

Statement of Donald ADAM, Wagon, Rank. 17 yrs. ago.

BOJMS "I remember being out shooting with R. A. Frederickson and Charles Irving last Fall but don't recall the date. About 6 or 6.30 a. m., it was just beginning to get light. It suddenly became brighter and I noticed something like a big flaming falling star in the sky to the north and a little east of us.

It looked about the size of a man's fist. It was a white colour at first but turned yellow.

When I first saw it, it was to the north and about 15 degrees to the east of us. It was falling and seemed to come towards us. It gradually increased in size but did not really get much bigger except that there seemed to be a few more flames. I figure it was travelling from the North East to the South West.

I think it was in our view for about ten seconds. I thought it travelled slower than the average shooting star.

I heard no sound at any time. There was a stream of fire following this object. I saw no sparks or smoke. I have no idea how far away it was.

It flared a little and suddenly went out. At that time it would be about 75 to 80 degrees east of us and about 70 degrees elevation when it went out. It was not close to the earth." EADS

(Sgd) Donald Adam

Statement of Chas. F. B. IRVING, Wagon, Rank 17 yrs of age.

BOJMS: "I remember being out shooting with the boys sometime in October 1947. I think it was about 6 a. m. when we first saw the object.

It seemed to brighten up all of a sudden. I looked at the sky in the north east and saw a red object about the size of a softball. It left a trail of sparks about three times the width of the object in length. The colour remained constant.

SECRET

When first seen, the object would be about 30 degrees east of true north and about 40 degrees elevation. It seemed to fall to the south east and when last seen was almost due east at about 15 degrees elevation.

It seemed to travel at the same speed as an average shooting star. It was in our view about 5 seconds. I heard no sound at all. The colour remained constant throughout. It grew larger, possibly doubled in size.

It suddenly went out. It was almost as though a light had been switched off.

I am not sure of the colour of the sparks that trailed this object. I have no idea how far away this object was from us. I thought it was a meteor." EDC

(Sgd) Charles F. R. Irving

Statement of Bill RIDGELL, Madona, Sask 17 YRS AGO.

EDINS. "I was out shooting with the boys on Thanksgiving Day. At about 5 a. m. or about 1/2 hr. before daybreak I noticed what I took to be a very bright falling star in the sky to the north east. It was falling slower than the average falling star. It at first seemed to be about 2" in diameter and gradually increased in size until about doubled.

When first I saw it, it was about 65 degrees east of us and about 45 degrees elevation. It was in my view for about 6 seconds. It was falling at an angle all the time.

I was not with the other boys at the time and I lost sight of the object behind a rise in the land.

The object was about the colour of a falling star but increased in brightness with time. I saw no tail. I heard no sound. I have no idea how far distant it was." EDCS
Sgd: Bill Ridgell

While there is considerable disparity in the foregoing statements in regard to time of occurrence, physical description, etc., the preponderance of testimony indicates that this reported occurrence has actually some basis in fact. Shortly before dawn on the morning of October 13/47, a fiery object was definitely seen in the sky at Madona, Sask. proceeding apparently in a south easterly direction. At about the same time, it was observed from near Kennock, Sask. and Langenburg, Sask. still travelling in a south easterly direction. It was observed co-incidentally from a point some 14 miles north of Dauphin Man. where the informant state that it disappeared slightly west of due north and at an approximate elevation of 10 degrees.

RESTRICTED

Two flying discs trailing jet-like streams of fire were sighted from the bridge of the tanker Ticouderoga, early Wednesday, Second Officer Claude Lee Williamson radio-telephoned the United Press. The discs moved at tremendous speed out of the north horizon and curved in a westerly direction in a long low arc. Thought they were moving between 700 to 900 MPH. Didn't think they were meteors because they generally do not travel in pairs and usually fall to the horizon. Thought they were "flying discs"

Also observed by: Ordinary Seaman James S. Lynde who claimed he also saw "discs"

by
Lt Colonel Jenkins, TSPRO

(Phone 6-1338)

June 26

The following information was obtained by telephone as requested by Colonel Clingerman, 8 December 1947, regarding unidentified objects sighted in Boise, Idaho and off the coast of Oregon:

Mr. Dave Johnson of the "Statesman Newspaper" in Boise reported that a GAA official had seen an object that was giving off a pulsating bluish-green light that appeared in the southwest and disappeared in the northeast over the mountains between Boise and Mountain Home.

Similarly, the steamer Ticonderoga, 25 miles off the Oregon coast, reported seeing two objects going from horizon to horizon (direction unknown), with the same characteristics. They were estimated to be 30 feet across.

The dates are unknown. The first incident was sighted after dark.

Note: Lt Col Jenkins, TSPRO, Wright Field, called Press Section, Director of Information. He gave the information stated above to Captain Tom Brown who was requested to relay the information to Lt Col Robert Taylor III of Air Intelligence Requirements Division.

The following information was sent by telecon 8 December 1947:

Please inform this office regarding contemplated action in connection with message given to Captain Tom Brown, Press Section, Director of Information, by Lt Colonel Jenkins, TSPRO, Wright Field for relay to Colonel Robert Taylor III of Air Intelligence Requirements Division.

Mr. Clark's attention was first drawn to the object by his partner, Mr. Anderson. It appeared to be a black object which was traveling at an estimated high height of 8/10,000 ft above the ground and was moving in a straight line from northwest to southeast. It was traveling some 350 MPH. It did not change elevation nor direction. From their range of vision where they were standing upwards to the object would be at about a 25° angle. It remained within their vision from 45 seconds to a minute. No sound was audible. Mr. Clark thought the nearest thing it resembled was a "flying wing." However, both men stated positively that there was no tail visible. From where they were the object appeared about 3 feet in diameter but could offer no estimate as to its size were it on the ground. As to color both stated that the object appeared red against a blue background and black against a white cloud. Ground wind was about 15 miles in velocity and was blowing in a northeasterly direction which would tend to carry any sound away from them.

Both men are pilots. Mr. Clark was a pilot in the U. S. A. F. for a period of 5 years, flying fighter type of jet planes during most of this period. Mr. Anderson was a gunner in the AAF for 2 years and is also a pilot. Both appeared level headed and not excitable, and were very sincere in making the report.

A-24-333.5/1208-1

33722: Investigation of Flying Disc.

SUBJECT: I FORMATION: The following interview was received from a very reliable source:

On October 23, 1947, R. J. L. CLARK, age 28, Route 12, Box 831, Phoenix, and R. E. ANDERSON, age 22, Route 3, Box 342, Glendale, Ariz., furnished the following information concerning an unidentifiable object which they had observed.

These gentlemen stated they own and are developing a mine located approximately eleven miles north or northeast of Cave Creek, Arizona. The ground elevation at this point is approximately..... 12 noon on October 14, 1947, while they were eating their lunch at the mine, they observed a B-25 plane going over in a northwesterly direction. They estimated the elevation of the plane to be about 12,000 feet above the ground. They stated the B-25 was flying high enough that it was just above the clouds. They advised that the plane was easily distinguishable as a B-25 and they could hear the sound of the plane for at least a full minute or more after they first observed it.

R. Anderson stated that at about the same time he lost sight of the B-25 he observed a black object traveling the course taken by the B-25 but in the exact opposite direction which he first thought was a buzzard. However, while watching it he reached the conclusion that it was not a buzzard and called his partner's attention to the object.

Both Clark and Anderson stated that the black object they observed was traveling at an estimated height of 8/10,000 feet above the ground and was moving in a straight line traveling from the northwest towards the southeast. They estimated the object was traveling at least 360 miles per hour; that it did not change elevation nor direction. They stated they would guess that their range of vision from the point where they were standing upwards to the object would be at about a 25 degree angle; that the object remained within their vision from 45 seconds to one minute. Both men stated that there was absolutely no sound audible to them.

In endeavoring to obtain a detailed description of the object, neither man could give an accurate description. Mr. Clark stated the nearest thing he could say it resembled was a "flying wing". However, it was not a flying wing. Both men stated positively that there was no tail assembly visible. They estimated the size of the object as about 3 feet in diameter from their point of view, but would offer no estimate as to the size it might be had it been on the ground. In

CONFIDENTIAL

1-26#1

CONFIDENTIAL

Reference file #1

When in the color, both stated that when the object had a blue
cloud or a background it appeared to have a reddish cast, and when
in front of a white cloud for a background, it appeared to be black.

In view of the fact that neither man could hear any noise,
they were questioned as to the direction and velocity of the wind
at the time and they advised that the ground wind was about 15 miles
per hour, and was blowing in a northeasterly direction which would
carry the sound away from them.

Reference states that he was a pilot in the United States Army
and was a member of the 48th Fighter Group, flying fighter type of planes
and that he was a pilot in the 48th Fighter Group. Reference advised that he was
in the Army Air Force for 10 years and he is also a pilot,
and that he was very sincere in giving their report on the above
subject and that they were thankful for their information and advised that
they would be glad to be of any service.

Extract from Weekly Intelligence Summary, ATC, 10 Jul 47

UNIDENTIFIED OBJECTS REPORTS SUMMARY: The following is a digest of the only current reports that have been received through the intelligence system of this Command concerning unidentified flying objects. On 10 June 1947, rumors were drifting into Budapest from rural areas in Hungary to the effect that "silver balls were flashing across the sky i. daytime." No accurate description or confirmation of this report was obtained. Newfoundland constable named Iris Kearney, has reported to personnel of the 1300th AAF Base Unit, ATC, Newfoundland Base Command, Fort Pepperell that on 8 July at 1330 hours local time (0500Z), he observed for a few seconds four "egg-shaped phosphores colored discs" followed ten minutes later by a fifth similar object moving through the air in the vicinity of Grand Falls, Newfoundland. According to the constable, all objects were flying east, moving very fast, and parallel to the ground, at an altitude of "30,000 feet". The first four were in trail formation. The constable described the shape of these objects as being like a "barrel head or egg" with "black spots on the tail end" but "leaving no smoke trail". The Newfoundland Base Command reports also mention a certain unidentified observer of these objects, who described them as being "three-leafed" in shape. A check of weather records reveals that CAFF weather prevailed in the Grand Falls region at the time these objects were reported as being seen. Mr. John A. Behrman, Supervisor of Mechanics for Trans World Airlines and Mr. J. E. Woodruff, Senior Maintenance Supervisor, for Pan American Airways, both stationed at Harmer Field, Newfoundland, report that on 10 July at 1730 hours local time (2000Z), they observed over that installation a circular wagon wheel-shaped disc of silver color which, at its estimated altitude of "10,000 feet", appeared to be of equal size to the wing span of a C-54. Weather records indicate that the weather at Harmer during the time this incident occurred was clear with scattered cumulus clouds at an altitude of from 5000 to ten thousand feet. These two men report that the disc was first sighted when it appeared about six miles SW of Harmer; the two observers report that the disc seemed to "cut the clouds as it passed" over on a NE course leaving a "milky black trail approximately fifteen miles long" which is described as similar in appearance to the boom seen for an instant after a high powered landing light or search light has been switched off. Personnel of the 1300th AAF Base Unit, ATC, Harmer Field, Stephenville, who relayed Behrman's and Woodruff's report to this office state that photographs were taken of the disc which are now being developed, probably by Eastman at Rochester, New York, and that Woodruff will forward the prints "as soon as received". On 11 July 1947, Col. Thomas W. Perry and Major William E. Guyer of the 50th Airway and Air Command-entice Service Group, Elmendorf Field, Anchorage, observed an object resembling an aluminum colored balloon "about 3 feet in diameter" travelling at an unidentified altitude "at a great speed" in a N/E direction in the vicinity of the field. On 12 July at 0230 hours local time (0600Z), Major Edward Straben of this same unit and some unidentified officers of the Alaskan Department observed a grayish balloon "approximately 10 feet in diameter" in the vicinity of Elmendorf Field flying in a SW direction following the contour of the mountains five miles away. The object was reported as flying at an altitude of "1500 feet" at an estimated rate of "100 miles per hour", paralleling the course of a C-47 landing into a 10 mile per hour wind. This office was drawn to conclusions on the part of the above category item based on reports emanating from rural areas in Hungary Jan 38
Jan 41
Jan 41

SECRET

1-20-47

1-20-47-4-1

than to point out that these Hungarian rumors were recorded fifteen days prior to the first time flying objects, commonly called "saucers", were reported over various areas of the Zone of Interior. Nor is anything known at this office that would add to or detract from the until recently, unfamiliar descriptions briefly presented in the Newfoundland reports. The brief text gives rise to obvious doubts and questions that can be clarified only by an evaluation and further interrogation of the sources from whence these reports were derived. However, an analysis of the two radios that reported the Elzendorf sightings have led the Intelligence Officers of this Headquarters to point out the following considerations. It is very difficult to judge the size, speed and altitude of an unknown object at the reported distance of five miles. The account of the object sighted would tend to describe a weather pilot. In this regard it is noted that it is standard operating procedure for weather stat one to release pibal every six hours daily - at 0600Z, 1200Z, 1800Z and 2400Z. It is pointed out that the 12 July sighting approximates the time at which one of these daily pibals is released. It is also pointed out that in the Anchorage area, it is believed to be not uncommon for surface winds and winds at an altitude of 1000 feet or more to blow in opposite directions.

Excerpt from Semi-Monthly Intelligence Summary, HQ ACSI

10 July 1947

HUNGARY

MILITARY:

I. More "Strange Object" Reports:

Reports drifting in from rural areas of Hungary mention "silver balls flashing across the sky in daytime". No accurate description or confirmation of this phenomena has yet been obtained, but it does recall the flashing objects over the Scandinavian countries thru late 1946 and early 1947, and the current riddle of similar metallic objects reported seen over most of the United States since the 1st of July.

Four "flying saucers" were seen by Constable Kearney's wife just before his arrival home at approx 11:30, on 9th of July. A Mr. John Jackson, a resident of St. John's and a friend of the family also witnessed them. They were flying in an easterly direction, and appeared to be four round figures that had passed overhead at terrific speed, flying side by side.

On looking skyward, Constable Kearney, himself, perceived a huge jolly-fish flash across the sky. Could not determine the height and speed owing to the brief period it was visible. Could not determine color but there seemed to be a phosphorescent glow about it. It was found in shape and about the size of a barrel head, and appeared to be flying in a rocking motion.

Note: The last object was seen by Constable Kearney, his wife and Mr. Jackson.

Extract from Weekly Intelligence Summary, AFM, 16 Jul 47

"FLYING OBJECTS REPORTS SUMMARY": The following is a digest of the only current reports that have been received through the Intelligence system of this Command concerning unidentified flying objects. On 10 June 1947, rumors were drifting into Subsector from rural areas in Hungary to the effect that "silver balls were flashing across the sky in daytime." No accurate description or confirmation of this report was obtained. A Newfoundland coastwatcher named Iris Murray, has reported to personnel of the 1300th AAF Base Unit, AFU, Newfoundland Base Command, Fort Pepperell that on 9 July at 1330 hours local time (MSMT), he observed for a few seconds four "egg-shaped phosphorus colored discs" followed ten minutes later by a fifth similar object moving through the air in the vicinity of Grand Falls, Newfoundland. According to the coastwatcher, all objects were flying east, moving very fast, and parallel to the ground, at an altitude of "20,000 feet". The first four were in trail formation. The coastwatcher described the shape of these objects as being like a "barrel head or egg" with "black spots on the tail end" but "leaving no smoke trail". The Newfoundland Base Command reports also mention a second unidentified observer of these objects, who described them as being "three-leafed" in shape. A check of weather records reveals that heavy weather prevailed in the Grand Falls region at the time these objects were reported as being seen. Mr. John H. Mahruza, Supervisor of Mechanics for Trans World Airlines and Mr. J. E. Woodruff, Senior Maintenance Supervisor, for Pan American Airways, both stationed at Goose Field, Newfoundland, report that on 10 July at 1730 hours local time (MSMT), they observed over that installation a circular opaque wheel-shaped disc of silver color which, at its estimated altitude of "10,000 feet", appeared to be of equal size to the wing span of a C-47. Weather records indicate that at Goose during the time this incident occurred the clear with scattered cumulus clouds at an altitude of from eight to ten thousand feet. These two men report that the disc was first sighted when it appeared about six miles NW of Goose; the two observers report that the disc seemed to "cut the clouds as it passed" over on a NE course leaving a "black black trail approximately fifteen miles long" which is described as similar in appearance to the beam seen for an instant after a high powered landing light or search light has been switched off. Personnel of the 1300th AAF Base Unit, AFU, Goose Field, Stephenville, who relayed Mahruza's and Woodruff's report to this office state that instantaneous pictures were taken of the disc which are now being developed, probably by Section at Rochester, New York, and that Woodruff will forward the prints "as soon as received". On 11 July 1947, Maj Bruce H. Perry and Major William S. Cooper of the 50th Airgroup and Air Communications Service Group, Ellsworth Field, Anchorage, observed an object resembling an aluminum colored balloon "about 8 feet in diameter" travelling at an unidentified altitude "at a great speed" in a NE direction in the vicinity of the field. On 12 July at 0930 hours local time (MSMT), Major Edward Graham of this base unit and some unidentified officers of the Alaskan Department observed a ground balloon "approximately 10 feet in diameter" in the vicinity of Ellsworth Field flying in a SE direction following the contour of the mountains five miles away. The object was reported as flying at an altitude of "1000 feet" at an estimated rate of "100 miles per hour", paralleling the course of a C-47 having had a 20 mile per hour tail. This office can draw no conclusions on the part of the above agency item based on reports circulating from rural areas in Hungary concerning

SECRET

7-20175-0-3

SECRET

then to point out that these Hungarian rumors were recorded fifteen days prior to the first time flying objects, commonly called "saucers", were reported over various areas of the Zone of Interior. Nor is anything known at this office that would add to or detract from the until recently, unfamiliar descriptions briefly presented in the Newfoundland reports. The brief text gives rise to obvious doubts and questions that can be clarified only by an evaluation and further interrogation of the sources from whence these reports were derived. However, an analysis of the two radars that reported the Eindhoven sightings have led the Intelligence Officers of this Headquarters to point out the following considerations. It is very difficult to judge the size, speed and altitude of an unknown object at the reported distance of five miles. The account of the object sighted would tend to describe a weather pilot. In this regard it is noted that it is standard operating procedure for weather stations to release pibals every six hours daily - at 0600Z, 1200Z, 1800Z and 2400Z. It is pointed out that the 12 July sighting approximates the time at which one of these daily pibals is released. It is also pointed out that in the Amberage area, it is believed to be not uncommon for surface winds and winds at an altitude of 1000 feet or more to blow in opposite directions.

NEWFOUNDLAND CONSTABULARY

STATION Grand Falls,
DATE July 19th, 1947.

SUBJECT Re:- Strange objects seen flying over Grand Falls on night of July 18th at approx. 11.15 and 11.45.

Sir:
I respectfully report for your information that on Wednesday night, the 18th. inst. I arrived home from duty at approx. 11.30.

Upon arrival at home I joined my wife, my mother-in-law, and Mr. John Jackson a resident of St. John's and friend of the family, who were sitting on the front steps of the house. I was asked by my wife if I had seen the "flying saucers" I thought she was joking and replied that I had seen nothing flying. Jackson and my mother-in-law then told me that they had really seen four objects flying in an easterly direction just before I arrived. I asked them to describe what they had seen. Jackson said that four round shaped figures had passed overhead at a terrific speed and were flying side by side.

On looking skywards again my wife, Jackson, and myself saw a object which I would describe as being a large jelly fish flash across the the sky. It would be difficult to determine its height and speed owing to the brief period it was visible. It's colour also would be hard to say, but there seemed to be a phosphorescent glow about it, it was round in shape and about the size of a basketball, it appeared to be flying in a wiggling motion.

This sir, is about all I can say about the matter, as continued to scan the sky for about a half hour but no sign of them were seen again.

14 July 1947

~~UNIDENTIFIABLE OBJECTS~~

On 8 July 1947, this Agent obtained pictures of unidentifiable objects, (Exhibits 1 and 2) from the managing editor of the Arizona Republic newspaper. The pictures were taken by Mr. William Rhoads, 4333 N. 14th St., Phoenix, Arizona, at sunset, on 7 July 1947. The subject objects flew at unaccountable speeds, making three circles in the vicinity of Mr. Rhoads' home. The pictures were taken with a box camera, size 620. The photograph (Exhibit 1) was taken as the object passed in front of Mr. Rhoads, and Exhibit 2 as the object turned towards Mr. Rhoads. The height of the object was estimated at 1000 feet.

AGENT'S NOTES: See Exhibits 1 and 2, photographs of unidentifiable objects, enlarged approximately 20 times. No further reports have been received by this office of objects seen by military personnel.

RHODES, William Albert
Investigation of "Flying
Discs"
1 September 1947

MEMORANDUM FOR THE OFFICER IN CHARGE

On 29 August 1947 in the presence of S/A Brewer (FBI Office, Phoenix, Arizona) Mr. William Albert Rhodes was interviewed at his residence at 6333 North 14th Street, Phoenix, Arizona, in connection with investigation of the "Flying Discs". Mr. Rhodes stated that on the afternoon of 7 July 1947 immediately following a local thunderstorm, at about 1:00 P.M., he was at home from his home toward his workshop (located approximately 100ft. directly back of the house) when he saw a plane in the east which seemed to him to be like the up rear of a jet airplane, possibly a P-51. He observed and looked to the east but saw nothing for several minutes. A few seconds later, however, an object appeared from the north-east. The object seemed elliptical in shape with a diameter of 70-80ft. At first sight, it appeared to be at about 8000ft., traveling about 600 to 800MPH. Its color was grey, which made it blend into the clouds and difficult to see at a distance. As soon as it appeared in the north-east, the object spiraled downward reaching a level of about 2000ft. at the end of its second spiral, and then started upward into the sky at an angle of 45 degrees, disappearing into the cumulus clouds which appeared to be at about 8000ft. at that time. The object was visible from the time of its appearance in the north-east to its disappearance into the west about 40 seconds. In spite of the fact that a noise was heard prior to the appearance of the object, while in view, it produced no audible sound. The tail of the object had two points on the outside area, visible as it made its two left-to-right circles, which had an approximate radius of 1/4 to 1/2 miles. The object had what looked like a conical canopy in the center extending toward the back and under the object. The canopy did not protrude from the surface but was clearly visible with the naked eye. The object was not revolving on its own axis. It had no discernible landing gear nor propellers. It appeared to have an excellent air foil (tapered from wing tip to wing tip). Mr. Rhodes stated that it is possible that he did not hear the object while it was in sight because of the rustling of trees leaves set up by a wind velocity of 10-15MPH. He also stated that the first sight of the object caused him to think it might be the Navy's new Flagjack plane illustrated on the cover of the May 1947 issue of "Mechanix Illustrated". He later altered his opinion because the object appeared to have no landing gear and no propellers, and the Navy ship is illustrated as having both. Rhodes stated that immediately after the object had started into its first spiral he ran to get his camera, which he kept loaded and set at all times for the purpose of taking candid shots of his family and which he kept right inside the door of the workshop. By the time he returned with it, the object had completed one circle and had started on its second. At the same time he called to his wife who was in the house, but by the time she arrived in the back yard the object had disappeared. Rhodes stated that he managed to take one photograph of the object while it was at its lowest point (about 2000ft.) (Exhibit I) and another just as it turned out of its second spiral and started upward. (Exhibit II). The second

H. M. McCoy
Colonel, USAF
Chief of Intelligence

Dear Sir:

Since I talked with Lt Col Bean and Mr. Loedding I have been trying to run down additional photographs of the unidentified object.

Mr. Lewis Larnore of this city has some in his possession and I believe you can obtain copies of them by writing him. Whether or not they are real I do not know. Some of them look faked while others do not. The general shape of the ship as it was going away from me looked like this: there seemed to be a bubble on top and on bottom

while the trailing edge looked open and black like a vent. I judge by past experience that the ship was about 1500-2000 feet altitude when it started to climb and was out of sight in the base of the cumulus within 5 to 7 seconds. Allowing for a little time for acceleration this would put the object well past the speed of sound by the time it reached the cumulus (10-12000 ft). This also might account for the fact that after the ship turned its nose up the sound (which was like a P 80) faded out altogether. Judging by my past experience with aircraft recognition which I taught during the war, the ship couldn't have been under 20 or over 30 feet across.

There were no rudders visible to the unaided eye. I couldn't possibly make a trip to the base because of current debts. I couldn't stand the loss of being swa, from my work. After Sept 15, I could accept this invitation.

Having to be of further service.

Sincerely,

/s/ W. A. Rhodes

1

1. Reference is made to the film frame by Mr. [redacted] (Subject #4) which was forwarded for examination. The following data were derived from a study of the exposure:

a. It is concluded that the image is of two photographic nature, and is not due to imperfections in the emulsion, or lack of development in the section in question. The image exhibits a "tail" indicating the proper type of distortion due to the type of shutter used, the speed of the object and the f/stop of the shutter. This tailing off conforms to the general information given in the report.

b. The report states the object was seen at approximately 2000 feet at the time of exposure. The observer also reports being able to see clearly a canopy or enclosure. The visual acuity of an average person would allow for this perception, but certainly not such distance as the subject had low visual contrast, being grey against a grey sky. If we can establish the distance from camera to subject, we will have quantity #1. The report states that a 350 camera was used, indicating several possibilities, since the 350 is nomenclature for the opening and width of the film so may have negatives $2\frac{1}{2} \times 3\frac{1}{2}"$, $2\frac{1}{2} \times 3\frac{1}{2}"$ and $2\frac{1}{2} \times 4\frac{1}{2}"$. The sample exhibited had been cut out it was not possible to establish the exact frame size. For $2\frac{1}{2} \times 3\frac{1}{2}"$ also was ruled out, leaving $2\frac{1}{2} \times 3\frac{1}{2}"$ and $2\frac{1}{2} \times 4\frac{1}{2}"$. If it were the former, then the focal length of the lens would be F' , and using 2000 feet as the approximate subject distance and the image size at $7/60"$, we have an approximate size of 44 feet as the diagonal of the object. Now if we choose the latter value of F' for focal length, we have an approximate value of $5F'$ for the diagonal. Points of measurement are indicated from x to x on Exhibit "A".

c. It should be pointed out, the need for more detail in reports is brought out in this report. A summary would suggest the following points:

- (1) Size of camera, type of film used, developer as well as [redacted] and lens aperture, exposure time, focal length of lens and F value used.
- (2) If possible, the camera should be aimed to include some ground and horizon so this will help fix the distance from camera to subject by imaging reference points. These reference points can be referred to for evaluation.

IDENTIFICATION OF SUBJECT MATTER (as per sample)

TO **MCIA** FROM **MCIT** DATE **19 Feb 48** CONTROL NO. **1**

1. Reference is made to the films taken by Mr. Woodcock (Incident #40) which were forwarded for examination. The following data were derived from a study of the specimens:

a. It is concluded that the image is of true photographic nature, and is not due to imperfections in the emulsion, or lack of development in the section in question. The image exhibits a "tail" indicating the proper type of distortion due to the type of shutter used, the speed of the object and the fixed speed of the shutter. This trailing off conforms to the general information given in the report.

b. The report states the object was seen at approximately 2000 feet at the time of exposure. The observer also reports being able to see clearly a canopy or enclosure. The visual acuity of an average person would allow for this perception, but certainly not much further as the subject had low visual contrast, being gray against a gray sky. If we can establish the distance from camera to subject, we will have quantity #1. The report states that a G20 camera was used, indicating several possibilities, since the G20 is manufactured for the spacing and width of the film we may have negatives $2\frac{1}{2} \times 3\frac{1}{2}$ ", $3\frac{1}{2} \times 3\frac{1}{2}$ " and $2\frac{1}{2} \times 4\frac{1}{2}$ ". The sample submitted had been cut and it was not possible to establish the exact frame size. The $2\frac{1}{2} \times 3\frac{1}{2}$ " size was ruled out, leaving $3\frac{1}{2} \times 3\frac{1}{2}$ " and $2\frac{1}{2} \times 4\frac{1}{2}$ ". If it were the former, then the focal length of the lens would be $4\frac{1}{2}$ ", and using 2000 feet as the approximate subject distance and the image size at $7/64$ ", we have an approximate size of 44 feet as the diagonal of the object. Now if we choose the latter value of $5\frac{1}{2}$ " for focal length, we have an approximate value of 36' for the diagonal. Points of measurement are indicated from x to x on Exhibit "A".

c. It should be pointed out, the need for more detail in reports is brought out in this report. A summary would suggest the following points:

- (1) Make of camera, type of film used, developer as well as time and temperature, exposure time, focal length of lens and F value used.
- (2) If possible, the camera should be aimed to include some ground and horizon as this will help fix the distance from camera to subject by imaging reference points. These reference points can be referred to for evaluation.

Object appeared elliptical in shape and had a diameter of 20-30 feet. When first seen it was at about 5,000 ft and traveling from 400 to 600 MPH. Its gray color rendered it difficult to perceive at a distance as it blended with the clouds. Although a jet-like noise was heard prior to the object's appearance no audible sound was produced while it remained in view. The tail of the object had two points on the outside area, visible as it made its two left-to-right circles which had an approximate radius of 1/4 to 1/2 miles. The object had what appeared to be a cockpit canopy in the center which extended toward the back and beneath the object. The "cockpit" did not protrude from the surface but was clearly visible with the naked eye. The object did not revolve on its own axis. It had no discernible landing gears nor propellers. It appeared to have an excellent air foil (tapered from wing tip to wing tip). Mr. Rhodes thought that the 10-15 MPH wind velocity which caused a rustling of tree leaves might have made it impossible for him to hear any noise connected with the object. He also stated that he thought the object was the Navy's new "Flapjack Plans" but altered his opinion since the object seemed to have no landing gears and no propellers. (The Navy ship is illustrated as having both). Rhodes managed to take one photograph of the object at its lowest point (about 2000 ft) and another as it turned out of its second spiral and started upward.

Dear Mr. Rector:

Reference is made to your interview of 25th May 1948 with
Lt Col Ross and Mr. A. G. Hedding, representative of the
Federal Intelligence Division, Tulsa Headquarters. Informa-
tion is requested concerning the status of the additional report
you promised to submit relative to pictures of your sighting
made 7 July 1947 of an unidentified aerial object. Information
is also desired as to whether or not you were able to secure
copies of photographs taken on or about the same date as your
original sighting by another civilian in Florida.

In the event it is possible to furnish Government trans-
criptions, would you consider making the trip to Wright-Patterson
Air Base here for another interview? Information as to how
we can be of any additional assistance. Please refer
your reply to the attention of Wills, as indicated in the
upper left-hand corner of this letter. The procedure facilitates
prompt handling of your communication.

"FLYING DISCS" REPORTS SUMMARY: The following is a digest of the only current reports that have been received through the Intelligence system of this Command concerning unidentified flying objects. On 10 June 1947, rumors were drifting into England from rural areas in Hungary to the effect that "silver balls were flashing across the sky in daytime." In accurate description or confirmation of this report was obtained. A Newfoundland constable named Eric Murray, was reported to personnel of the 1200th AIF Base Unit, AFB, Newfoundland Base Command, Port Moresby that on 9 July at 2200 hours local time (0200Z), he observed for a few seconds four "egg-shaped phosphores colored discs" followed ten minutes later by a fifth similar object moving through the air in the vicinity of Great Falls, Newfoundland. According to the constable, all objects were flying east, moving very fast, and parallel to the ground, at an altitude of "20,000 feet". The first four were in trail formation. The constable described the shape of these objects as being like a "barrel head or egg" with "black spots on the tail end" but "leaving no smoke trail". The Newfoundland Base Command reports also mention a second unidentified observer of these objects, who described them as being "vase-shaped" in shape. A check of weather records reveals that BSV weather prevailed in the Great Falls region at the time these objects were reported as being seen. Mr. John M. Johnson, Supervisor of Mechanics for Trans World Airlines and Mr. J. S. Woodruff, Senior Maintenance Supervisor, for Pan American Airways, both stationed at Barnes Field, Newfoundland, report that on 10 July at 1700 hours local time (2000Z), they observed over that installation a circular saucer-shaped disc of silver color which, at its estimated altitude of "10,000 feet", appeared to be of equal size to the wing span of a C-54. Another observer, Lieutenant Colonel [unclear] of Barnes during the time this incident occurred the clear with scattered cumulus clouds at an altitude of from eight to ten thousand feet. These two men report that the disc was first sighted when it appeared about six miles SW of Barnes; the two observers report that the disc seemed to "cut the clouds as it passed" over on a SW course leaving a "black black trail approximately 25 feet wide long" which is described as similar in appearance to the beam seen for an instant after a high powered landing light or search light has been switched off. Personnel of the 1200th AIF Base Unit, AFB, Barnes Field, Newfoundland, who relayed Johnson's and Woodruff's report to this office state that Johnson's pictures were taken of the disc which are now being developed, probably by Section of Mechanics, TWA, Barnes, and that Woodruff will forward the prints "as soon as received". On 11 July 1947, Col. James H. Foway and Major William H. Saper of the 12th Airway and Air Command-William Service Group, Standerd Field, Anchorage, observed an object resembling an aluminum colored balloon "about 3 feet in diameter" traveling at an estimated altitude "at a great speed" in a SW direction in the vicinity of the field. On 12 July at 0200 hours local time (0600Z), Major Edward [unclear] of this command unit and some unidentified officers of the Liaison Department observed a glowing balloon "approximately 10 feet in diameter" in the vicinity of Standerd Field flying in a SW direction following the "course" of the weathering flow lines over the object was reported as flying at an altitude of "2000 feet" at an estimated rate of "100 miles per hour", paralleling the course of a C-47 landing over a 10 mile per hour wind. This office has been so constituted as to act as the direct agency for handling all reports concerning such cases in which it is

them to point out that these Hungarian rumors were received fifteen days prior to the first time flying objects, commonly called "saucers", were reported over various areas of the East of Interior. Nor is anything known at this office that would add to or detract from the until recently, unfamiliar descriptions briefly presented in the Newfoundland reports. The brief text gives rise to obvious doubts and questions that can be clarified only by an evaluation and further investigation of the sources from whence these reports were derived. However, an analysis of the two radars that reported the Elmendorf sightings have led the Intelligence Officers of this Headquarters to point out the following considerations. It is very difficult to judge the size, speed and altitude of an unknown object at the reported distance of five miles. The account of the object sighted would tend to describe a weather pilot. In this regard it is noted that it is standard operating procedure for weather stations to release pilots every six hours daily - at 0100Z, 1300Z, 1900Z and 2300Z. It is pointed out that the 12 July sighting approximates the time at which one of these daily pilots is released. It is also pointed out that in the Anchorage area, it is believed to be not uncommon for surface winds and winds at an altitude of 1000 feet or more to blow in opposite directions.

Major Edward Graham and some unidentified officers of the Alaskan Command observed a grayish balloon approximately 10 feet in diameter in the vicinity of Hinesdorf Fla. flying in a NW direction following the contour of the mountains five miles away. The object was reported as flying at an altitude of 1500 feet at an estimated rate of 100 MPH; paralleling the course of a C-42 landing into a 20-mile per hour wind.

Extract from Weekly Intelligence Summary, AFB, 25 Jul 47

"FLYING DISC OR UFO REPORTS": The following is a digest of the only current reports that have been received through the intelligence system of this command concerning unidentified flying objects. On 10 June 1947, rumors were drifting into Newport from rural areas in Hungary to the effect that "silver balls were flashing across the sky in daytime." No accurate description or confirmation of this report was obtained. A Newfoundland constable named Eric Harvey, has reported to personnel of the 1200th AAF Base Unit, APO, Newfoundland Base Command, Fort Soperall that on 9 July at 2000 hours local time (GMT), he observed for a few seconds four "egg-shaped phosphorus colored discs" followed ten minutes later by a fifth similar object moving through the air in the vicinity of Grand Falls, Newfoundland. According to the constable, all objects were flying east, moving very fast, and parallel to the ground, at an altitude of "50,000 feet". The first four were in trail formation. The constable described the shape of these objects as being like a "barrel head or egg" with "black spots on the tail end" but "leaving no smoke trail". The Newfoundland Base Command reports also mention a second unidentified observer of these objects, who described them as being "three-leafed" in shape. A check of weather records reveals that APO weather prevailed in the Grand Falls region at the time these objects were reported as being seen. Mr. John H. Mahoney, Supervisor of Mechanics for Base World Air Line and Mr. J. B. Goddard, Senior Maintenance Supervisor, for Base American Airways, both stationed at Sussex Field, Newfoundland, report that on 10 July at 1700 hours local time (GMT), they observed over that installation a circular wavy disc-shaped disc of silver color which, at its estimated altitude of "10,000 feet", appeared to be of equal size to the wing span of a C-47. Weather conditions indicate that the weather at Sussex during the time this incident occurred was clear with scattered cumulus clouds at an altitude of 2000 feet to ten thousand feet. These two men report that the disc was first sighted when it appeared about six miles SW of Sussex, the two observers report that the disc seemed to "cut the clouds as it passed" over on a NE course leaving a "black black trail approximately fifteen miles long" which is described as similar in appearance to the beam seen for an instant after a high powered landing light or search light has been switched off. Personnel of the 1200th AAF Base Unit, APO, Sussex Field, St. John's, the subject Mahoney's and Goddard's report to this office state that instantaneous pictures were taken of the disc which are now being developed, probably by Weston at Antigonish, New York, and that Goddard will forward the prints "as soon as received". On 11 July 1947, Capt Bruce H. Perry and Major William S. Brown of the 10th Air Base and Air Communications Service Group, Sigbee Field, Antigonish, observed an object resembling an aluminum colored ball "about 3 feet in diameter" travelling at an unidentified altitude "at a great speed" in a NE direction in the vicinity of the field. On 12 July at 0900 hours local time (GMT), Major Edward Brown of this unit and some unidentified officers of the Liaison Department observed a "purple ball" "approximately 10 feet in diameter" in the vicinity of Sigbee Field flying in a NE direction following the outline of the coastline five miles away. The object was reported as flying at an altitude of "1000 feet" at its estimated rate of "300 miles per hour", paralleling the course of a C-47 heading into a SE wind per hour wind. This object was first observed by the 10th Air Base and Air Communications Service Group at Sigbee Field on 12 July 1947.

SECRET

SECRET

them to point out that these Hungarian rumors were recorded fifteen days prior to the first time flying objects, commonly called "saucers", were reported over various areas of the zone of Interior. Nor is anything known at this office that would add to or detract from the until recently, unfamiliar descriptions briefly presented in the Newfoundland reports. The brief text gives rise to obvious doubts and questions that can be clarified only by an evaluation and further interrogation of the sources from whence these reports were derived. However, an analysis of the two radars that reported the Klondike sightings have led the Intelligence Officers of this Headquarters to point out the following considerations. It is very difficult to judge the size, speed and altitude of an unknown object at the reported distance of five miles. The account of the object sighted would tend to describe a weather pilot. In this regard it is noted that it is standard operating procedure for weather stations to release pibals every six hours daily - at 0600Z, 1200Z, 1800Z and 2400Z. It is pointed out that the 18 July sighting approximates the time at which one of these daily pibals is released. It is also pointed out that in the Anchorage area, it is believed to be not uncommon for surface winds and winds at an altitude of 1000 feet or more to blow in opposite directions.

SECRET

About 7 miles out of Clarion, Iowa, observer saw an object shoot across the sky in front of the bus he was driving. It was followed by four more. The height appeared about 1200 feet. Observer stepped out of the bus which was facing east and noticed some dots in the sky approaching from the opposite direction. They were flying about the same altitude at a speed of about 300 MPH. These 13 objects flew in a single file. Roughly, the objects were between a circle and an oval in shape. In appearance they looked like an inverted saucer flying thru the air. The thickest part seemed to be about 12 feet. The diameter could have been anywhere from 175 to 250 feet. They were dirty white in color. The second group disappeared into the NW sky in a matter of a few minutes. They made a noise as they passed overhead similar to an electric motor or dynamo.

my friends in prison, without wanting to look at a dog.

E. A. Gault
Central Radio & Signal Station
Box 1245,
Central, Calif.

Oh, yes, what do you know about you on the other side of that world wall? As for the locality, we've heard a great many sensational stories of what the army is finding in Central America. You know, reports are no longer allowed to leak this way, according to a newspaper story recently published, which seemed something of a mystery.

BOSS FLYING SAUCER

I bought the Chevrolet from Sacramento, Oregon about a month ago, but for some reason or other, I haven't had the time and it wasn't this morning, I happened in the "Clearway" press article about the flying discs, asking for information about them. Until the 15th of this month, I was driving a '38 Buick in the Dan Matton, Springfield and Southern Station, 317 1/2nd Street, Dan Matton, Iowa. I was discharged on this date due to the fact that the work manager and myself [didn't get along together]

But to get along with my boss. On June 20, 1947 I left Dan Matton, Iowa at 1:30 P.M. on my regular schedule headed for Mason City, Iowa, a distance of 144 miles. I had been reading the "Flying Saucers" tales in the newspapers, but I had been scoffing at them. When I was about 7 miles out of Clinton, Iowa there was an object that crossed the sky to west of me at a roughly estimated height of 1,000 feet. This object was rather large and was followed by four more. And as I sat one of these fellows that he is had out what it is going on when anything happens, I stopped the car and got out. When I stepped out of the car, which was facing east, I noticed something in the sky coming from the opposite direction from which the first five went, which was roughly south by southeast. In the group there was 1 object flying in a single file. There were about the height of the first and as near as I know at a speed of about 100 m.p.h. There were, roughly between a circle and an oval, in shape. In appearance they looked like an inverted saucer flying through the air. At the instant that they were, I would say about 12 feet high. And as for the distance they could have been anywhere from 175 to 275 feet. And they were a "thing" white in color. They disappeared into the N.W. sky in a matter of a couple of minutes. They made a noise when they were over head like an electric motor or dynamo. I ate the disc at about 4:41 P.M.

Later, I'm not one of those fellows who can be impressed by what the public sees, and I am not subject to attacks of nerves, nor am I imaginative.

that was my way with me. When I am anything it is really there. And I can see them. As for what they were or where they came from, I don't completely know. But I will say "they are not native to the planet earth." Or such is my belief.

I have been interested in Saturn-Rocket and have concerning the stars ever since I could read. The first I ever read was "Star Hunters" of the month club. That a fellow who was a mechanical gave me a bundle of space fiction with the covers torn off. I guess this was about 1935. I was about nine years old then. I am 21 now. So you see no how long I've been reading it. I've always been interested in interplanetary travel. Right now day I can do some myself.

Richard Hoover and I are eye to eye on these things in his opinion. I know of some things that have happened, similar to what happened to him. If you would be interested get in touch with me, and I'll be glad to write them to you—confidential, upon whatever I think of one of them, they is a steady address outside in my mind. I've never told anyone about them since they I think I was about, reading that. In fact, it seems as if it will help matters any. For God's sake, let me tell them. Every time I think of this one disc, it seems if there is something other kind of my brain and begins to appear. And well I don't think about anything else, I am in space. If you want my my address, please let me know.

How about a list three interplanetary stories in Amazing Stories. Keep up the great work. Hoping to hear from you soon, I am.

Walt Dyer
Box 11
Clinton, Mo.

If you could like you to tell us anything you are so—good or bad's length of it. We have paper. Thanks for your report as always. You presented the case probably and correctly. We will be having more about the matter shortly.

RADIATION IN OUR ATMOSPHERE

I have visited many times to discuss Ray Phillips' novel "On That Va Day" because I wished to make some observations upon the matter of radiation on cosmic radiation in regard to interplanetary and also extraterrestrial conditions.

As I understand it the various taking the place of alpha particles in our atmosphere would cause the ionosphere layer to lose much of its ionization against the conventional cosmic rays. Likewise the gamma radiation would also cause changes in the ionosphere patterns of the zone of being ionosphere. As you have long known to X Rays will cause ionization. X Rays are very low frequency compared to cosmic and gamma radiation, therefore it is evident that there there is

FLYING SAUCER WITNESS

Sir:

I have just finished reading the October issue of *ASTORIC STORIES*, in which you ask for "flying saucer" information.

Here is what I know: On June 28, 1947, at 3:45 P. M. my brother saw the flying saucers—about seven to ten of them—which flew directly over our house. He said they went like "blue blazes"—didn't make any noise and were heading approximately north (Rockfield, where my brother's farm is, is just 16 miles northwest of Millwaukee). But what is really strange is that some afternoon the discs were seen over Illinois (they must have been the same ones). This information was given on June 29th—Sunday—over WGN—"The Latest News" at 8 to 8:15 A. M. with Charles Sebastian. He reported that the discs had been sighted over Illinois the preceding afternoon.

Perhaps the information is valuable to you. At any rate please keep this confidential! Our neighbors think we're slightly "queer" to have seen the discs. (I didn't see them but I believe my brother.)

I have been following the Shaver stories and I hope you have many more of them.

Marion Descher
 McOmney Falls, Wis.

The flying saucers are real, and you can be sure of that! Let your neighbors think what they will, in a few months you will be able to prove how good your brother's eyesight is! Thanks for your report, and we hope many more readers and them in. Rough drawings would also be helpful.—Ed.

U-33234-8-1

SECRET

De Rose saw a "brilliant, small round-shaped, silvery white object" which moved in a northwesterly direction as fast or possibly faster than a speeding plane at an estimated altitude of 1,000 ft or more. It stayed in view for eight or ten seconds until obscured by a cloud bank. The object reflected sunlight very strongly as though it were of polished aluminum or silver. Other than to say it "appeared round and irregular" De Rose was unable to determine its shape. It did not resemble any weather balloons he had ever seen. He stated "I can assure you it was very real."

SECRET

Incident 46
U-3234-B-1

Extract from Weekly Intelligence Summary, ATC, 30 Jul 47

FLYING UNIDENTIFIED REPORTS: Two more flying object incidents have been reported, coming from opposite sides of the United States - one from Greenfield, Massachusetts and one from Fairfield-Suisun Army Air Base, California. The 1-2 of the Atlantic Division, ATC, relayed the report of Edward L. de Rose concerning his observation of an unidentified flying object while working outdoors at 11:40 a.m., 22 June 1947, in Greenfield, Massachusetts. De Rose said there appeared across his line of vision a "brilliant, small, round-shaped, silvery white object" moving in a northwesterly direction as fast or possibly faster than a speeding plane at an estimated altitude of 1,000 feet or more. The object stayed in view for eight or ten seconds until obscured by a cloud bank. It reflected the sunlight very strongly as though it were of polished aluminum or silver. Other than to say that it appeared to be round and irregular de Rose was unable to determine its shape. He adds that it did not resemble any weather balloons he had ever seen and that "I can assure you it was very real". The California report was made by Air Corps Captain James A. Burniston, who says that on 6 July 1947 while at Fairfield-Suisun Army Air Base he observed an object travelling in a southeasterly direction at an estimated height of 10,000 feet or more and at a speed in excess of that of any aircraft he had ever seen. The object was in his view for approximately sixty seconds during which time it revealed over three-quarters of the visible sky. Burniston could distinguish a definite color or shape. It appeared to roll from side to side three times during his observation and one side reflected the sun strongly from its surface while the other gave no reflection. He estimates the size to be about that of a baseball and states that between the time the top of the object was visible and the time it rolled over so that the bottom became very difficult to see and almost disappeared. Because of the noise of an aircraft engine in the vicinity he was unable to attribute any sound to the object. Both of these reports appear to be made by competent observers having no motive other than to give accurate information - de Rose requesting no publicity result. It is noted that while the object de Rose observed is described as small and flying at an altitude of approximately 1,000 feet, while Burniston's object was larger and seen at some 10,000 feet, there are strong similarities in both descriptions. Outstanding of the points which tend to correspond are the facts that both objects are reported as moving somewhat faster than a fast aircraft and both objects reflected the sun strongly.

CONFIDENTIAL

A sky phenomenon which had the appearance of a flaming red cone trailing a gaseous green mist appeared in the southwest skies of Wilmington, Ohio, between 7:20 and 7:55 P. M., Jan 7, 48.

The sky phenomenon hung suspended in the air at intervals and then gained and lost altitude at [redacted] appeared to be terrific bursts of speed. The intense brightness of the phenomenon pierced thru a heavy layer of clouds passing intermittently over the area and obscured other celestial phenomena.

NOTE: See account of an unusual comet line in the northern hemisphere approx Jan 1, attached.

See incidents 46a, 46b, 46c, 46d & 33, 33a, 33b, 33c, 33d, 33e 33f and 30 and 32.

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 7 Jan 46 Incident # 146
2. Time 1925 o'clock
3. Location Clinton County Air Field
4. Name of observer LeRoy Bagler
5. Occupation of observer T/Sgt
6. Address of observer Clinton County AF, Wilmington, Ohio
7. Place of observation Clinton County AF Base
8. Number of objects 1
9. Distance of object from observer N/S
10. Time in sight ~~Approximately 30-40 minutes~~ Thirty-five minutes
11. Altitude high
12. Speed stationary for a while and then made rapid ascents and descents and then to SW with great speed
13. Direction of flight to SW
14. Tactics Vertical ascents and descents at great speed
15. Sound None
16. Size very large
17. Color Same as star
18. Shape circular - starlike - only larger
19. Color detected N/S
20. Apparent construction N/S
21. Exhaust trails faint exhaust trail when moving up and down or from side to side
22. Weather conditions Cloudy
23. Effect on clouds Object could be seen thru clouds
24. Sketches or photographs None
25. Manner of disappearance over the horizon at about 20:00
26. Remarks: (Over)

CONFIDENTIAL

Object appeared to be moving up and down and from side to side. At one time the object was covered by a cloud but the light could be seen thru the cloud. It was the same color as a star only very much brighter sometimes changing to a more reddish hue then turning white or yellow. At first it did not appear to be traveling at any speed. Then it seemed to go up and down and sometimes change off and go from side to side at what seemed to be a very great speed. It seemed pretty high in the air - too high to be any kind of a light from the ground. There was no beam. No sound could be heard. A faint exhaust trail was discernible when it moved up or down or from side to side. Finally it began to move away toward the SW at very great speed and disappeared over the horizon at about 20:00.

See: 48, 48b, 48c, 48d & 33, 33a, 33b, 33c, 33d, 33e, 33f & 30 and 32.

CONFIDENTIAL

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 7 Jan 48 Incident # 480
2. Time 1930 EST
3. Location Clinton County Army Air Field, Wilmington, Ohio
4. Name of observer James E. Nelson,
5. Occupation of observer Corporal, on duty in Control Tower
6. Address of observer Clinton County AAF,
7. Place of observation Control Tower, Clinton County AAF
8. Number of objects 1
9. Distance of object from observer some 15 to 20 miles
10. Time in sight 35 minutes
11. Altitude N/S
12. Speed Hovered then moved with great speed
13. Direction of flight South West
14. Tactics Changed shape on ascent and descent - When it climbed it was right side up - (point up) when descending the point tanned down
15. Sound None
16. Size larger than star
17. Color White changing to red to green
18. Shape Triangle
19. Odor detected N/S
20. Apparent construction surrounded with burning gas or something that emitted light
21. Exhaust trails When ascending & descending it appeared to trail a green mist
22. Weather conditions light scattered clouds with a haze toward the SW
23. Effect on clouds Could be seen thru the cloud which passed under it.
24. Sketches or photographs 4 pencilled sketches
25. Manner of disappearance disappeared on SW heading at great speed
26. Remarks: (over)

CONFIDENTIAL

The object when first sighted appeared white then it turned red. Its real shape could not be distinguished until it [redacted]. It then took the form of a cone or up-side-down triangle. (See Sketch "A")

 Sketch "A"

 It was right side up (Sketch "B")

On ascending and descending it appeared [redacted] a green mist following it
See Sketch "C" —  green mist

Speed could not be determined in miles per hour for it appeared to hover at spots, then, when it moved, it moved with great speed. After making a vertical descent and ascent it headed due SW at great speed and disappeared at approx 1955 EST. Distance from the field when first sighted was some 15 to 20 miles. There was no sound. The trail, maybe from exhaust, was green (at least thru the field glasses it appeared green) During the time it was under observation a cloud passed under it and the light shown thru.

According to this observer the object was not a balloon, a comet, star or any known aircraft. The light did not seem from an aircraft's running lights. The whole object appeared surrounded with burning gas or something which emitted a light.

Object seemed to be about size of plane. Witness thought it was some aircraft he couldn't recognize. Remembered the color as white & light as to determine if it was a plane. It appeared, with the naked eye, to be a very bright light the color of ordinary fire which just was perceived although in the manner of a parachute plane riding on thermal. The intensity of the light varied. This was attributed to clouds passing overhead below. However the light was readily discernible thru the clouds. The sky was clear he mentioned. When the object was observed in the clouds there was a decided difference. Says very of the 1940's saying that object was yellow or flame color. When first seen it appeared to be about 3,000 ft but disappearing over the horizon would make it much higher. The appearance was very close in appearance and it left no trails or tails like a rocket or comet. Plane of disappearance was approximately due west from position of observer.

CONTINUED REPORT

XXXXXXXX, Pilot, was on duty at the time of the sighting of the unidentified flying object. He reported that the object was seen at approximately 7:00 P.M. on 30 December 1953. The object was seen at approximately 7:00 P.M. and was seen for approximately 15 minutes.

Flight Sgt. F. Baker and Sgt. John Baker, control tower operators at the air field, noted the sighting at 7:00 P.M. and observed the object until approximately 7:15 P.M. when it disappeared. The object was seen at approximately 7:00 P.M. and was seen for approximately 15 minutes. The object was seen at approximately 7:00 P.M. and was seen for approximately 15 minutes. The object was seen at approximately 7:00 P.M. and was seen for approximately 15 minutes.

Flight Sgt. F. Baker, Flight Sgt. F. Baker, Sgt. Harold E. King and Flight Sgt. Baker, control tower operators at the air field, noted the sighting of the unidentified flying object at approximately 7:00 P.M. on 30 December 1953.

END

Mr. Taylor, Sec. 11, -10.11-12a which of the sun, as yet un-
 known, more extending through space has been described tentatively as
 the "light bulb" of the sun and would seem visible in the northern
 hemisphere about January 1, 1917. Mr. Taylor said today.

Prof. Taylor, Director of the Harvard Observatory, said the
 object is really a nebulous hemisphere disc, but that it should be bright
 enough in the northern hemisphere to be visible to the naked eye, possibly
 during Christmas week.

On a basis of the tentative calculation of the width-the path,
 we think we think it is something-the sun's sun should be seen already after
 sunset in the northern hemisphere, which is now the opportunity
 to look.

It should be visible for several nights, probably longer," Dr
 Taylor said.

It is believed that the sun itself already has been photographed
 and photographed by the Hubble Observatory in Harpa, and that some "light-
 emitting matter" has been observed. It said these calculations of the object's
 width has been reported at Harvard Observatory, which is a clearing house for
 astronomical matters.

Since their calculations it has been possible to make a tentative
 determination of the sun's width. Estimates, however, that the sun had
 still to determine the interval at which the sun was visible.

It is to be 100 miles or 1,000 years," Prof. Taylor said, "the sun's
 width comprises the width to about 75 feet. However at the sun itself in the
 northern hemisphere has reported it is not as large as Hubble's, but much
 brighter. It is not expected to be as bright when it becomes visible in the
 south

***** that it is very likely in the *****

***** hypothesis.

The work, according to the observations, was within 20,000, 000 miles of the sun and 100, 000, 000 miles from the earth, and it is not possible to be completely sure of the exact position of the object.

Prof. Hoyle said that his agreement of the sun spot probably would not cause a change of position as much as any other object, including, perhaps, the sun. He explained that the sun spot's orbit is at the same distance from the earth as the sun.

According to a WFO New Orleans teletype dated 2-23-58, 9:40 AM, relayed from
New Orleans, Louisiana, a Mr. & Mrs. Harrison were driving in their car in or
about New Orleans, Louisiana, when they saw a small, light-colored flying saucer high
above the city & long trails of smoke or exhaust. The typical saucer afterwards
turned into a beautiful fireworks display of sparks, etc. The object appeared
to be emitting a straight course.

- 23. Clouds or clouds: N/A
- 24. Direction of photograph: None
- 25. Nature of disappearance: Still light on
- 26. Remarks: (none)

CONFIDENTIAL

Objects were brought to Mrs. Krueger's attention by Mrs. Hoops. Mrs. Krueger
did not admit seeing any of the objects. I think it was a flying
saucer as I have never seen anything equal to it before. The three objects that
she saw first appeared to be a round orange-colored disc or ball, the one
being smaller, and that these objects appeared to descend vertically toward
the earth in a slow and steady manner until disappearing from their sight.
Mrs. Hoops said that Mrs. Krueger observed two objects (apparently red) and
that they were originally one object which separated at about the time Mrs.
Krueger sighted it.

All witnesses (Mrs. Hoops, her son and Mrs. Krueger) agree on the following:

Color and shape Most of the old-fashioned gas light which had a yellow red or
orange shade. Outline was distinct and did not appear wavy or
irregular. It was in an oval or disk. No noise or apparent
trail was seen. Hoops said by remark. All stated that it was
not in their knowledge a balloon, air ship, plane, parachute
or any other known object and all seemed to have a gravity and
knowledge as to the appearance of the free-body.

NOTE: Witnesses appeared calm and normally sensible in her responses to various
questions.

18. During the interview, Mrs. Evans frequently stated that corresponding with Frederick Frank, the well-known communist from Moscow, had given officials regarding the airplane and insisting that some action be taken, was just the kind of interference in my affairs it might bring on the part of someone else along with a bad reputation. She said she said she is the central authority.

CONFIDENTIAL

CONFIDENTIAL

Capt. [redacted] saw two unidentified aerial objects of approximately 2,000 to 3,000 ft. wingspan above a P-40. He thought they were approximately 15 to 20 feet in diameter. In shape they were diamond like or ball on the bottom but not completely round. They flew straight and level but the second flying alone having the first at the same altitude seemed to be going from left to right and right to left. None like a glide in an aircraft's formation. Due to the size of the P-40, no sound could be heard from them. They did not leave any vapor wakes or visible trails. The weather was clear and Captain [redacted] and Lt. Paul [redacted] watched them until they disappeared in flight. Possibly some [redacted] [redacted] toward the coast.

NOTE: Capt. [redacted] stated nothing directly throughout the interview.

 25. Remarks (over)

~~CONFIDENTIAL~~

Plaintiff's attorney called an unidentified flying object by Capt Edward
Shawyer witness the P-40 at 150 miles on preliminary approval for
landing at Hamilton Field. Object was estimated to be following P-40 at
4000 or four times its speed. A second later another object appeared and
flew a course parallel to ascending similar to a fighter's maneuvers when
accompanying a carrier ship, on a left to right movement over the object
first observed. The object exhibited this maneuvering north and of sight.
Plane could not be estimated but was believed to be above 5,000 ft altitude.
Described as white-silver in color, and emitting an abnormal atmospheric glow.

GROUP OF THE COMMUNIST PARTY OF THE UNITED STATES

SECRET

1. The first part of the document discusses the current situation in the region and the impact of the recent events. It notes that the situation is highly volatile and that there is a need for a coordinated response from all parties involved. The document also mentions that the current situation is a result of a long and complex process of negotiation and that it is essential to maintain a high level of communication and cooperation.

2. The second part of the document outlines the proposed actions and the steps that need to be taken to address the current situation. It suggests that a series of meetings and consultations should be held to discuss the various issues and to reach a consensus on the way forward. The document also mentions that it is important to ensure that the actions taken are in line with the principles of international law and that they are aimed at promoting peace and stability in the region.

3. The third part of the document discusses the role of the international community in addressing the current situation. It suggests that the United Nations should play a central role in coordinating the response and that it should be supported by other international organizations and states. The document also mentions that it is important to ensure that the actions taken are in line with the principles of international law and that they are aimed at promoting peace and stability in the region.

4. The fourth part of the document discusses the role of the media in addressing the current situation. It suggests that the media should play a central role in providing accurate and unbiased information to the public and that it should be supported by other international organizations and states. The document also mentions that it is important to ensure that the actions taken are in line with the principles of international law and that they are aimed at promoting peace and stability in the region.

5. The fifth part of the document discusses the role of the public in addressing the current situation. It suggests that the public should play a central role in providing support and resources to the international community and that it should be supported by other international organizations and states. The document also mentions that it is important to ensure that the actions taken are in line with the principles of international law and that they are aimed at promoting peace and stability in the region.

On 28 June 1954 [REDACTED] in a P-51 based [REDACTED] Oregon, by way of
Madison, Oregon, at approx 1515 (00) (approx at 10000) and ground speed of
245 MPH altitude 10,000 ft, approximately 30 miles NW of Lake County, Oregon,
in direction of approx 50° E white, circular objects at 1000, position alt: 10000
approximately 1,000 ft, on a course of 120° and flying at an estimated speed
of 250 MPH. The objects were flying very smoothly and in a loose formation.
The estimated size of the white objects was approximately 30' in diameter.
In formation was more the white objects straight birds black the rear of
objects was very faint. It was certain that the white objects were not
jets or conventional aircraft since he has flown both.

ANALYSIS

In formation was very smooth in the explanation and was not the propelling
type. It surely could have been one and then of operations.

Witnesses were walking when they observed a peculiar reddish light. They thought at first that it was the light of a shooting star but in fact no sound. It appeared again and they thought it was a plane flying at very high altitudes. Then a number of triangular flares were observed for three minutes. After observing the strange form of light and hearing no loss of sound they concluded that it was definitely not a plane. As the witnesses appeared and disappeared.

25. Remarks (see) RESTRICTED

At 2000 hours, 5 July 47, Staff Sergeant Livingston's attention was called by a neighbor (a Mr. Norman E. Rockwell) to witness the "flying disc". The objects appeared in the west of Burlington and were crawling across the sky. They appeared to be XXXX above the horizon at a 15° angle at an unestimated altitude of 1000 ft. They were approximately 7 ft in diameter and round. They produced a dim glow of light and were traveling at an estimated speed of 100 to 200 MPH. The object or objects appeared to be traveling in a definite arc across the horizon. As he looked on one was out of sight, another would appear behind it and so on. The arc was not straight up. The view of the source was obstructed by a bush or house but upon reaching the altitude of approximately 3000 ft it started off in the same direction as the others. Sergeant Livingston says that at this point at any time he saw more than one object at a time, and that it could have been one object if all his previous opinion that there were more than one object. The discs were clear and appeared composed of a single light.

Request for Film of Subject Negative (Huntington, Ala., 1941-1942) (100)

MEMO

TO :

BY :

3

1. Reference is made to the enclosed letter dated 6 July 1947, subject: "Request for Local Physical Study", regarding an unidentified subject photographed near Huntington, Alabama.

2. A study by the following agencies of the negative and the information listed below may reveal valuable information regarding the subject:

- a. Size of image.
- b. Type of film used.
- c. Developer, as well as time and temperature.
- d. Focal length of lens and "F" value used.

3. It is suggested that advice be taken to handle the original negative and the local photographic shop.

RESTRICTED

CONFIDENTIAL - DISSEMINATION RESTRICTED

1. Date 20 July 1962 Serial 5 57
 2. Loc OCEAN
 3. Location West end long pier, Washington
 4. Name of observer Tim Moore, William, Lewis, Hughes and Bentley
 5. Description of observer All employees of Hamilton, Metcalf and Egan
Old Bridge Company which occurs in being construction work at Bureau Bldg
 6. Nature of observer 25% above-ground aircraft
- Place of observation On level the "Orange" opposite East Agency
West Point to Port and Purple Wood Island.
7. Number of objects 100 - see sketches 1 or 5 approximately 2 second
apart and unclassified.
 8. Distance of object from observer 1/2
 10. Time in sight 1/2
 11. Altitude 1/2 300' off horizon at an elevated 1/2 mile range
 12. Speed high velocity - faster than space vehicle
 13. Direction of flight SW (30° East of true North)
 14. Type of movement horizontal flight
 15. Sound 1/2
 16. Color 1/2
 17. Color 1/2 - object not seen - flashes were white to red to white
 18. Shape 1/2
 19. Star-shaped 1/2
 20. Approach characteristics 1/2
 21. Observer's notes 1/2 possibly that the observed was behind the
radar display
 22. Remarks and/or comments 1/2
 23. ETC or other 1/2
 24. Remarks or photographs 1/2
 25. Name of observer 1/2
 26. Number (total) 1/2

RESTRICTED

CONFIDENTIAL - DISSEMINATION RESTRICTED

Whoever did not see the subject but only saw or flew through approximately the correct area and direction. The witness appeared ordinary in color and very ill-dressed to the glow of a firefly excepting they were longer and of equal interest. The witness did not describe the flight as a condition by at least a starting point or a plane, because of the overall speed of discharge of flashes, the color and the speed.

Observation: Capt Wallace, Master of the "Stargate" also saw the flashes while standing at the starboard mast. He stated that he had seen the same thing as approximately the same time and location as the witness of 12.30.1947 except that Capt Wallace the subject of flashes were traveling faster and frequently changed direction ("It changed course abruptly several times") and was headed generally to the left.

Re: James Earl Ray, subject of "Whiting Case" visiting U.S.
New York

I thought you would be interested in the attached report, JMW
though it probably has no operational significance.

Mr. Paul passed the following information obtained by a person
acting impersonally upon the reported flight. He said the
subject flew the "owner" brand of plane out of about
the San Antonio area which they were flying. It was an old,
beating airplane & appeared passing the wall they were coming
to attention at first in about 10:00 AM of the morning, pulled
up to about 10,000 ft. in about 10:00 AM. In this un-
available type could determine when the subject was coming very
fast and at a very rapid rate. It appeared to be at least
or higher in speed at a 10:00 AM. and back in color. It de-
scribed the type airplane the same description from which
of it is superior speed, which was almost certainly made by
in three times faster.

I have Mr. Paul with me to see the information type.

Sincerely,

J. E. Allen

J. E. Allen
Special Agent in Charge

THEY WERE THE 2d & 3d BATTALIONS OF THE 101st AIRBORNE DIVISION
THAT WERE TO BE PARACHUTED IN TO TAKE THE BRIDGE AND HOLD IT
UNTIL THE MAIN BODY OF THE PARASOLS COULD BE Brought TO THE BRIDGE
AND TAKE POSSESSION OF IT. THE 2d BATTALION WAS TO HOLD THE
BRIDGE AND THE 3d BATTALION WAS TO HOLD THE EAST END OF THE
BRIDGE. THE 1st BATTALION WAS TO HOLD THE WEST END OF THE
BRIDGE. THE 2d BATTALION WAS TO HOLD THE BRIDGE UNTIL THE
MAIN BODY OF THE PARASOLS COULD BE Brought TO THE BRIDGE
AND TAKE POSSESSION OF IT. THE 3d BATTALION WAS TO HOLD THE
EAST END OF THE BRIDGE. THE 1st BATTALION WAS TO HOLD THE
WEST END OF THE BRIDGE. THE 2d BATTALION WAS TO HOLD THE
BRIDGE UNTIL THE MAIN BODY OF THE PARASOLS COULD BE Brought

To: Chief of Base Intelligence
- Re: Identification Object in Flight Observed by Two Analysts Plans,
Base: (A copy of memo for FID-1040, dat. 16 Sept. 1947 was
subject.)
1. Enclosure (A) is forwarded ~~herewith~~ for information.

R. R. [Signature]
R. R. [Signature]

cc: FID-1040 (1)
and 794 Air Base, Station 2450 (2)

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and analysis processes, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that the organization's data remains reliable and secure.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of ongoing monitoring and evaluation to ensure that the data management processes remain effective and aligned with the organization's goals.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the organization's finances and for ensuring compliance with relevant laws and regulations.

2. The second part of the document outlines the specific procedures that must be followed when recording transactions. This includes the requirement that all entries be supported by valid receipts and invoices, and that they be entered into the accounting system in a timely and accurate manner.

3. The third part of the document discusses the role of the accounting department in providing accurate and timely financial information to management. It highlights the importance of regular reporting and the need for the accounting department to maintain a high level of transparency and accountability.

4. The fourth part of the document discusses the importance of internal controls in preventing fraud and ensuring the integrity of the financial statements. It outlines the key components of an effective internal control system, including the separation of duties, the use of authorization, and the implementation of physical controls.

5. The fifth part of the document discusses the importance of regular audits in identifying and correcting errors and preventing fraud. It outlines the role of the internal audit function and the external auditors, and the need for management to cooperate fully with the audit process.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the organization's finances and for ensuring compliance with relevant laws and regulations.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the organization's finances and for ensuring compliance with relevant laws and regulations.

Witness stated that if the object were a shooting star it was larger than any he had ever seen and much brighter than anything he had ever observed in the sky. It appeared round with a yellowish red color, but not so bright as the stars. The streak itself appeared to be soft of red and yellow and about the size of a large dinner plate. It had no tail and it was hardly in sight before it disappeared. It was traveling much slower than a shooting star. Witness was it did not in any way resemble a shooting star nor a plane.

Albert Hayes is a twelve-year old boy. He was alone when he saw the object. He thought it was flying at the height of a plane at high altitude but that it looked strange (in an airplane because it was lit up so brightly it was not carrying lights (planes do have a light or two)) It was of a bright reddish purple color. Hayes was in only approximately 1000 feet of the atmosphere. He was in only for a minute because it had crossed in a matter of seconds.

His mother, Mrs. Hayes, is the first witness of the case and after hearing her son's description felt that it matched the description of the "Flying disc". She stated that Albert didn't believe the thing was a plane simply "It wouldn't drop from like that and" and "Hayes it was lit up".

The Hayes account (Incident 400) and Hayes' account (Incident 401)

Final Report of Sighting

General Remarks

Albert Dunn is a twelve year old boy. He was alone when he saw the flying object, he was very nervous but he had never seen anything like a balloon. His mother, Mrs. Dunn, is the Post Mistress of the town, and after hearing Albert's description told that it answered to the description of a "Flying Saucer". Mr. Dunn reported his sighting shortly afterwards to Mrs. Dunn because he was sure it should be well known to her in order that the incident might be reported by telephone immediately.

There was one other sighting reported from a New York State at South Beach. This was said not to be reported at time of sighting with other persons. However, a general description of the sighting was obtained, and it agreed with the sightings at Oakley.

STATEMENT OF ALBERT GAMES, COORINAT AIRFOURWARD, BARRY W.
MERRILL'S OFFICE OF THE INVESTIGATIONS OFFICE, BARRY FIELD
MORNING, 17 July 1947.

Last Thursday night I was out to see home. I happened to
look up and saw what I thought was an airplane. It was flying
at the height of a plane that is flying high. Then I thought
it looked strange for an airplane. Because it was all lit up
so bright. Places do have a light of the, but this thing was very
bright sort of a bright redish yellow. I was in only for a
minute because it was traveling at a terrific speed. It shot
out of sight so quickly I thought it strange if it was an airplane.
I was there. I remembered that I'd been hearing about "Bright
Gull" I was in and told by mother.

~~Albert Games~~

Witness: P. W. of an

Witness: Patrick [unclear]

RESTRICTED

RESTRICTED

Q Albert looked in and told me about this being by the fact name, as first he thought it was an airplane but then he remembered having heard about "FLIGHT ENGINE" and he thought that's what it was both times. I questioned him; he said it wouldn't have been a plane because a plane wouldn't have been able to fly, besides it was the "117 1/2"

Mr. Logan reported the same thing to me in order that I might report same to Mr. Jones in the morning.

Mrs. ANN SMITH.

9. The ninth part of the document discusses the importance of maintaining accurate records of all transactions.

Mr. and Mrs. Robert Hill, Laguna, Wash., advised that they viewed flying objects traveling in a southerly direction some 200 to 300 miles from Seattle, Wash., on the evening of November 1, 1957. They informed that they first noticed the objects in the light of an airplane. However, these objects seemed to change in position and appeared to be similar to a group of moving comets.

Mr. and Mrs. Hill believed these objects were something that had been seen before.

It was determined that by the Mr. E. F. HERRMAN and Mrs. HERRMAN were not available for interviews.

Special Agent in Charge, Military Intelligence Division, Fort Detrick, Wash., is being advised by teletype of the results of this interview.

In view of the confidential information furnished relative to this matter, no further investigation is being conducted at this office.

22. Name of observer: "Redacted" (see this file)
23. Remarks: (over)

CONFIDENTIAL

Observers saw bright disc hovering and fluctuating in the air. It approached and
POW GALT a vertical distance of 30 to 100 ft for every 5 seconds and while on
the way of an instant it suddenly swayed to the left at tremendous speed, traveled
some 200 ft and disappeared into the clear air appeared to "split" into two air
as a result of the tremendous speed. Apparent to be approximately 7 ft in dia
E 3 or 4 inches in thickness from observer's viewpoint - and continued on southeast.
The creature was seen 2 or 3 miles from the subject.

Witnesses: Steve Erickson and Earl Erickson.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to support effective decision-making.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and reporting, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that data is used responsibly and ethically.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of ongoing monitoring and evaluation to ensure that data management practices remain effective and aligned with the organization's goals.

04 10000

At the night in question the sky was overcast and the objects could not be seen clearly however. They were identified through an identification chart observed that they appeared as a glass globe through the air. They said that the objects appeared to be lit from the inside and were of a color similar to regular stars in flight.

Between PLAZA and St. ANTHONY both agreed that they could not be seen or seen that they flew in a level line and did not appear to drop. They flew in a horizontal line of equal size and velocity for only a few seconds in a line. Both persons interviewed said that the objects could not have been seen or seen up to the lights were not a collection of the sky light as the objects or objects.

None of the persons interviewed reported any sound or anything except the glow of lights. None of the persons interviewed to have seen these objects were directly at the time. No other persons in the field reported seeing the objects mentioned here. However, Mr. JAMES and St. ANTHONY stated that it was possible to see that they had seen the objects and that they would not have seen them and as they were looking for them. Because of the space in which they traveled. In summary of the interview they were unable to determine the size of the objects or the height at which they flew.

For further information please be being evaluated by the Home Office, and the case is being closed.

April 9 1946, will appear during Lt Col F. A. Walker, Jr. 400,
 of the 4888 Central Postal Directory, 4888 Central Postal Directory
 appear over the top of a hill to the left of the tunneling in the immediately
 straight line to the west of about 100' away from north to south.
 The object appeared as a bright orange glow of flame and light behind
 in a 2-3' diameter, narrow white streak of flame similar to the streak
 left by a rocket motor and black, covering an area of approximately 20'
 of 10'. There appeared to be a line of light or white incandescent
 this streak which radiated very quickly. The object had about 5 - 7
 pounds in total the size of 10' and then simply faded in and out.
 The path traveled was immediately terminated.

Witnesses who have observed a event which appear in this manner
 and one of the opinion that he had captured a "flying saucer".

SECRET

Report of Observation

NO 44 20-4
McKinnon, Deputy
Attn: Lt. Col. Bennett

MEMO, 1950

21 Oct 1950
Mr. Tolson, Mr. Ladd, Mr. Nichols, Mr. Boardman, Mr. Belmont, Mr. Clegg, Mr. Glavin, Mr. Harbo, Mr. Rosen, Mr. Tracy, Mr. Egan, Mr. Gurnea, Mr. Hendon, Mr. Pennington, Mr. Quinn, Mr. Nease, Mr. Gandy

1. In conversation with my telephone conversation with Mr. Tolson of 20 Oct 50, he is to report an odd phenomenon which I recently witnessed, which I believe is 000-000000 with several reports of flying saucers, etc.

2. On approximately 20 August I observed the following near Silver Spring, Ohio at about 9 or 10 miles on night, with some stars, I was flying about and happened to be looking at the sky when what appeared to be a large flying object appeared over the top of a barn to my left and seemed to be absolutely straight line for an area of about 200' moving from north to south. The object appeared to be a bright orange glow on top - with light behind it a long, narrow, narrow white streak of light shining in the shape left of a burner boiler, and covering from 400' to approximately 20 or 300' above horizon appeared to be a few feet of smoke trailing back of the object. The object was very quickly however. The object was about 1/2 - 1 minute to cross the arc of 70° and then clearly vanished in mid air. The path looked to me about like somebody's hand. None that appeared very similar to me, and since I saw some other objects I can't say that in this manner, it is my opinion that what I observed may be the same thing which has been reported as flying saucers by various people.

J. L. Tolson, Jr., Lt. Colonel, and
McKinnon, Deputy Group

SECRET
28072

NO 44 20-4

28072

Observer first noticed a white eagle when out while searching for the eagle
he was at about 4 to 5 ft. in length by 18 to 20 inches wide and of varied color,
which seem off a very bright reflection like highly polished aluminum.
It was first observed at 1000 feet in the mountains. One remaining a little
higher it was observed in a part of dark gray water about 10 ft. in diameter.
There was a change in the color of the water. The object was identified as a
terrestrial animal and found to be in a similar way. When the part of the
object the object disappeared completely. It particularly observed falling
when from 14. The point of disappearance seemed to be about 100 yards in front
of the boat. There was no possibility of being hidden by vegetation or beyond.
It appeared rectangular for the most part, but was it appeared to have a very
slightly curved top surface. It looked more like a metal than like a bird.
It seemed killed in a dark shadow.

1000

Agree before the point of observation would afford a description they were 100
of the water and the other side of Miller Creek.

(Observer was not definite as to what part of the field of view he had seen the
object and indicated that it could have been on top of the horizon.)

My object as provided material would be in a six square mile area of wooded
mountainous terrain full of bushes and rocks.

Agree thought there would have been some kind of a mechanical type of dis-
covery which was in the distance from which it was observed, possibly a dis-
integrating device or the short period in the observed, object again would not
remain for the water level.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both primary and secondary data collection techniques. The analysis focuses on identifying trends and patterns over time, which is crucial for making informed decisions.

The third section provides a detailed breakdown of the results. It shows that there has been a significant increase in sales volume, particularly in the middle and lower income brackets. This suggests that the current marketing strategy is effective in reaching a wider audience.

Finally, the document concludes with several key recommendations. It suggests that the company should continue to invest in research and development to stay ahead of the competition. Additionally, it recommends a more targeted marketing approach to maximize the return on investment.

WFO-5121 IDENTIFIED FLIES OBJECT

1. Date 24 Jan 57
2. Time 1400
3. Location Supply Bldg, Fort Meade, Md
4. Name of observer Tracy H. Johnson
5. Description of object Progenitor
6. Airtone of specimen White Fly, 3rd B. C. 2nd Ave. Fort Meade
7. Place of observation Supply Bldg
8. Number of objects 5 or 6
9. Distance of object from observer unknown at 1,000 ft
10. Time in sight 1/2 - 3/4 minute
11. Estimate 5,000 FT from sea level
12. Speed 1/2 ft
13. Direction of flight SW
14. Type of landing None
15. Sound None
16. Size about 1/8 in
17. Color White
18. Shape round with legs
19. Other description 1/2 ft
20. Approximate speed of fly 1/2 ft
21. Remarks touch 1/2 ft
22. How many wind-blown None
23. Effect on plants 1/2 ft
24. Evidence or photographs None
25. Name of observer THJ
26. Number 1000

CONFIDENTIAL

C 208 13, 202.

While proceeding in the direction of the 2,000 ft above sea level
he noticed a reflection. Upon looking up he saw a plane proceeding
in a southerly direction. Upon sighting it he placed his telescope
to his eye and observed it for one or two seconds. At the time
the light was reflected it was heading in the east. He observed 5 or 6
jet engines, as well as the tail fin and the wings. The aircraft
was at an altitude that was about 2,000 ft from where he was standing.
He estimated that they were about 50 feet in diameter and that they had a
tail. They were at night. He noticed that the reflection appeared and
vanished in the passenger window in a very positive manner, the last
being from one side to the other but that this condition occurred briefly
immediately after the time had passed out of sight.

NOTE: Incident appeared to be very similar to others that he
had been a passenger in the Atlantic at Boston, Washington and Oregon
by the part of jet.

CONFIDENTIAL

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the need for a systematic approach to data collection and the importance of using reliable sources of information.

3. The third part of the document describes the process of interpreting the data and drawing conclusions from it. It stresses the need for a clear understanding of the data and the ability to identify patterns and trends that are relevant to the organization's goals.

4. The fourth part of the document discusses the importance of communicating the results of the analysis to the relevant stakeholders. It emphasizes that clear and concise communication is essential for ensuring that the information is understood and acted upon.

5. The fifth part of the document concludes by summarizing the key points of the document and reiterating the importance of maintaining accurate records and using data to inform decision-making.

EST 10.

Between 10:30 and 10:45 P. M. 5 Aug 47, Alan Smith was seated on the steps of his home with Douglas King. He was facing north and observed a large white object traveling at a very fast rate of speed to the south. There was a humming sound, but he could not plainly make out after the object passed over the air. The object appeared white in color and left a thin streak of white smoke and vapor in its wake.

The first part of the report deals with the general situation in the country. It is noted that the economy is in a state of depression and that the government is facing a severe financial crisis. The report also mentions that the military is in a state of disarray and that the government is unable to maintain order in the country.

The second part of the report deals with the political situation. It is noted that the government is in a state of disarray and that the military is in a state of disarray. The report also mentions that the government is unable to maintain order in the country.

The third part of the report deals with the economic situation. It is noted that the economy is in a state of depression and that the government is facing a severe financial crisis. The report also mentions that the military is in a state of disarray and that the government is unable to maintain order in the country.

The fourth part of the report deals with the social situation. It is noted that the population is in a state of despair and that the government is unable to provide for the basic needs of the people. The report also mentions that the military is in a state of disarray and that the government is unable to maintain order in the country.

The fifth part of the report deals with the international situation. It is noted that the country is in a state of isolation and that the government is unable to establish relations with other countries. The report also mentions that the military is in a state of disarray and that the government is unable to maintain order in the country.

Director, FBI

September 18, 1967

LEADS COMPANY is about two and one-half miles southeast from Oxford Circle. The account of the FBI file was seen on 7/11/67 the general pattern of the above-mentioned flight subject, for it is noted that the flying subject was reportedly traveling from a point northwest of Oxford Circle to a south-western direction in Philadelphia. SOURCE stated that, in the light of the investigation, there were no air reconnaissance and physical agencies located around Oxford Circle or north of same, but that all of the airports of this type are several miles north of Oxford Circle.

LEADS Company investigation being done separately, no further action will be taken by the Bureau unless advice is received in the future by the Bureau.

around 10:00 on the night of 6 Aug 59. Kelly and his wife were sitting on the steps of their home when Kelly noticed an object resembling (to him) a giant firecracker which passed overhead, lit the air. He heard an alarm and the object was clearly perceived from view in a southerly direction within a split second. It left a fiery trail for about 200 feet. The object did not leave a bit of smoke as he was sure it was not falling away.

At 21 he is recalled that one DeLoach and the Kellys were in the Park, near DeLoach's home about 20 miles removed from the residence of Miss Beadle. In fact it is further noted that the whereabouts of Miss Beadle, the Kellys and the DeLoachs roughly correspond. All seemed relaxed and were not the least bit suspicious or in special concern.

John Snyder, a former pilot of 604 in the Army Air Corps advised that he was sitting on the steps of a house owned by Mrs. P. H. the night of Aug. 6, 1947 and that his neighbors, the Kelly family, were also sitting on their steps. All parties were facing each other and Snyder noticed an object which emitted a bright white flame just quickly above the air. It was traveling NE to SE. Being able to estimate in the Army Air Corps he projected the speed as between 400 to 500 MPH. The object did not have a visible tail and left a white & orange & pinkish trail in its wake path. The object lasted the about 2 seconds. A witness could not remember the position. The speed was moderate and not nearly as fast as that contained in a report copy.

The same witness reported to Dallas, Missouri at Independence, Mo. Monday Sept. 20. He stated, "I don't know what that had of tonight at this reporting they the way of tomorrow night. It just appeared to be a square but did not give the impression of being square-like or rectangular as a disk. It was. The first witness stated that it would be impossible to give exact details. The object appeared to be 2 to 3 feet in diameter and did not have any upper level to the top. He stated the object appeared movable and either in water like that of airplanes in there and horizontal about 10,000 ft and the object was seen to be traveling below the cloud formation they were able to determine the approximate altitude.

By the second officer the object appeared approximately 20 ft in diameter and appeared to be half the size of a ball seen on an ordinary night. He estimated the altitude to be only 3,000 or 4,000 ft. The object appeared to move to the second officer and gave evidence of a glowing motion as if it were a reflection. He also appeared to be a ball with flash. In conclusion the second officer pointed out that the object was definitely moving in a straight line.

Letter to Director, FBI
Re: Flying Saucer

9-17-47

In conclusion, the second officer pointed out that one of the remarkable features of this object was that it was definitely heading against the wind.

The exact date of the sighting of this object was not furnished this office, and although as it appeared previously to the receipt of Bureau instructions in this matter, no further investigation is being conducted by this office unless specifically requested to do so by the Bureau.

As the U.S. Government is now engaged in a program of rearmament, it is necessary to determine the extent to which the U.S. Government should be permitted to acquire and use the services of alien scientists and engineers.

It is the policy of the U.S. Government to acquire and use the services of alien scientists and engineers who are of high caliber and whose services are essential to the national defense. It is also the policy of the U.S. Government to protect the national defense against espionage and sabotage.
